SCIENTIFIC EVIDENCE! Baron Liebig in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the muccus membrane of the stom-ach of the calf, in which various articles of food, as ment and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

the method of preparation. There are few higher authorities than Dr. Percira. Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a dim-inution of the due quanity of the Gastric Juice is a promment and all-prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in Loudon, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved com-pletely successfull." Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, mace-rated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in nowise different from the natural digestive process." AS A DYSPEPSIA CURER, Dr. HOUGHITON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emacintion, Nervons Decline, and Dyspeptic Consumption.
