Surveyor General's Report.

We are indebted to the Hon. J. PORTER BRAW LEX, Surveyor General, for a copy of his Annual Report, for the year ending November 30, 1852. From this Report, we learn the following facts: The work done in the office of the Surveyor neral, from the 11th November, 1851, to the 10th November, 1852, inclusive, for which fees have been received, amounts to \$849 10. A large number of copies have been made for the use of County Surveyors, for which no fees are received, and in many instances persons in writing for copies ne glect to remit the fees.

The payments made into the State Treasury on Ane payments made into the State Treasury of account of the purchase money, patent and war-rant fees, for the fiscal year ending the 30th No-vember last, amount to \$40,223 41, being (with the exception of the year 1851) a large increase

over former years. The number of p er of patents (931) issued during the same period being more than double the number in any one year for the last thirteen years. The in any one year for the basis unifteen years. The fees alone (excluding the purchase money and in-terest) paid into the State Treasury for patents and warrants, amount to the sum of \$11,691 00, being almost \$4.000 more than all the expenses of the

Land Department. The act of Assembly passed the 10th of April, 1835, graduating the unpatented lands in the Com-monwealth, and which has been extended from time to time by supplementary acts, will expire on

the first day of February next. The Surveyor General then refers the Legislature to his last Annual Report, and to the suggestions therein contained. He also refers to the various therein contained. He also refers to the various graduating acts passed by the Legislature in for-mer years, and adds: It will appear from the pre-ceding statement that the original prices of lands have varied very much, and it will be a subject for the Legislature to say, by their future enactments, whether the owners of unpatented lands, which originally paid but six-pence per acre, shall receive the same lenity at their hands as those who paid

80 cents per acre. The Surveyor General gives it as his opinior that not less than two millions of dollars are due to the Commonwealth on unpatented lands, under the graduating act of 1835; and under previou acts in relation to the patenting of lands, it would not be less than double that amount. The Surveyor General alludes to the different

constructions put upon the graduating act by ap-praisers, and gives it as his opinion, that the only rational construction that can be given to that act is, that it means the value of the land at the pres ent time in a wild state, excluding the improve ments, it any have been made upon it.

The following are the concluding paragraphs of this interesting Report :

There is also paid by the owners of unpatented lands, annually, from \$8,000 to \$10,000 to the board of appraisers in the different counties, for their services; this amount is lost to the State as well as to the owners. It has been suggested that the county assessments might form the basis for the graduation of land; a certificate to that effect might be obtained from the commissioners in each county, at a cost of not over fifty cents to the applicant.

The undersigned cannot refrain from again calling the attention of the Legislature to a subject referred to in his last report, viz: that there is a general opinion prevailing in many sections of the general opinion prevaiing in many sections of the State, that the Legislature never can compet the owners to pay the unrearages due on their lands, or if they could, it would never be enforced by legislative enact-ment. This erroneous idea has retarded the patenting of lands very much. A manifestation on the part of the Commonwealth, of a determination to collect the arrearages, would largely increase the receipts. An indiscriminate compulsion could not

It the Legislature should think proper to extend the act of 1835, former experience has taught us that it ought to be for only a short period of time, that it ought to be tor only a snort period of diffe-as those persons owing the Commonwealth will procrastinate until the eleventh hour. The large number of patents issued, together with the great increase of other business during the past year, has rendered the duties of the clerks of this departmen exceedingly onerous. Great care has been observed in the preservation of papers. This office being the only archive of the origin-

al inception of title to all the real estate in this Commonwealth, and always must remain so, it becomes the imperative duty of the State to preserve all such evidences of title sacredly, that responsibility she has assumed, and those interested have a right to demand it. For the accomplishment of this most important object, a competen person is now and has been exclusively employed for the last three months in the examination of every drait and other papers, to ensure the certain ty of all papers, being correctly filed, so as to ena-ble the finding of them it properly described. The searching for the original titles of land has

come a matter of immense labor. In a large majority of cases the present owners have lost all traces of their original titles. In a great many instances conveyances have never been put on record and when any controversy arises in relation to the original lines, it takes hours and even days to find what is desired and what may be of incalculable importance to those interested

a lingering illness, Mr. John O'Donnell, aged 23 years, 7 months and 23 days. His remains were followed to the grave, on Monday the 1st of February, by his sorrowing friends and a large concourse of his fellow citizens. His amiability of character, gentleness of disposition and suavity of manners, never failed to win the eseem and admiration of all who had the pleasure of his acquaintance. Though his pilgrimage on earth was of short du

and which he advocated with a firmness and decision of character seldom met with in persons of riper and more mature years. This, together with his general intelligence made him at all times a particular favorite with his companions, who ad-

mired him in life and who mourn him in death. But his death is the s'eep of peace and it may be truly said of him

"None knew him but to love him None named him but to praise."

packet ships Roscius and Lady Franklin, from Liver MURY RAY & STOEK would direct the attention of erpool, terminated two of the most stormy and dis-astrous passages to life and limb, that we have had for some time to record. The Roscius left Liver-pool on the 17th of December, and on the 1st of January, in lat. 53 20, lon. 25 50, while under three rest of the season would do well to january, in lat. 53 20, lon. 25 50, while under three rest of the season would do well to class created to pasails, storm staysails, main spencer and a double spanker, during a strong gale from the N. N. W., was boarded by a tremendous sea, that stove in tho upper deck and fore hatches on the main deck, twisted the mainmast head off, and filled the decks between with four feet of water.— MI the etarce would change the season for yourselves. The arrival at New York, on Wednesday, of the packet ships Roscius and Lady Franklin, from Liv-All the stores, provisions and clothes, of the steer-All the stores, provisions and clothes, of the steer-age passengers, were much damaged by this inun-dation, and no 'doubt a greater part entirely de-stroyed, as their boxes' were washing about the decks until the ships could be brought to and the wreck cleared. When that was accomplished, it was found that four of the crew had been washed overboard, the mate had one of his arms broken, and one of the crew a leg broken, besides several others is severely injured. From the time the vessel left Liverpool until she arrived in port, she had to con-tend with continuous head winds. The Lady Franklin left Liverpool on the 3d of December, and commenced her misfortunes on the 7th, when a seaman, named George Rash, was washed from the bowsprit and drowned. On the 17th of the same month she shipped a tremendous

17th of the same month she shipped a tremendous sea, which stove the starboard quarter boats, bul-warks, sky-light and binnacle, and injured most of the men, some of them severely. She also lost a suit of sails. At 3 A. M., of the same day, two of the crew, named John Richardson and John Hunterson, fell from the fore-topsails yard to the deck, and were picked up dead. The Franklin, however, was not alone in her misfortune, as on the 28th they spoke the schooner, Lile, (probably a British vessel; bound to Liverpool from Jamaica, seventy days out, and without provisions, with which Captain Osborn kindly supplied them; and on the 31st, in lat. 44 30; lon. 28 50, they spoke another schooner, (name unknown,) bound to Cork, from NowGoudland, the captain, mate and part of the crew of which had met watery graves by being 17th of the same month she shipped a tremendous the crew of which had met watery graves by being washed overboard. To add to their misfortunes, they were without a navigator, which want Captain Osborn was not able to supply, or render them any assistance to help them on their dreary way, more than giving them some instructions how to
