Such a should not condemin till they have called to see the seventh son of the seventh son, whose advantages from travelling have given him more experience, than all the other astrologers, male or female, in the United Sates. It is such that bring discredit on a profession that has been acknowledged to be a science of the highest order, from time immemorial; and it is it, the high respect which General Taylor and the following gentlemen had for Astrology is, shown by his letter for his nativity, of the 10th of February, 1846, to the subscriber, in which he predicted all his victories, and named the places of the late war with Mexico; he also predicted that he would be cletted President of the united States, and also foretold that he would notive but a short time.

He will warrant a cure in all cases, and will make no charge, except for the conjurations he shall make use of in his office. He is often asked what a nativity is: he answers, ac-cording to Geomancy, one of the seven points in the science of Astrology, that it is a Horoscope of the future events of a persons's life, carefully cal-culated and transcribed on paper, containing an account of all the lucky and unlucky days in the months and years of the persons's life for whom it is cast; by which means thousands in this country and elsewhere have been prevented from misfortunes that had been hidden in the womb of futurity, by referring to their Nativity before entering on any speculation of business or pleasure. It should be in the hands of every one as their Almanac of life. A Nativity of an individual can only forwarn the possessor of troubles that are in future for him; those who are involved in present difficulties of any kind must wait on the subscriber in person or by letter, who is prepared to evert his influence for their im-mediato benefit.
