SHVER'S MINERAL PAINTS. THE wonder of the age, nature's own produc-tions. These Paints differ from all others in Itions. These Paints differ from all others in the market; they are not clays; they require little Oil, flow easily, and cover with a heavier flody than white lead. They neither crack nor peel, and firy readily, making an Enamen. or Stone. COLORS.—We have seen different colors, viz: three Browns, two Chocolates, Black and Yellow, and by combantion make every variety and shade. and by combination make every variety and sliade

BODY.—These Paints are superior in body (or covering property) to any yet discovered, and pound for pound will cover double the surface of pound for pound will cover double the surface of-white lead, zinc, or other metalic Paints. TRON.—To fron they furnish a perfect protection against rust, for they contain metal, which like lead acts destructively on the iron; in fact, this Paint makes iron doubly valuable for building pur-

make strict scrutiny into the merits of these Paints. They will find a very great reduction might be made in the cost of Painting. These Paints are purely mineral; all clays and other impurities are washed out in preparing them for the market.—They cost but half the price of white lead, and the same quantity will cover twice the surface, and last six times as long which in fact reduces the price to one-twelfth. Climate has no effect on this Paint, and its equally valuable in the cold Canadas or our sunn's Florida. sunny Florida.
DIRECTIONS.—Use Linseed Oil, mix as thick

as you can, and use as other paints. These paints need but little dryer, and for priming and second coating in all house work they will be found far cheaper and more durable than lead.

Burning of Barnum's Museum. Wilder's Patent Safe again the Victor!

Midder's Patcht Mile again the victor:

Thilladelpila, Jan. 1st, 1852.—The Salamander Safe which I purchased a few years since, and which was in use by Messrs. C. G. Henderson & Co., at the destruction of their store in the building known as "Barnum's Museum," on the 30th ult., has this morning been got at, and the Paint makes iron doubly valuable for building purposes.

BRICK WORK.—They give to house walls a much heavier coating than other paints, and if sanding is required, nothing holds so firmly or finishes so well with it.

OLD ROOFS—Give us a roof, ever so old and leaky, and Silver's Mineral Paints will make it cheaply new and more enduring than it ever was.

SHIPS using this extraordinary Mineral as we prepare it for them, will be proof against the action of hot surs, worms and salt water.

CAPITALIST'S and BUILDERS are invited to make strict scrutiny into the merits of these Paints.

improved plan of atmostpheric presimproved plan of atmostpheric pressure or springs. Moveable Seat Dental Chrirs.—
Dentists about to purchase operating chairs, should
examine Asay's Patent Moveable Seat Dental
Chair. In this new invention, the seat moves upwards and downward, at the will of the operator so
that he performs his manipulations, without disturbing the patient. Unlike moveable seats raised by
a central screw, or rollers and girth, this being supported at the four corners, not only remains firm,
but cannot get out of our order, and will last during
the life time of the operator.

GREAT SCIENTIFIC DISCOVERIES,

BY DR. J. W. COOPER.

FEVER AND AGUE MPLETELY CURED IN TH

FEVER AND AGUE PILLS. FEVER AND AGUE PILLS.

THESE Pills are composed entirely of Vegetable Substances, and in ninety-nine cases out of every hundred, will perform a perfect and permanent cure in three days. No instance, nas ever been known, where more than six days have been required to perform a complete cure, even in the very worst cases, and on the strongest constitutions. We would carnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two boxes are warranted to cure, if taken according to the directions, or the money returned. ALSO, MY VEGETABLE ANTL-DYSPEPSIA BITTERS.

This medicine is a certain cure for Dyspepsia

VEGETABLE ANTI-DYSPEPSIA BITTERS.
This medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been completely cured by it within the last year, which have been entirely despaired of by the regular family physicians. We do not recommend it to cure everything—we recommend it to cure Dyspepsia, and the diseases originating from it, and that it will cure in almost every case, and it is recommended for nothing else. In many instances, even the worst of cases have been completely cured in two-and three months, but it depends somewhat upon the constitution of the patient. somewhat upon the constitution of the patient We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be returned. ALSO

MY VEGETABLE WORM POWDERS. MY YELFABLE WORM TWO DEAS.

This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be fond of it, and many instances have been known of children rying for more after once taking it. This medicine is in the form of a powder, the only medicine ever used in that form, and it opertaes upon a principle entirely different from any other medicine ever administered by any other physician. It is the only medicine which has no Worm-seed Oil or Turpentine combined with it, which is helieved by all other physicians, to be the only two things which will destroy worms, and these two things combined, together with castor oil, are the active principles of all other worm medicines, which every person who has ever tasted or smelled, knows to be the most nauseous of all passeous medicines, and on account of which, there inly medicine ever used in that form, and it ope-

nauseous medicines, and on account of which, there is generally something added to destroy this nauis generally something added to desiroy this nat-seous taste, and in order to do this, it is some-thing stronger than the medicine itself, and therefore it must necessarily destroy some of its medicinal properties. These powders are simple and so harmless, that a child may cut a whole box at once, and it will not be hurt, while at the same time the principle upon which it acts being different from anything else ever used, it will destroy all rom anything else ever used, it will destroy alkinds of Worms with a certainty never equalled It will not only destroy the seat worms, or Ascari-des, and long, round worms, or Teres, but is the most effectual medicine for the destruction of the most effectual medicine for the destruction of the Tapo Worm, ever known. Ten doses have brought as many as FIVE Tape Worms from one person. If your children have any symptoms of worms, try these Powders, and in nine cases out of ten, you will never use any other. These are also verranted. varranted. These medicines are all separate, and one for each disease, and each for only one disease. They

are not recommended, as many other incidenes are, to cure some fifteen or twenty diseases, and all of different natures, but they are each to cure but one disease, and that they will do in minetynine cases out of every hundred, and where they have a fair trial and fail in all cases, the money will be returned.

the same labor of the team. It is warranted to hold 8 horses.

I have also completed a combined THRESHER AND CLEANER, which is capable of Threshing and Cleaning from 300 to 500 bushels of wheat per day, with from 6 to 8 Horses, and an equal number of hands. 4 horses can thresh with it from 100 to 200 bushels per day of wheat, and 400 to 500 of cats. It is very convenient for those who follow Threshing, and for two or more farmers to own in company; it is more convenient to move than any machine in use. The Machine stands on the wag-on while threshing—the Power is loaded on the same wagon in moving—two horses are sufficient to move it; it will save enough labor in threshing 2000 bushels to pay its extra cost. It will thresh in the field or by a tack as conveniently as in a barn. The cylinder and concave can readily be adjusted. The cylinder and concave can readily be adjusted so as to thresh with equal facility both tough and dry grain.
