Baron Liebig in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the muscus property of the control o prepared from the nucous membrane of the stom-ach of the calf, in which various articles of food as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of praparation."

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervons Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent. It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in cating, and the too free use of ardent spirits. It almost reconciles health with intemprance.
