The only true Portrait of Washington. JUST PUBLISHED, T. B. WELCH'S MAGNIF ICENT PORTRAIT OF WASHINGTON.

Engraced (by permission) from Stuart's only original portrait, in the Atheneum, Boston.

THIS superb picture, engraved under the superinterdence of Thomas Sully, Esq., the eminent and highly gifted artist, is the only correct likeness of Washington ever published. It has been characterised as the greatest work of at these been characterised as the greatest work of art ever produced in this country. As to its fidelity, we refer to the letters of the adopted son of Washingrefer to the letters of the adopted son of Washington, George Washington, Park Custis, who says, "it is a faithful representation of the celebrated original," and to Chief Justice Takey of the Supreme Court of the Enited States, who says, "As a work of art its excellence and beauty must strike every one who sees it: and it is no less happy in its likeness to the Father of his country. It was my good fortune to have seen him in the days of my boyhood, and his whole appearance is yet strongly impressed on my memory. The portrait you have issued appears to me to be an exact likeness, representing perfectly the expression as well as the form and features of the face." And says Senator Cass, it is a life-like representation of the great form and features of the face." And says Senator Cass, it is a life-like representation of the great original. President Fillmore says, "the work appears to me to have been admirably executed and eminently worthy of the patronage of the public." Says Marchant the eminent portrait painter, and the pupil of Stuart, "your print to my mind is more remarkable than any other I have seen, for presenting the whole individualty of the original portrait, together with the noble and dignified repose of air and manner, which all who ever saw him considered a marked characteristic of the illustrious man it commemorates." considered a marked characteristic of the mus-trious man it commemorates."

For the great merits of this picture we would re-fer every lover of Washington to the portrait itself, to be seen at the office of this paper, and to the letters of the following Artists, Statesmen, Jurists

Another Scientific Wonder! GREAT CURE FOR DYSPEPSIA! DR. J. E. HOUGH TON'S

The True Digestive Fluid or Gastric Juice

The True Digestive Fluid or Gastric Juice

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Lieng the great Physiological Chemist, by J. S. Hongh Iton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Persix is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the food, the purifying, preserving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus ferming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its chemical powers, and furnishing a complete and perfect substitute for it By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE!

Baron Liebig in his celebrated work on Anima Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be soltened, changed, and digested, just in the same manner as they would

prepared from the mucous membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice is a prominent and all-prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything clse to fall, had recourse to the Gastrie Juice, obtained from the stomach of living animals, which proved completely successfull."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving va. ous articles of food, and of effecting a kind of artificial digestion of them in movine different mot the natural digestive process."

AS A DYSPEPSIA CURER,

Dr. HOUGHITON'S PEPSIN has produced the pages marvellous of figests, in curing cases of Debality.

diffeent mro the natural digestive process."

AS A DYSPESIA CURER,
Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debdity, Emaciation, Nervons Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of moro than Two Hundred Remarkable Cures, in Pultadelphia, New York and Boston alone. These were neatly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilhous disorder, Liwer Complaint, Fever and Agne, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles health with intemprance.
