Teachers' Institute.

m the city of Mex-ews of importance male, and of every Grade of School.

To the Teachers of Lancaster County, Male and Female, and of every Grade of School.

A number of Teachers and others, composing the Lancaster County Educational Association and interested for the improvement of Schools, propose to hold a Teachers' Institute in the City of Lancaster during the week commencing on Mondary, January 24, 1853, and have appointed the undersigned Committee to make and announce the necessary arrangements.

The object and mode of proceeding of such an Institute are as follows: All the Teachers in the county who desire to become members, assemble at stated hours daily during its continuance for mutual improvement. The most accomplished and experienced of their number are selected to explain, by lectures and familiar illustrations, certain of the branches most usually taught in schools, and the best modes of giving instruction in them, with the means of government and of treating the most usual cases of difficulty which meet every teacher in the discharge of the duties of the school-room. The members of the Institute are not formed into classes, nor questioned and drilled, like pupils in an ordinary school; neither the time allotted to the Institute nor the standing of the teachers permitting such course. They merely listen attentive lyto the instructions given, and if they choose, take notes for future use: The object being, not to exhibit them before the public in the character of mere pupils, but to elevate them in the eyes of all, and in reality as members of one of the most useful and respectable professions, congregated for

all, and in reality as members of one of the most useful and respectable professions, congregated for mutual improvement.

The Institute, however, being a new thing among us, we do not yet posses the experience and skill requisite to conduct it Hence, instructions for the one now proposed will necessarily come from abroad. One accomplished Teacher has accordingly been invited from Massachusetts and another from Ohio, in both of which States these institutions are frequent and well understood. To these probably one or two others will be added, so that there shall be no lack of instruction. Hereafter Institutes may be held without such aid, there being sufficient talent among the Teachers of the county to conduct them, when the mode of so doing shall have been once exhibited.

ng shall have been once exhibited.
The branches selected both for explanation The branches selected both for explanation of their principles and illustration in the mode of teaching will be Orthography, Reading, Etymology, Grammar, Geography with man drawing, History Writing and Arithmetic. The erecises will be interspersed with vocal music.

During the evening addresses and Lectures, on subjects connected with Education, will be delivered by members of the Institute and by citizens will also take

REPORT Of the Board of Directors of the Farmers' Mutual Insurance Company, at the Annual Meeting of the said Company, on the 25th day of December, A. D. 1852.

In making this, their annual communication to the Members of the "Farmers' Mutual Insurance Company" it is a source of high gratification to the Board, as it doubtless will be to the Members, that nothing has occurred during the past year, to require an elaborate or special report from the Board of Directors. The losses sustained by the Company have been small, and the means in the hands of the Directors have been found sufficient to defray all losses and expenses, without levying any additional tax, with the exception perhaps of a small balance due to the Treasurer, as will be shown by the report of the Treasurer, hereunto appended. The present Organization and Bylaws of the Company, have been found sufficient to carry out the objects and intentions for which the Company was organized, and the Directors find no reason to recommend or suggest any alterations or additions at this time. During the past year, eighty-three new policies have the past year, to require an elaborate or specia During the past year, eighty-three new policies have been issued on properties, amounting in the aggregate to \$149 259

On the night succeeding the 30th of May last, the Barn of John Kame, of West Hempfield twp, was destroyed by fire. The said property having been insured in the "Farmer's Mutual Insurance Company" the appraisers, under an order from the President, proceeded to view the premises, and reported the damage at \$350 three-fourths of which, being \$262.50, was paid by the Treasurer, out of the funds of at \$350 three-fourths of which, being \$202.00, was paid by the Treasurer, out of the funds of Company. The negligence of some of the members to pay their quotas of tax with punctuality has become a source of annoyance to the Directors, become a source of annoyance to the Directors, as well as an act of injustice to the members generally, and will be no longer tolerated.—
All those who have not as yet paid the taxes heretofore assessed, will be proceeded against according to law, if the arrears are not paid immediately after the publication of this re-

port.

They must pay their dues, or forfeit their policies. The liabilities of the Company should policies. The inclinates of the Company should be, and must be punctually paid; but this cannot be done, unless the members are prompt and punctual in the payment of their quota of tax; and the credit of the Company would have suffered, ere now, but for the energy and liberality of the Treasurer, who frequently advanced his own money, when the funds of the Company in his hands

were inadequate.

It is therefore hoped, that all who are yet in arrears, will make payment immediately, and thereby save themselves from the payment of costs, and the Directors from the disagreeable necessity of resorting to compulsory measures, as no further indulgence can be JOHN MECARTNEY.
