I give you with pleasure my full and hearty recommendation of it as a preventive of Eire communication for Other as a preventive of Fire communicating from Chim-neys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direc-tion, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three whiches worldesing them in the furgace under three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovered was entrily consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint how-ever was firm and but little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to yet so pure that it will not soil hat or bonnet.

GREAT CURE FOR

DYSPEPSIA!

The True Digestive Fluid or Gastric Juice

PREPARED from Rennet, or the lourth Stom-bach of the Ox, after directions of BAF^N LIEBIO, the great Physiological Chemist, by J. S. Hough-ton, M. D., Philadelphia, Pa.

tion, M. D., Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complsint, Constipa-tion, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice. Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. PEFSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the lood, the purifying, preserving and simulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus ferm-

SCIENTIFIC EVIDENCE '

Baron Lebbg in his celebrated work on Anima Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastrie Juice, may be readily prepared from the muccus membrane of the som-ach of the calf, in which various articles of food

as meat and eggs, will be soltened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Dict," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a dim-ination of the due quantity of the Gastric Jancem a promutent and all-prevailing cause of Dyspepsia," and he states that "a distinguished prolessor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved com pletely successfull." Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, mace-

AS A DYSPEPSIA CURER

AS A DYSPEPSIA CURER, Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervons Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Curcs, in Phila-delphia, New York and Boston alone. These were nearly alldesperate cases, and the cures were not only rapid and wonderful, but perinanent. It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver Complaint, Fever ar Ague, or badly treated Fever and Ague, and the wil effects of Quinne, Mer-cury and other arugs upon the Digestive Orgens, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles health with intemprance. OLD STOMACH COMPLAINTS. There is no form of Old Stomach Complaints
