Steam Planing Mills.

Dear Sir: You ask me for my opinion of "Siler's Mineral Paints," which you have put on my lachine Shop and Planing Mill. I give you with leasure my full and hearty recommendation of it a preventive of Fire communicating from Chin eys, or from adjoining buildings. The Paint which neys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovred was entirly consumed, while the painted part was apparently sound, though upon examination he wood was found to be charred; the Paint how-ver was firm and but little blistered. I consider his as severe a test as your Paint can be put to, and under the circumstance. I then the put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive agains

the great Physiological Chemist, by J. s. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsis, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastrie Juice.

Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beet in about two hours, out of the stomach.

Persin is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the food, the purifying, preserving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus ferming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its chemical powers, and furnishing a complote and perfect substitute for it by the aid of this preparation, the pains and evile of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the gravo The scientific evidence upon which it is based, is in the highest degree curious and remarkable.

in the highest degree curious and remarkable, SCIENTIFIC EVIDENCE!

Baron Liebig in his celebrated work on Anima Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the calf, in which various articles of food as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his tamous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes in the highest degree curious and remarkable.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juncien a prominent and all-prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successfull."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving va. ious articles of food, and of effecting a kind of artificial digestion of them in nowice different water the natural digestive process."

AS A DYSPEPSIA CURER,
Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervons Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston ulone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Anidote, and particularly useful for tendency to Billious disorder, Liver Complaint, Fever ar . Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury and other arugs; upon the Digestive Orgens, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. 'It almost reconciles health with intemprence. reconciles health with intemprance.
