with this wonderful, most powerful science. Whe

Do you doubt predestination? then why not every man gain the celebrity of General Taylor, Daniel Webster, or a Henry Clay? and yet there are some who are foolish enough to doubt that a man may be born with the power to see into future events. Such should not condemn till they have called to see the seventh son of the seventh son, whose advantages from travelling have given him more experience than all the other, astrologers, male or female, in the United Sates.

How can it be possible that the destiny of man should be governed by the mere shuffling of a pack of cards? and yet there are thousands who allow of cards and yet there are mustants who are with emselves, with open mouths, to swallow the greasy words of some old woman, whose true skill consists in filling them with wonders that are more for the digestion of others, who credulous, yet more scientific. It is such that bring discredit on a proession that has been acknowledged to be a scien fession that has been acknowledged to be a science of the highest order, from time immemorial; and it is the only profession that has holy authority to sustain it. The high respect which General Taylor and the following gentlemen had for Astrology is, shown by his letter for his nativity, of the 10th of February, 1846, to the subscriber, in which he pre-dicted all his victories, and named the places of the late war with Mexico; he also predicted that he would be elected President of the United States,

would be elected President of the United States, and also foretold that he would not live but a short time after his election, which prediction has been filled to the very letter.

He is also capable of curing diseases heretofore considered incurable in this country by the ordinary medicines, and wishes all to give had a call who have been given up by their physicia and wish to be cured. He will warrant a cure all cases, and will make no charge, except for the conjurations he shall make use of in his office. He is ready to use his influence to foretell, the result of lawsuits, and all undertakings in which there is a risk involved; he also makes use of his power for the restoration of stolen or lost property, which he has used for the advantage of thousands in this city and elsewhere.
