Great Cure for Dyspepsia! ANOTHER SCIENTIFIC WONDER

DR. J. S. HOUGHTON'S PEPSIN! The True Digestive Finid or Gastrie Juice!

The True Digestive Finid or Gastrie Juice!

PREPARED from Rennet; or the fourth Stomach of the Ox, after directions of Baron Liesio, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastrie Juice.

Half a teuspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beel in about two hours, out of the stomach.

Persix is the chief element, or Great Digesting Principle of the Gastrie Juice—the solvent of the lood, the purifying, preserving and stimulating Principle of the Gastric Juice—the solvent of the lood, the purifying, preserving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus forning an Artificial Digestive Fluid, procisely like the natural Castric Juice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evits of Indigestion and Dyspepsis are removed, just as they would be by a healthy stomach. It is doing wonders for dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE?

in the highest degree curious and remarkable. SCIENTIFIC EVIDENCE!

Baron Lieby in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fawler & Wells, New York, page 33, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Peteira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia," and he states that "a distinguished professor of incidence in Landon, who was severely afflicted with this complaint, inding overything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful," and of the famous works on "Vegetable Diet," save." It is exceptively the control of the states of the famous works on "Vegetable Diet," save."

10 Tr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macestained in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digastion of them in nowise different from the natural digestive process."

AS A DYSPEPSIA CURER, and also must marvellous effects, in curing cases of Debility, Emacintion. Nervons Decline, and Dyspeptic consumption. It is impossible to give the details of cases in the limits of this advertisement; but attenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston alone. These there is no form of billy of the philadelphia, reverand Ague, or badly treated Fever and Ague, and the evil effects of Quinne, Mercury and other drugs upon the Digestive Organs, after a long sickness. duced, and its happy adaptation to the cure of the distressing diseases for which it is offered.

This CATHOLICON is in truth one of the Greatest Medical Discoveries of the Age, and is destined to become indentified

greasy words of some old woman, whose true skill consists in filling them with wonders that are more for the digestion of others, who credulous, yet more scientific. It is such that bring discredit on a procession that has been acknowledged to be a science of the highest order, from time immemorial; and it is the only profession that has holy authority to sustain it. The high respect which General Taylor and the following gentlemen had for Astrology is, shown by his letter for his nativity, of the 10th of February, 1846, to the subscriber, in which he predicted all his victories, and named the places of the late war with Mexico; he also predicted that he would be elected President of the United States, and also foretold that he would notlive but a short time after his election, which prediction has been filled to the very letter.

In addition to his power to foresee future events, he has the power to give such information as will effectually redeem such as are given to the free use of the bottle. He is also capable of curing diseases heretofore considered incurable in this country by the ordinary medicines, and wishes all to give him a call who have been given up by their physicians and wish to be cured. He will warrant a cure in all cases, and will make no charge, except for the sompty puffs and misrepresentations, nor is it intended that its present popularity shall be sustained
by any medium but its merits and the approbation
of the public. The Catholicon is not a "cure-all,"
