Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Junce is a prominent and all-prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Junce, obtained from the stomach of living animals, which proved completely successfull."
