Governor Bigler.

There have been so many public expressions at County Meetings, Conventions, &c., all over the State within the last few weeks, as to render it certain that Governor BIGLER will be re-nominated almost, if not entirely, by acclamation in the next State Convention. 'Amongst the recent indications of this, is the action of the County Conventions of Berks, Perry, Blair, Northumberland and York which were held last week, and all of whom instructed their delegates to support his re-nomination. Several other counties had previously instructed.

This is as it should be. Col. BIGLER has made an excellent Governor, and as all his Democratic predecessors in the Executive chair have been nominated for a second term, we know of no reason why he should be made an exception to the rule. He will be re-nominated and re-elected too by an overwhelming majority, unless every sign in the political firmament is egregiously at tault, and the fault-finders with, and opponents of, his administration may as well prepare in time to " face the music." It may be a bitter dose to a few, but it must be gulped down-as there is no remedy.

Hon. Charles A. Black, Secretary of the Commonwealth, has kindly forwarded us a Circular (beautifully printed and bound) descriptive of the new Institution at Harrisburg, known as the "Pennsylvania Female College," incorporated by the Legislature at its last session. The Fall Term commenced on yesterday, under the direction of Mr B. R. WAUGH, A. M. Principal. The Collegiate denartment will embrace a course of stndy, ex tending through a period ofthree years-styled the Sophomore, Junior and Senior classes.

The Board of Trustees, named in the act of in corporation embracess, amongst other names, those of Governor Bigler, Secretary Black, and Judge Dock, of Harrisburg; Hon. James Buchanan and Gen. George Ford, of Lancaster : Professors Ben-MENTHAL and TIFFARY, of Carlisle; and John WEIDMAN, Esq., of Lebanon.

A Tough Time of It .- The Conferees from Judge Knox's late district, had a hard time of it in selecting a candidate for President Judge. They met last week and had 371 ballots without coming to a decision-the conferees from Jefferson and Venango counties, voting for Mr. JENES, and those of Clarion and Mercer counties, for Judge McCal-MONT. On the 372d ballot the the latter was nominated, and is now the Democratic candidate for the

LAWRENCE COUNTY has passed resolution in favor of Gov. BIGLER's re-nomination.

The Fun at an End.

We had hoped that the campaign in this county would have been more than usually interesting, from the fierce attack made on Mr. Boughten and his friends, in the Examiner & Herald of the 24th ult. In this we are likely to be disappointed, as that paper of the 31st shows a strong disposition to haul in its colors, and submit with as much dignity and grace as possible to the fate which is staring the present managers of the Whig party in the face.-Mr. Boughten has always been a zealous and consistent Whig, not identified or connected specially with either of the divisions of the party,—is popular with the masses, pleasant and courteous in his manners, and pre-eminently qualified to discharge the duties of the office to which he aspires-hence the alarm created in the minds of his enemies, and their apprehension that he may be elected. This is the only possible reason we can imagine for the astonishing change in the tactics of the Examiner. But (if we, Democrat as we are, are permitted to volunteer an epinion in the matter,) the change comes too late to benefit the Examiner's wing of the party, and will have an injurious effect upon Mr. REINHOLD's prospects. This step backward is conclusive evidence of the wrong position previously taken, and must re-act upon them with tremendous effect. Either Mr. Boughten and histriends areright or wrong in the position they have taken. If right, then it was wrong for the Examiner to attack him and them in the scurrilous and savage way it did if wrong, then that paper should have maintained its position of the 24th ult., at all hazards and under all circumstances. Its abandonment of the position then voluntarily taken, is proof positive that t was wrong, and a virtual acknowledgement that Mr. Boughten is right in the stand he has taken against City dictation. Does the Examiner see the langerous ground it occupies at the present time, and how fearfully the change of front may operate against the interests of its favorite candidate?

As a matter of course, we are mere passive spectators of the scene. It is, as we stated last week Whig fight over the spoils, and we therefore watch the movments of the two contending factions of Whiggery with perfect composure; our only desire being to see "fair play and no gouging." At the resent stage of the race, the Independent Whig has vidently gotten the inside track, and only because its competitor abandoned it for what appeared to be smoother ground! But this was a fatal error and our friend of the Examiner will find his mis take, if he is not already satisfied on that score when it is too late.

We repeat, that the "about face" movement of the Examiner has deprived us of our anticinated pleasure in witnessing a real, bull-dog Whig fight between the contending factions of that party .-There would have been some rare sport in a melee of the kind, but the "white feather" displayed by our neighbor has spoiled all the fun.

Diplomatic Correspondence. The London papers contain two dispatches or the subject of Mr. EVERETT's famous reply to the Anglo-French proposal to this country for a tripartite convention in reference to Cuba. They con sist of a note of instructions sent by Lord Jones RUSSELL to Mr. CRAMPTON, and a reply from the atter stating that he had, in company with the French minister. M. DE SARTIGES, communicated

its contente to Mr. MARCY. Lord John argues that "there are no grounds fo aving that the possession of Cuba by Great Britain or France would be menacing to the United States, but that its possession by the United States would not be so to Great Britain. " He also reads us a rather presumptuous lecture on the importance of strictly observing international law. He vinds up with the following declaration:

"Finally, while fully admitting the right of the Inited States to reject the proposal that was made by Lord Malmesbury and M. de Turgot, Great Britain must at once resume her entire liberty; and nnon any occasion that may call for it, be free to act, either singly or in conjunction with other pow ers, as to her may seem fit."

Mr. Crampton replies, under date of April 18th, 1853, that Mr. Marcy's answer was to the effect that he would submit the note to the President, and that no formal answer to it on the part of this government might be expected for some weeks, if in deed the President should deem the subject to call or any further discussion whatever.

The British premier's note does not amount to much. He says merely what he was forced to say, or accept in silence a merited rebuke for officious nterference. Matters stand as they did before the ripartite proposal, with this advantage to our side of the question: that we have been turnished an opportunity of distinctly declaring our position on the subject of Cuba, triumphantly vindicating its soundess, and throwing the responsibility for any misinderstanding that may subsequently arise with England and France on their shoulders. To give us such an occasion was a blunder on the part of

Public Sentiment.

Hon. James Buchapan. This distinguished statesman, we are informed by private letter in this city, was on the 17th of August, at the Adelphi House, Liverpool, He sailed from New York on the 6th, in the Atlantic, and arrived sately in England—enjoying a delightful trip, and was in fige health and spirits. On the 8th he set out for London, where he will make his quarters at the Clarendon House until arrangements are made for him to take possession of his private residence. He enters immediately upon the duties of his important mission, which he will discharge as he does everything, with ability and promptness and in a manner becoming the representative of a Republican people.--Pennsylvanian.

JAMES L. REYNOLDS, Esq., of this City, reeived a letter, on yesterday, from Mr. B., confirmng the above intelligence.

Onegon.-The recent election in this Territory shows that it is all over Democratic. All the Sen tors and 22 of the 26 members of the lower House chosen, are Democrats.

There are only four Whig Governors now n the U. States, viz: Clifford, of Massachusetts Fairbanks, of Vermont; Brown, of Florida, and Far well, of Wisconsin. What a used up party!

WHITE HALL ACADEMY .- Attention is directed to the card from the Principal of this establishment in another column. The Institution is represented as being in a very flourishing condition, and offers great inducements to parents and guardians who have children to educate. The location is a de lightful one, and no more pleasant or agreeable neighborhood could be found any where.

The Party for Young Men. The Jamaica (L. I) Democrat, in the following gives expression to a sentiment the operation of which is becoming every day more evident and marked in our country. " The fact," says that journal, " that a majority of the young men, as soon as they begin to exercise the freeman's prerogative of voting, vote in favor of the Democratic ticket, but corroborative of the statement above made. And why should it not be so? Has not the De mocracy always stood up bravely for the nation' honor in every time of trial and under all circum

stances? They find that the Democratic party has always been the true triend of the people-have ever maintained the doctrines of equal rights and equal laws,' and have always sought to defend the oppressed against the machinations of the strong; and hence they feel a sense of honor loudly demand ing their support. Aye, more than all this. They can also see how marked the ingratitude of the Whigs has been in the treatment which two of their most distinguished leaders (Webster and Clay) received. Not so with the Democratic party --Here merit receives its due reward, and those who are torced to do service in the cause are regarded with peculiar care by the party. The present in cumbent of the Presidential chair is comparatively a young man, as is also the executive of this State. These are but the beginning of examples. If the occasion required, an extended list of illustrious names might be given to prove that the young men of the Democratic party are regarded with favor by the masses, and are always certain of reaping a just

reward for their services. " Let, then, every young man, ere he fully decides to join the Whig ranks, ponder well the consequen ces of that act. If he is willing to unite his for tunes with a party without leaders or principlesa party whose doctrines have been universally rebuked by the American people-a party whose support has consigned more public measures to obliv ion and which has robbed the people of more noble spirits than all other parties combined-then let him become a Whig. But, on the other hand, if he would avoid associations so destructive to the energy spirit, and enthusiasm that must ever be found in the bosom of every young man, let him join the Democratic party, and he will find that he has made a wise and judicious selection.

An Important Decision.

The newspapers inform us that a negro man amed George McQueery, alias Walsh, was brought to Cincinnati on the 15th ult., from Piqua, claimed by Henry Mills, of Kentucky, as a fugitive slave -The colored people gathered in large numbers round the Galt House, where the fugitive was guarded by the United States Marshal and a posse of police, and exhibited much feeling, but dispersed upon being assured that the prisoner should have a trial on the following day. The next morning the prisoner was brought before Judge McLean of the United States Court, when the case was heard and adiourned till the 17th.

The fugitive slave case came up again on the orning af the 17th, when the claimant, by the adission of the fugitive and other witnesses, proved his right to the slave. The defendant's counsel re lied upon the unconstitutionality of the law.

Judge McLean, of the U.S. Supreme Court, in slave, decided that the fugitive slave laws of 1793 and 1850 were constitutional. That no State had delivered up to those whom they owed service.-That no proof was necessary before the Supreme Court that slavery existed in the State from whence the fugitive escaped, as it should be taken for granted that a Supreme Judge knew the laws of all the States. The States could not be compelled to give up fugitives by a law of Congress, if the provisions in the constitution did not do so. That slavery can only exist by the authority of law, and as it so exists in the slave States-said law not being an in-

The Judge ordered the slave into the custody his master, who took him across the river.

BEAUTIFUL CONSISTENCY .- The Whig presses of Pennsylvania, says the Democratic Union, from the mammoth North American to the most tiny sheet in bitter denunciation of those who now manage tnem; and in favor of their immediate and unconditional sale at any price. The public improvements must be got rid of at any price, say the Whigh press, to save the State from bankruptcy, and the people from demoralization. Yet, most extraordinary to say these same White pressure of the scale point of that number perhaps a third will be entirely passed over." nary to say, these same Whig presses are out in the most plausible arguments in favor of the construction of the Pacific railroad by the General Govern ment, and this is proclaimed as a Whig scheme-The works of Pennsylvania that pass through country teeming with wealth at every step, and that connect the commercial cities of the Atlantic with the rich valley of the Mississippi, must be sold at one-half their cost to save the State, and the Whig political economists invoke the General Governmen to build a railroad 2000 miles long through a how ling wilderness, and barren desert-through plains without wood and water in summer, and with for

tv foot snows in winter. What beautiful consistency is here exibited .the public works of Pennsylvania are not worth keeping by the State, with their central position and magnificent location, and with a rapidly in creasing local trade, what will the Pacific railroad be wosth to the General Government? We should be pleased to have some of these worthy gentlemen explain this matter, and show us why it is that it s so important for one system of improvements to be sold by the government, and another one built.

Hon. John C. Knox.

The Bradford $\it Reporter$, published in Judge Knox's own county, exhibits the high opinion entertained of that gentleman by those who know him best, his neighbors and intimate friends. Such "home reports" are significant and valuable. "Judge Knox." says the Reporter, "is one of those men whose whole past life will stand up and plead for him a manhood that ranks him among the foremost men in the State. We affirm that among the eminent body of jurists which the Democratic party has se lected from its ranks, to sit upon the Supreme Bench of the State, Judge Knox will shine as a star of the first magnitude. He is indeed above reproach; and in his unanimous nomination, he has received a hiting compliment heretofore unpaid to any man,"

Chronicles of Whiggery.

CHAPTER I. 1. And it came to pass in those days that there was great commotion in Whigdom, and men ran to and fro wondering in themselves where all this

2. And behold! there was a mighty man of war -Thaddeus the Indomitable—who, in wisdom and understanding, exceeded all his fellows, whose voice was at all times potential, and when he spoke listening multitudes were lost in amazement at his wonderful knowledge.

3. And Thandrus said—"Behold, I have served

you long and faithfully in the Senate and in the field, and have ever held fast to my integrity, why then should I be looked upon with suspicion by any of those who profess the same political faith with myself?" And all who heard him, cried out and myself?" said, great is THADDEUS, the War Horse of Whig

gery!
4. Now it came to pass in these latter days, that a race of Whiglings arose who knew not Thad-deuts, and refused to listen to his sage counsels.— They rebelled against his authority, and declared themselves independent of his government.

5. And a certain young man, named Isaac, whose

surname was HEISTER, first raised the standard of rebellion, and he gathered around him the mal-contents and disaffected of Whigdom, to whom he pro claimed himself the champion of their right their protector against all the attacks of the Woolly-headed Chieftain and the battalions who followed him to the field

6. And Isaac gathered the people around him and spoke in a loud voice as Lancaster! Ye have ejected from the command of your armies the great THADDEUS, who has for years led you lorth to battle and to victory over the com-bined forces of Locofocoism, and now ye are like sheep without a shepherd, and will fall an easy prey to the enemy unless you have a chieftain around whom you can rally." And all the people said Amer

7. And Isaac further said-"Listen to me ye mighty men of valor, and all ye who have gre the service of Whiggery-I will henceforth be your leader. I will raise my standard high in the air, and under its broad folds do I invite all the faithful and true of my trusty Silver Grey legions. 8. And it came to pass when he had done speak ing, that his hearers rose up as one man and gave a shout for Issac, and said we will from henceforth have this man to rule over us

9. At the same time they resolved that the heath-enish tribes, called Woolly Heads, with their great Chieftain, THANNERS, should be exterminated from the face of the earth and their habitations made des

10. About the same time it became necessary that a keeper of the public treasure should be se lected, and Isaac and his liege subjects, knowing full well the importance of the money chest in a sanguinary and fiercely contested warfare, determined that it should be entrusted to Benjamin th youngest of the tribe of Silver Greys.

11. But this determination produced an unwont

commotion in both camps—for many even of e Silver Greys demurred to the selection, and favored the appointment of Charles surnamed Boughter, whose long services in the cause of Whiggery, and great readiness as a scribe and accountant, the alleged peculiarly qualified him to take charge o he money of the people.

12. The Woolly Heads, too, were dissatisfied with Benjamin, for the reason that he had but recently deserted from the camp of the Locolocos, the com-

mon enemy of Whiggery.

13. And they reasoned thus with one another: "If we entrust this man with the treasury of the people, is there not danger that he will again re-turn to his first love, and carry it over to the Loco-

focos who are ravenous for the spoils.

14. Nay, verily we will not be guilty of such consummaterally; but as one man we will turn our backs upon Benjamin the Recusant, and raise our voice in favor of Charles the Invincible, whom we know to be true-hearted and reliable, and who has always answer to the objections raised by counsel for the been a courageous and true-hearted soldier in the 15. Now, therefore, there was fierce war in the

and 1850 were constitutional. That no State had the power to pass a law preventing fugitives being of Whiggery was excited from Dan to Beersheba. Both sides are beating up for recruits preparatory to the great battle which will come off on the eleventh day of the second fall month, in the valleof Conestoga, which will be decisive as against one or the other of the hostile armies. 16. Thus endeth the first chapter of the Chron cles of Lancaster County Whiggery.

On Monday evening next, a new company will be introduced, which has been engaged for a season, the proceeds of whose entertainmenst will be for the benefit of the New Orleans sufferers. Thus far, we regret to say, Mr. McFarland has not received the encouragement he deserves. However, he is determined to give Lancaster a fair trial, and by the accession of such talent to his company as Mr. Weaver, the celebrated low comedian,
Miss Sinclair the popular actress and vocalist,
Mrs. Saulman, Mr. Barry and others, will make his company of a character to deserve and command public patronage.—Inland Daily of Saturday.

Whig Fizzles: THE STATE CONVENTION AND MASS

MEETING By the earnest appeal in the Journal of the 17th we had been persuaded to believe that a great gathering of the faithful would take place in Hun-tingdon on last Thursday. Thursday came, and with it some thirty delegates—one-fith of the number ar ointed for the purpose. At ten o'clock the Cou House bell called the faithful to their posts-bu when all who were entitled to seats had taken them ing 'large and respectable'-so, to give the thing a appearance, nearly all the strangers and citizens who were present were admitted as substitutes -for instance, George Raymond, of Blair, repre-sented the City of Philadelphia, Mr. Glasgow, the 'tall Editor,' Mr. Blair, Mr. Williamson, Mr. Watson, and a number of others, represented other les important districts.

We could not make it convenient to be presen

during the whole time of the sitting of the Co vention, but we happened to drop in just at the time when the delegates were discussing the pro-priety of nominating a *Democrat*, Judge Bell, of Ches-ter. Mr. Hoffman, of Berks, the Jakey we sent up Salt River last fall, urged upon the Convention the necessity of nominating Judge Bell. He said the Whis party could not elect one of their own me but by showing a willingnesss to support a Demo crat they might induce the candidate and his Dem ocratic friends to come over and remain with them When they could not efect one of their own me he thought it good policy to support renegade Dem ocrats whenever and wherever they would offe themselves, until they were strong enough, with the accessions from the Democratic ranks, to place in A Good Box -On Wednesday last, a lady lost power one of the 'right stripe.' Gen. Irvin and sev five dollar note in East King stree. The note eral other 'big guns,' fired in the same direction. George Raymond, representing as he said, the Whig party of the city of Philadelphia, gave notice that he would not support Julge Bell, if nominated.—Gen. Irvin replied, and brought George offa log all standing, and told him he had no business there, and what he had said was more than any respecto bls editor in the Union would teel at liberty to say Poor George-unfortunate again-he wished to ex plain,' but the Convention would'nt permit him At this time there was a general confusion in the hall, and a dozen gentlemen were upon their feet trying to be heard. The Chairman s was no use trying to keep order, so he announced that the 'consarn' was adjourned until two o'clock We did not attend in the alternoon, but have learned that a Mr. Thomas A. Budd, of Philadelphia was nominated, to be defeated, of course. Alexan der King, of Bedford, was defeated for the nomina

tion by one vote, and that vote it is said, came from these diggins.'

At an early hour in the evening the grand rati fication meeting commenced operations. We step-ped in just as Gen. Irvin was closing his speech.— Mr. McClure, the Whig candidate for Auditor General, next addressed the meeting, and as a great crowd had been invited and a greater one expected, we thought a report of the number present migh interest those in the county who could not be. We interest those in the county who could not be. We counted heads—within the bar and jury boxes we made the number, twenty-three men, two boys, a small black dog with a curly tail, and George Raymond. Outside the bar, but within doors, the number, including Democrats, boys, and several of the town kleek, was just fifty-seven.

We were curious to know how such a complete and we may say disgraceful, failure was brought about. But iew of the old Whigs of the town and country were there, and a majority of those that ere there took no part in the meeting, but remained idle spectators at the door or upon back seats We were not long in the dark. Our informant re marked that as the 'town kleek' had been read ou of the party by the 'tall Editor,' the whole manage affair was left with him and the dis tinguished delegate from Blair representing the Whig party of the city of Philadelphia. Light enough! It is laughable to think of the closing scene—a meeting of the Whigs of Huntingdo county—no committee on resolutions appointed no committee on resolutions appointed— ons written and offered to the meeting by George Raymond a citizen of another county, and seconded by the 'tall Editor,—both green Whigs at that. How the mighty Whig party of Old Hun tingdon' has`fallen—down—dow

BLOODY RIOT.-On Tuesday last, some twenty ve or thirty Irishmen, belonging to the mines a Coal Castle, came to Pottsville as an escort to fiv six of their friends, who were about to depart for California. As usual on such occasions, they indulged freely freely in drinking, until about time for the afternoon cars to start, when a large portion of them were just in a fit condition for a row Col lecting at the depot, those who were to leave ob-tained their tickets, and entered the cars, while several of the others, intending to accompany their companions a short distance, determined to enter the cars, contrary to the rules of the Company, without tickets. This could not be permitted, and they were repelled by the conductors. Blinded and maddened by rum, they made fight, when Mr. Jeneral citizens, attempted to quell the disturbance, at | cos L. Gross as a candidate for the State Legisla first by mild persuasion, which was met with taunts and insults; the belligerents stripping off their clothes, and making an onslaught upon the officers threatened, for a time, to overcome them. Aided nowever, by a reinforcement of citizens, and using their maces with such effect as to prostrate six of the rioters, they were arrested, and all reeking with blood, and thoroughly subdued by the severe chastisement their own bad conduct rendered necessary taken before Justice Reed, who, after a hearing committed them to take their trial at the next Ses sions. Nearly or quite all of them subsequentl gave bail, and were suffered to go to their home

Washington Correspondence EXTRACT OF A LETTER TO THE EDITOR

WASHINGTON, D. C. September 2d, 1853. Not much news of moment in Washington at his season. The President and his Cabinet are noving on in the even tenor of their way—devoting heir energies to the domestic busines of the couny, and, also having a sharp eye on the affairs of her nations, and, as, in duty bound, looking to the safety of our people who may feel disposed to visit of the world." fear but the "age of progress" will work wonders in the amelioration and condition of the earth, as the light of self-government is unfolded to them, in the happy and peaceful mode with which the dod toreign affairs of those States are un iestic and foreign analysis of the inspection of the nations of the earth. Our Democratic Executive will have a responsible duty to perform, as well as important principles to uphold, in the protection of the conthern interest, that has been threatened by the ate letter of Lord John Russell to Mr. Crampton, the resident Minister here. The British Cabinet are lways at some scheme to embarrass the Statesence, their effort, to enlist the administration of Mr. Fillmore with herself and France, in the tripartate Treaty as a protectorate to Spain for the Island of Cuba. That scheme was defeated by the letter of Mr. Everett; and, now, it is even said that the present Secretary of State, Mr. Marcy, has folwed up the letter of Mr. E. with a stringent one to Mr. Russell, equal in effect to the best days of the Hulseman affair. There is no backing out in Pres ident Pierce, and the nation will stand by him in any position, in which the rights of the U. States are to be vindicated and maintained. We may look out for very important developments, in our fo affairs, on the assembling of the 33d Congress.

Gen, Almonte, the new Mexican Minister, has published a history of Mexico, giving a description of the internal resources of Mexico, as well as a prospective history of her foreign trade, in which the U. States come in for a share of his notice.— The whole of the work, in relation to this country and of the general resources in which both coun tries are interested, are to be translated; and published in English, and I am also told by a distinguished Spanish scholar that the work will be lound to abound in much valuable information to the American reader. It Santa Anna does not keep sharp eye on his Minister, he will be very apt to e the means of tripping him from the imperial osition he now holds, and take possession himself of the down trodden and distracted States of Mexico. We as a nation do not care who ru'es in Mex ico,-it matters but little who is chief or who rules there with the rod of oppression, so that we are let ever come to a rupture with Mexico again, there will be no more millions of dollars paid for what territory we may conquer. That day of payment is gone by, and as Gen. Scott said, "what we con quer, we should hold," and so we will from this time lorth. There is at this time, the news from Corpus Christi, not the most amicable relations subisting along the Rio Grand between the Mexicans and the citizens of the U. States, and, we should ad vise, that fighting had better not commence in earnest, for it it should, a Rail Road track will soon be opened to San Francisco, and, that by the most practicable route as well as the shortest and cheapest, that can be selected. So be cool Mr. Mexican you will see sights before you are two years

Democratic Meeting. At a meeting of the Democratic citizens of Strasburg twp., held at the public house of Wm. Echter nach, in the Borough of Strasburg, Sept. 3d, 1853. Capt. John Hensh, was called to the chair, and DANIEL McGowan was elected Secretary.

The object of the meeting was stated by the Pres

Committee respecting the non-settling of a ticket when, on motion, a committee was appointed to draft resolutions expressive of the sense of the meet

The committee reported the following preamble and resolutions, which were adopted: WHEREAS, It is the opinion of this meeting, com posed of the Democratic citizens of Strasburg twp. that the established usages, the old land-marks of the party, those distinctive and uncompromising leatures which have so repeatedly wreathed ou banners with laurels of victory, have been disregarded and set at naught by the late action of the Democratic County Committee, in declaring it to be inexpedient to settle a ticket, and determining not to call a County Convention; and, WHEREAS, This meeting entertains the belief that said Committee has thereby manifestly transcended its au thority, and so far deviated from their proper line of duty as to usurp the acknowledged duties of the

Township Committees, and gag the independent voers. Therefore. Resolved, That we view the aforesaid action of the County Committee with suspicion-being at va riance with the wishes of the sovereign people and directly tending to the establishmen

an Aristocracy, by transferring the rights of the whole people to the hands of a few. Resolved, That we hereby solemnly protest against the action of said Committee as unauthorized by the people, informal, and destructive in its tendencies to

the interests of the party.

Resolved, That being unwilling to relinquish our uatural and inherent rights, of sovereignty secured to us by our Revolutionary sires, we hold this act of usurpation in abhorrence, as a species of unwarrantable dictation. Resolved, That a County Convention of Delegates

is the only recognized body vested with authority to determine the expediency or inexpediency of set tling a County ticket. Resolved, That these proceedings be signed by the officers, and published in the Democratic pa-
