confidence in the coming election for a Whig ma-jority, as we believe Massachusetts. Connecticut and Tennessee might have been. We must say,

that in support of the present nomination, made in opposition to the expressed sentiment of the Whigs

of the states, in our opinion, a Whig majority can

80 votes against Gen. Scott, and they are entitled to the same number of electors. Six of those states,

now entitled to 48 votes, gave their support in the

last election to Gen. Taylor, and the five others

Pierce--Webster--Scott.

There is one aspect of the opening Presidential

campaign, says the Boston Post, which cannot but

rejoice the heart of every true Democrat; and that

is the rejuvenation of the old Jackson feeling. Never

since the administration of that glorious old patriot

have blended all differences in one common tint .-

tionable, and his experience equal to any position in

the gift of the people. But unfortunately for Mr.

Webster and his party, he does not represent the

American idea of republicanism. He is rather motar

chical than democratic. Government with him does

not mean the expressed will of the people within

the limits of the constitution, but government under

creed. Such an exponent the Democratic element

rejects, and the eminence of the man is lost sight

of when the principle sought is found to be wanting.

The same objections cannot perhaps be urged

against Gen. Scott, because is not known that he pos

sesses any well settled opinions regarding the consti

tution; but other objections much more fatal can

be urged, the chief of which are his vanity, conceit

and love of pomp, united with a blind adherence to

Whig notions without ability to reduce them to

system. Besides, Whig military heroes for Presi-

administration of civil government, will find a pri-

vate station vastly better for his peace of mind as

At first the Whig leaders affected great astonish

nent at the nomination of Gen. Prence. 'Nobody

knows him." was their first observation. But they

have already found out their mistake. The Amer-

ican people do know him. They remember him as

an able representative in both branches of Congress,

and they remember him as a brave man on the

bad taste; it either convicts themselves of unac-

quaintance with the eminent men of the country,

r supposes the mass of the people in want of this

knowledge. The latter is not true; the former may be, for leading Whigs rarely if ever recognize same or statesmanship outside the fold of Whiggery. Be

this as it may-if their ignorance is sincere, they

vill have an opportunity within the next four year

for he will be the next President of the United States.

Sweet be thy Dreams.

BY MRS. AMELIA B. WELBY.

Sweet be thy dreams when balmy sleep Her southing influence round thee throws! What if any faded eyes should weep? Thine will be folded in repose. I know thou will not dream of me; Some lovelier one will haunt thy rest; I care not what those dreams may be, So they art sweet, and thou art blessed

Bright be thy hopes! why should one cloud Of sorrow dim thy radiant eye?
Go! mingle with the gay and proud, And learn to smile, though I may sigh:
Go! climb the loftiest steep of fame, And wreathe a laurel round thy brow?

And when thou'st won a glorious name, Low to the shrine of beauty bow. Light be thy heart! why shouldst thou sleep, Sadness within his secret cells? Let not thine eye one tear drop weep,
Unless that tear of rapture tells;
Go! shed on all thy brightest beams;
I would, but must not, bid thee stay; In dream like beauty pass away.

Out of Heart. BY ELLEN ASHTON.

"Why so sad, Earnest," said the young wife to her husband, affectionately twining her arms around his neck, and kissing him.

looked up with a sad smile and replied : "I am almost out of heart, Mary; I think, of all pursuits a profession is the worst. Here have I een, week after week, and month after monthmay soon say year after year-waiting for prac tice, yet without success. A lawyer may volunteer in a celebrated case, and so make himself; but physician must sit patiently in his office, and if iknown, see men with but half his acquirements unknown, see men with but half his acquirements rolling in wealth, while he, perhaps is starving.— And it will soon come to that," he added bitterly

An unbidden tear started into his wile's eye, but

she strove to smile and said,
"Do not despond Earnest. I know you have been unfortunate, so far, but you have talents and knowledge to make your way as soon as you get a start. And depend upon it," she added with a cheerful look, that will come when you least ex-

Earnest was in a mood which the most sanguine sometimes experience, when disappointment has crushed the spirit, and the voice of hope is no longer within. His wile would have given way to tears if she had been alone, but she left the necessity of

As he rose and walked the room with rapid strides, his wife sighed and remained silent. But after a minute or two, she arose and walked up to him, and fondly encircling him with her arms,

"Dear Earnest, do not worry yourself so. You think it painful for me to endure poverty, I know, but a woman never regards such things when she loves. A crust of bread and a log cabin would be preferable to me, if I shared them with you, than, a palace with another. But it will not come to this. Something within assures me you will yet be rich. As it her words had been propuette, the little girl, their only servant, appeared in this crisis, and said the doctor was wanted in a hurry. With an exulting smile his wife ran for his hat, and then

sat down with a beating heart to await his return. It was almost the first summons the young physician had received, though he had resided in the village more than a year. The place too was large and populous, and there were several physicians of large practice and all this combined to put down the young rival. More than once, heretofore, Ear-nest would have abandoned the field in despair, but his young wife cheered and encouraged him, tho etimes her own heart felt ready to give or Mary Linwood was, indeed, the greatest of all blessings, a good wife. She sympathized with her husband, economized to the utmost and by her sanband's return, yet he came not. At last darkness set in, and she began to feel uneasy. She was about rising to go to the door, when she heard her husband's foot on the step, and hurried out; she met

Breathless with anxiety to hear all, yet not unmindful of his probably wearied condition, Mary hurried her husband into the sitting room, where all the tea things were laid, and began to pour out the refreshing beverage with a trembling hand, while Earnest told the history of his day's absence. "I found," said he, "that I was sent for to old Gov. Hutton's—the richest and most influential man, you know in the country—and the Governor has been thrown from his carriage, and was though to be dying. All the physicians of the town had been sent for, but none could aid him. In despair, his wife without orders, had sent for me. I say his only chance of life depended on a new and difficult operation, which none of the older physicians had ever seen performed. I stated that I though it could be done. The old Governor was a man of iron rerve, and quick resolution; when he heard the others say they could do nothing for him, he determined to commit himself to my hands. succeeded beyond my hopes—even the other physi were forced to acknowledge my skill, and there is nothing now but care required to make my patient as well as ever. On parting he put this roll of bank notes in my hand."

Mary was in tears long before her husband finished his narration, but her heart went up with thankfulness to God for having thus interposed just at the crisis when hope seemed gone. From that day, Earnest Linwood was a made

man. The fame of his operation was in every one's mouth, and by the aid of his patient now become his patron, he stepped at once into practice among the best families of the place. Wealth, as well as reputation flowed in upon him; but he always atributed his success to his wife, whose affection had

cheered and sustained him when out of heart.

There is nothing, he would say, like a faithful wife. Under God, our weal and our woe for this life depend upon her. If she is desponding, your own sanguine spirit catches the infection. But if she is full of energy, her smiles will cheer you on she is into charge, and enable you to achieve in the darkest hour, and enable you to achieve what you at first thought impossibilities. ICE ON LAKE SUPERIOR IN JUNE.-The schoon er Algonquin, Captain McKay, returned to Sault St. Marie on the 15th instant from a cruise to the head of Lake Superior. She was bound for Fond du Lac, with treight and passengers for Chonteau & Co's trading post on the St Louis river. Capt. McKay found the lake so obstructed with ice on the 5th of June, when within twenty miles of that river, that it was impossible to proceed, and he was obliged to return and land his passengers and freight

The ice extended along the western coast of the lake as far as the captain could see from the mast head, and to appearance, in one unbroken and solid mass, and it must have been from fitteen to twenty miles in width, and although he sailed for several miles northward along the ice in hopes to find a passage toward the river, he saw no end. The ice passage toward the river, he saw no end. The ice was firm and hard, and of immense thickness—so much so that it seemed grounded, and it is probable it had not been moved since it first formed. The Ledger has published a letter from a clergy nan at Concord, New Hampshire, the residence of army while under your command. Gen. PIERCE, to a brother clergyman in Philadelphia, in answer to a letter inquiring as to the moral character and conduct of Gen. PIERCE. It is a most satisfactory answer to all the calumnies that have been fabricated by the Whigs about our candidate, and shows that he is entitled to the full and entire confidence of the American people, not only on account of his political popularity, but also for his high social and moral qualities. Computation by a Whig Paper. The Boston Daily Advertiser, an old fashioned

Whig paper of decided ability, has made a computation of the chances of Scott's elevation to the Presidency. It is not very flattering to the Whig candidate, but it may set some of our Whig friends to thinking, and to them we commend it

" We will state briefly the general facts on which any rational calculation of the probable success of ed. We may thus be enabled to judge how far the members of the convention, in the nomination which they have made, were governed by any wel founded expectation of electing the candidate whom they have nominated for the Presidency. It will b seen that the nomination has been made in a great measure by the delegates of States which will have no Whig votes to give, and with little regard to the reference of States whose support is indispensable

"It will be observed, in reference to the table which we have presented, that the 159 votes given on the last ballot for Gen. Scott, were from 20 different states. From 14 of these states, including the four largest states in the Union, the n.ajority of votes was in favor of Scott, he having received 147 votes from these states. Or the 14 states, six voted for Taylor at the last election, seven for Cass, and one, California, was not in existence. Ten of these 14 states, by the test of the latest state elections, namely, Maine, New Hampshire, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan Virginia and California, are decidedly Democratic and of course cannot be expected to aid in the election of General Scott. Vermont is a Whig state: and Rhode Island, New York and Delaware, although the last general elections in each went in faver of the Democratie party, may, perhaps, be fairly set down as doubtful—the parties being so nearly divided that neither party is like to yield without a vigorous contest, the result of which must depend n some considerable degree on the relative personal popularity of the candidates, and the impression which may prevail of their respective positions in reference to the Compromise question. Dr. J. addresses all those who have injured themselves by private and improper indulgencies, that secret and solutary habits, which rum both body and mind, unfitting them for either business

These are some of the sad and melancholy effects produced by early habits of youth, viz. Weakness of the back and limbs, Pains in the head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irrivability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c. Mentally.—The fearful effects on the mind are much to be dreaded: Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil of Foreboding, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c. are some of the evils produced.
