## EXTRACT OF A LETTER TO THE EDITOR.

WASHINGTON, D. C., June 17, 1853.

It has been determined by the President of the U. States, that, if he can be spared from the public business for a few days, himself and Cabinet will be present at the Crystal Palace Exhibition at New York, to open on the 15th proximo. It will be d day for the country when that day arrives. usands will be there, to witness the exhibition of the improvement that will be there exhibited b ingenious artizans, for the first time. not be allotted for the visit. But, whether or not, we must congratulate those engaged in this gceat work, in the very successful manner wit which we are told the whole design has been exmanner wit cuted.

I hope to see especial attention paid to the improvements in the mechanical arts. It is by these hardy sons, that the enterprise of our country has advanced so rapidly to that eminence, which, has wrought such distinction for the Mechanics of the U. States. And, the getting up of this Fair, in New York, will be but the means of our farther advance-ment in the scale of nations. The "age of pro gress," is increased among our people, and, the pro gress of the mechanic is a sure guarantee that Nation, as well as the mechanic, is advancing daily in her prosperity, as the mechanic is in his r Success attend the noble undertaking.

In the prosperity, as the internance sin interview Success attend the noble undertaking. The news from Mexico, is rather startling for the last few days. We have the intelligence that Santa Anna, is holding the "promise to the ear," in reference to the U. Stafes; and, at the same time forming an alliance with the rotten g-vern-ment of Spain to aid him, and that in turn, he will guarantee the integrity of Cuba to Spain, under ad-visement of the British Government, the British coming into the trio, if Spain will consent to free the slaves of Cuba. This is a well laid plan, and worthy of Santa Anna, as well as of the British Ministry. We have as little confidence in Santa Anna as we have in the British Ministry. They Ministry. We have as little connected Anna, as we have in the British Ministry. have always been inimical to the prosperity bare always been always shaped t The U. States, and their policy always shaped to crip ple the commerce and enterprise of our people.-If they have engaged in this outrageous scheme we shall be willing to meet them even with the odds of Spain and Santa Anna, and themselves com bined against the U. States, and they will be whit ped into justice as neatly by the present generation as they have successfully been by our forefathers. The British Government liberated the slaves in the West Indies, and are now puying Africans by con-tract at \$10 per head. Here is philanturopy with a vengeance. They ruined thousands of their citi zens, and left an enormous debt to their Treasury with a view, to ruin the prosperity of the Southern States, and now if it was not for the product of these very States, their homes would be shut up and their people a starving community. Now, that their policy has proved to be an abortion, the their policy has proved to be an enough to retrace their steps, by openly are mean enough, to retrace their steps, by openly are mean enough to retrace at \$10 per head. This engaging in the Slave trade at \$10 per head people are now feasting the *slanderer* of the U. States in the person of Mrs. Stowe. But, we wait further advices on this British move.

Your fellow-citizen, Judge CAMPBELL, is winning daily golden opinions from all who have busines with the Post Office Department. Facilities an now granted for the transaction of business, that ensures a speedy answer to all enquires. In fac Judge Campbell will redeem, by his energy of char acter, his Department from the somewhat chaotic contusion into which it had fallen under the man

agement of Mr. Hail. I see that Mr. Brandt, and not Mr. Parke, has become P. M. at the Capitol of your State. The editor of the "Union," at Harrisburg, J. G. McKim ley, should have had the place, if faithful servic should command promotion; but, it seems, he could not get the position he formerly filled with so much ability and satifaction to the democratic party of the State. He must not be set aside in this way but, call upon the President, to right the wrong done to him in this appointment at Harrisburg.— We think it due to the working democracy of you to exc State that Isaac G. M'Kinley should be P. M. at

Harrisburg. I notice that Col. FORNET is again to be Clerk of the House. He will have opposition, but, his pros pect for re-election is decidedly flattering from the indications we have seen, and, the opinion of the cations we have seen, and, the opin members with whom we have conversed upon th

PETERSON'S MAGAZINE, for July, is handsome! embellished with an engraving representing "The Shipwreck," a Colored Plate of Fashions, &c., &c The reading matter is, as usual, highly attractive. A Chapter on Human Hair," and "The Hermit's Revenge,<sup>35</sup> are peculiarly interesting. Published at 102 Chesnut st., Phila., by Charles J. Peterson. erms \$2 per annum, in advance.

THE POPULAR EDUCATOR.-This monthly serial bids fair to be every thing that could be desired by the public. The second, or June number, is even rior to the first, and contains an amount of usesuperior to the first, and contains an amount of use-ful reading which is scarcely to be found in any other publication of the same size. It is emphati-cally a book for the masses, and well calculated to aid them in the work of self-education. In addi-if read-number is the same size of the same sise of the s

Dress of American Representatives.

The following circular letter from the Secretary of State, to our Representatives at Foreign Courts, will be read with interest. One of similar teor has | that he had do

been sent to the Consuls at different ports: [CIBCULAR.] DEPARTMENT OF STITE. } Washington, June 1st, '58.

In addition to the " Personal Instructions to the In audition to the "remonal restrictions to the Diplomatic Agents of the United States # Foreign Countries," the following are bereafter tobe observ-

In performing the ceremonies upon the occa-cion of his reception, the representative of the Uni-ted States will conform, as far as it is consistent with a just sense of his devotion to republican in-stitutions, to the customs of the country wherein he is to reside, and with the rules prescribed for representatives of his rank; but the departmen would encourage as far as practicable, without im pairing his usefulness to his country, his appear ance in court in the simple dress of an American citizen. Should there be cases where this cannot

citizen. Should there be cases where this cannot be done, owing to the character of the foreign gov-ernment, without detriment to the public interest, the nearest approach to it compatible with the due performance of his duties is earnestly recommended. The simplicity of our usages and the tone of feeling among our people is much more in accordance with the example of our first and most distinguish ed representatives at a royal court than the prac tice which has since prevailed. It is to be regret-ted that there was ever any departure in this re-spect from the example of Dr. Franklin. History has recorded and commended this example, so congenial to the spirit of our political instit lepartment is desirous of removing all obstacles to return to the simple and unostentatious course which was deemed so proper and was so much ap proved in the earliest days of the republic. It is ur nurpose to cultivate the most amicable relations all countries, and this we believe can be effec tually done without requiring our diplomatic agents abroad to depart in this respect from what is suited to the general sentiments of our fellow citizens at All instructions in regard to what is called nome. diplomatic uniform or court dress, being withdrawn.

each of our representatives in other countries will be left to regulate this matter according to his own sense of propriety and with a due respect to the views of bis government as herein expressed. It is desirable that the Minister or Charge d' Affaires should establish the legation in as central a position as may be convenient to the metropolis near the Government to which he is sent. It will be his duty to see that it is kept open every day, except Sundays and fete days, from 9 o'clock in the forenoon until 3 o'clock in the afternoon. The Secretary attached to it, if there be one, must perform in person all the services which properly devolve upon him, except in case of sickness or leave of absence. In such cases it is enjoined upon the Minister to appoint an American citizen to repre-sent him, if it can be done. There is an obvious impropriety in devolving upon a foreigner the du-ties which belong to the Secretary. It is necessary to be thus specific in these instructions, for it has requently occurred, of latter years, that Secretaries of Legation have, as this Department is informed employed Clerks whose allegiance was foreign, to copy despatches and other official duties which pertained to them selves. This practice which, it is feared is upon the increase, is so obvious

rong, that the President is resolved to compel t be discontinued. The correspondence between the government an the Legation- of the United States must be guarded

with the utmost secrecy even as relates to our own citizens. To submit it to the examination of a for eigner will be regarded as an indiscretion in the o fender, demanding imm diate deprivation of office. The first duty of a subject is considered to be fidel-ity to his sovereign. Foreign clerks may be justly regarded as unsale depositaries of the secrets of ou diplomacy in the Legation where they are employ ed. The possibility that a revelation of our secre state papers may occur in this manner, is sufficient e fears on the subject, and require the strict est observation. Ministers of the United States and Charge d'Af

faires are requested to authenticate by their own signatures, with the seal of the Legation, the pass-purts of American citizens, and not permit Secrearies to perform this duty when they themselve W. L. MARCY are at their posts.

## **Special Legislation.**

We adopt the subjoined sensible and well-timed emarks of the Lycoming Gazette, as expressing our views upon a subject that has recently engaged a large share of the public attention, and has elicited much comment in the newspapers of this and other States:

Is there no remedy for the evils of special legis lation?—evils, which though seen and acknowl-edged by all, still annually accumulate, and roll on increasing that circle of corruption which has the seat of government for its centre. Then the poor and rich were alike protected. Now, no man can be entirely certain that he has not been legislated out of house and home, unless he has read the Acts of Assembly passed by the last session of the legislature and examined with critical care every sec

tion of every act published in the pamphilet laws —for legislative 'snakes," as they are apily termed, are seldom referred to by title or side notes, but are

A Constantinople correspondent, writing under date of May 19th, says — Las hight, at a late hour, the Sultan summoned all his Ministers of State into his presence, and addressed (them. He observed that he had done all in his power to preserve the good will of the Emperor of Russia, and every reagood will of the Linderor of Russia, and every rea-sonable request of the Czar's had been granted; but now a demand which infringed upon the prerogatives of his crown, which he had no right to cede, had been tendered by the Emperor, which he, (the Soltan) was bound to relive. If then, it pleased the Almighty to inflict on the nations the scourge of war, he himself was gniltless of it: but he never

The Tarks are now preparing for war in right earnest: 30,000 now preparing for war in right earnest; 30,000 troops are being sent from Elypt, many of whom have already arrived, and triops and ammunition are moving at all points. It is supposed that in Roumelia, the part most threatened, the Govern-ment will be able to bring at 'nce 80,000 men un-der arms. The present Grant Vizier, being an Al-banian, is able, through his influence, to raise the whole of that moritie nonpation. A meeting of

banian, is able, through his sonuence, to raise the whole of that warlike population. A meeting of the British merchants, resident at Constantinople, had been held, in order to address the Ambassador, and ask his counsel in the prisent state of affairs. The correspondent of the Paily Newshas an acount, more formidable still of the means of defence

at command of the Turks. He says: "The Divan, although not admitting the possibility of war, be-lieving that in the present state of affairs the best mode of assuring peace was by taking an energetic attitude, resolved on adopting a series of imposing neasures.

Orders were sent to Achinet Pasha, commanding the Mediterranean squadros, to return immediately with his fleet. He was expected at Constantinople with his fleet. He was expected at Constantinople in the course of the presed week. The fleet of the Viceroy of Egypt was also expected in a few days, a courier having been set: to Alexandria with or-ders. This fleet was to bring a reinforcement of 15,000 men. At the same time orders were given to Omer Pasha, General in Chief of the army of Rumelia to descand the Sumba with his error day. Rumelia, to descend to Sumba with his corps d'ar mee, a force of from eight; to one hundred thousand excellent troops, inured to war, and a great number of which took part in the expeditions to Bosnia, Kurdistan and Montenegro. The Commander in Chief has also ordered the immediate formation of

two camps, one at Roudijouk and the other at Brus These two camps, omposed of the redif, or re-serve, will comprehend 260,000 men, who, joined to the active army or about 250,000, will form a total effective force of more than 500,000, available for the defence of the country. Besides its ordinary resources. Turkey here at its disposal the reserve chest, recourse to which is only had in extreme cases. This treasury has not been opened since toor. WOOL TRACT IN OHIO .- A correspondent of the Capital City Fact, May 24th, of Columbia, makes

the following reliable statement : " The wool rowers of Clark, Marion, Morrow and Knox counties are already clipping, though it is some two weeks earlier than former years. The crop appears to be fine and light, and the growers seem to be disposed to put it up in fine order, notwithstanding the most of them contracted for their wool. Those who sack their wool, without the immediate inspection of the purchaser, and flatte themselves that this is the end of the matter, and for this reason neglect to put it up in as good order as they otherwise would, labor under a great mis-take, for the wool is all examined (when graded) separate and alone, and reported back to the pur chaser either favorable or unfavorable. The wool particularly in Knox and Morrow counties, i greatly improved, both in quantity and quality from former occasions.

Many armers are taking great pains in getting fine flocks, numbering from 100 to 7,000 head, and the most of them grading from one-halt to tull blood; some of their finest bucks costing them from \$300 to \$500, and some as high as \$1.000. Most of the growers, particularly in Morrow county, are taking much pains in washing and putting their wool in good order, determined not to be out done by any of the adjoining counties. This will be an advantage to the purchaser, and in the end a much greater advantage to the grower. All the irrespon

sible buyers that contracted during the excitement, at such high prices, are now relusing to take wool; choosing rather to forfeit what they advanced on the contract, than to fulfil the same; and these lot are now offering at a decline of from 5 to 6 cents per lb Wool changes now at from 30 to 40 cents for common to one half blood, and 40 to 50 cents from one half to full blood, which prices will probably by sustained the present seasor

PENNSYLVANIA RAILROAD .- The editor of the Greensburg Intelligencer having recently passed over the road of this Company, in Westmoreland county expresses great gratification at the rapidity with which the work the on second track is prosecuted.-The principal object in the way of its rapid completion is the inability of the Company to obtain iron for the whole double track. The construction of the double track from Latrobe to Pittsburgh, a distance of forty miles, is under the general superintendance of Mr. W. H. Barnes-a gentleman of worth, and highly esteemed-assisted by Messrs. Caleb Cope and Henry Pleasants. The portion of the work between Latrobe and Manor Station, is in charge of Mr. Cope, and the remaining part, from the Manor to Pittsburgh, is under the care of Mr. Pleasants.

I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chim-neys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direc-tion, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncov-ered was found to be charred; the Paint how-ever was firm and but little blistered. april 19 (1-13 **Y** outh, Age, Style, Taste. Beauty and Fashion.—The seasons of life should be arranged like those of the year. In the spring of youth, when all is lovely and gay, then as the green cover is spread on all the face of smiling na-ture, in brightness and beauty, so let the dress par-take of the season. Fine taste, as well as fashion, decrees the necessity of nicely adapted garments to age, circumstances and seasons. The man whose head is silvered with age, who feels not the blood of youth dancing warmly in his veins, should not run into extremes of dress, nor yet should he permit his clothing to be so far behind the times as to render him ridiculous. There is a becoming fashionable dress, suitable for the age and seasons of life as well as the seasons of the year. You can be suited in handsome style in clothing that is well and fashionably made, of good materials that will int well and become the figure and seasons, at the great Clothing Bazaar of JOSEPH GORMLEY, No. 58, North Queen street, Lancaater.
