SILVER'S MINERAL PAINTS. THE wonder of the 'age, nature's own produc-tions. These Paints differ from all others in the market; they are not clays; they require little Oil, flow easily, and cover with a heavier hody, than white lead. They neither crack nor peel, and dry readily, making an ENAMEL or STONE. COLORS.-We have seen different colors, viz: three Browns, two Chocolates, Black and Yellow, and by combination make every variety and shade of color.

BODY.—These Paints are superior in body (or covering property) to any yet discovered, and pound for pound will cover double the surface of white lead, zinc, or other metalic Paints. IRON.—To Iron they furnish a perfect projection against rust, for they contain metal, which like lead acts destructively on the iron; in fact this Paint makes iron doubly valuable for building pur-

Paint makes iron doubly valuable for building pup-poses. BRICK WORK.—They give to house walls a much heavier coating than other paints, and if sanding is required, nothing holds so firmly or fin-ishes so well with it. OLD ROOFS.—Give us a root, ever so old and leaky, and Silver's Mineral Paints will make it cheaply new and more enduring than it ever was. SHIPS using this extraordinary Mineral as, we propare it for them, will be proof against the ac-tion of, hot suns, worms and salt water. CAPITALISTS and BUILDERS are invited to make strict acrutiny into the merits of these Paints. They will find a very great reduction might be made in the cost of Painting. These Paints are purely mineral; all clays and other impurities are washed out in proparing them for the market.— They cost but half the price of white lead, and the same quantity will cover twice the surface, and last is three as long which in fact reduces the bries the price of the p and good but had not be prevent when the surface, had had six times as long which in fact reduces the price to one-twelfth. Climate has no effect on the Paint, and is equally valuable in the cold Canadas or our near Bleast

nny Florida. DIRECTIONS .--- Use Linseed Oil, mix as thick s you can, and use as other paints. These paints teed but little dryer, and for priming and second cotting in all house work they will be found far theaper and more durable than lead. Dealers and consumers can procure this Paint

This is a truly wonderful remedy for Indigestion,

The True Digestive Fluid or Gastric Juice ! PREPARED from Rennet, or the fourth Stom-the great Physiological Chemist, by J. S. Hough-ton, M. D., Philadelphis, Pa.

This is a truly wonderful remedy for Indigesion, Dyspepsia, Jaundice, Liver Complaint, Constiga-tion, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice. Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. Persus is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the food, the purifying, proserving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus form-ing an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its chemical powers<sub>2</sub> and ing an Arithetial Digestive Fluid, precisely like the natural Gastric Juice in its chemical powers, and furnishing a complete.and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsis are removed, just as they would be by a healthy stomach. It is doing wonders for dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Con-sumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based, is in the highest degree curious and remarkable. SCIENTIFIC EVIDENCE ' Baron Liebig in his celebrated work on Anima Chemistry, says: 'An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stom-ach of the calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same 'manner as they would be in the human stomach.'' Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the worked of prevention.'' ural Gastric Juice in its chemical powers, and

There are few higher authorities than Dr. Pereira. Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a dim-ination of the due quanity of the Gastric Jucc is a promneft and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in Loodon, who was severely afflicted with this complaint, finding everything else to fall, had recourse to the Gastric Juce; obtained from the stomech of living animals, which *proved com*. patronage. 30 The Public approve of it, because it is com-mon sense, and because they know from sad ex-perience, that one preparation will not cure the three stages of Consumption. 30 The suffering, disappointed, and discouraged invalid approves of it, because its principles hold out a reasonable hope, and when he uses Nuttall's Syriacum, his hopes are realized. If he is in the first stage of Consumption and uses the first bottle, his expectoration, difficult and painful, becomes free and easy, his cough soon gets well, the soreness, tickling in his throat, in-flammation, pain in his breast, side, head, back, joints, and limbs are removed. If he is in the second stage and uses the second Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervons Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Phila-dciphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderfol, but permanent. HEINITSH and JOHN F. LONG, Druggists. J. C. Ayer, --Sir: I was taken with a terrible cough, brought on by a cold, in the beginning of last February, and was confined to my, bed more than two months. Coughing incessantly night and day, I became ghastly and pale, my eyes were sun-ken and glassy, and my breath very short. Indeed, I was rapidly failing, and in such distress for breath that but little hope for my recovery could be en-tertained. While in this situation, a triend of mine, (the Rev. John Keller, of the Methodist church) brought me a bottle of your Cherry Pecto-ral, which I tried more to gratify him, than from any expectation of obtaining relief. Its good effect induced me to continue its use, and I soon found Insanity, Suicide. &c.
