

DEMOCRATIC NOMINATIONS: JUDGE OF SUPREME COURT, JOHN C. KNOX, OF TOGA COUNTY. CANAL COMMISSIONER, THOMAS H. FORSYTH, OF PHILADELPHIA COUNTY. AUDITOR GENERAL, EPHRAIM BANKS, OF MIFFLIN COUNTY. FOR SURVEYOR GENERAL, J. PORTER BRAWLEY, OF CRAWFORD COUNTY.

By reference to the correspondence in another column, it will be seen that this gentleman has yielded to the wishes of his numerous friends in the northern section of the County, by consenting to re-enter the campaign and stand a poll as an independent candidate for the Legislature. Mr. G. is a sound and thorough going Democrat, intelligent and honest, and it elected, would do credit to himself and his constituents. His great personal popularity, where he is known, may be judged from the fact that a large majority, perhaps full of three-fourths, of the signatures to the correspondence alluded to, are known and recognized in their districts as active and influential Whigs, who have heretofore always supported their party through heart and hand, and who will now yield Mr. G. a hearty and energetic support. We bespeak for him the support of our Democratic friends throughout the county, assuring them that he is meritorious and deserving in every respect.

Col. BARKER, the Superintendent of Motive Power on the Columbia Railroad, has by direction of the Canal Commissioners, offered a reward of \$1000 for the apprehension and conviction of the person or persons who maliciously placed obstructions on the railroad, near Morgan's Corner, on the night of the 12th inst., by which the locomotive and cars due on 2 o'clock A. M., did not reach this city until 11 o'clock, having been thrown off the track.

THE TEACHERS' INSTITUTE.—This body was in session last week, and its proceedings were more than usually interesting to the large number of our citizens who attended the meetings. There has been a decided improvement over the session of last year, and the influence exerted will doubtless give a new impetus to the progress of popular education in this county. A number of gentlemen from a distance were in attendance and delivered lectures, and every thing passed off in the most satisfactory manner. The Institute adjourned sine die on Friday evening. We shall, if possible, allude to the proceedings more at length in our next.

The celebrated Neal Dow, the 'father of the Maine Liquor Law,' is to deliver a lecture in the Market House, in this city, on Thursday evening next. He is also announced to speak at Quarry Hill, on Friday afternoon, and at night at Fulton Hall, on Saturday afternoon at Marietta, and at night in Columbia.

Operations with Nicholas's Bro. TEXT are also commencing in this county, on the 27th inst., and continue at various points till the evening preceding the election.

We shall have lively times for two or three weeks to come.

The appointment of Col. STAMMANN to a Consulship to Talcahuano, in Chili, meets with universal approbation from the press throughout the State and elsewhere. The Col. is deservedly popular throughout the Union, wherever he is known, and the President could not have made a more judicious selection. Our only regret is, that he did not get some lucrative station nearer home, by which his valuable services to the party and to his friends could be retained.

A communication signed 'R. K. alias R. G.,' containing some severe strictures on the conduct of the Principals of the Strasburg Academy, is received, but its publication is respectfully declined for the reason that we do not wish to become involved in a controversy of the kind, especially as it appears to be addressed to a private difficulty between the Principals and one of our pupils. We have handed it over to the Examiner, as requested.

JUDICIAL OPINION.—We have received a copy of this very learned and able opinion in the Railroad case, and shall publish it at length, or at least, make copious extracts from it, in our next issue.

Hon. A. L. HAYS, of this city, is to deliver the Address before the York County Agricultural Society, on the 7th of October. A rich treat may be expected by our neighbors, as the Judge is one of our most learned and able men, and is well looked up on every subject upon which he undertakes to lecture.

The Yellow Fever is raging at Vidalia, Donaldsonville, Baton Rouge, and other towns along the Mississippi. On the 7th there were 70 deaths from the disease at New Orleans, which is still a large figure in the thinned population of that city.

PUBLIC SENTIMENT.—Resolutions approving of the administration of President Pierce and Governor Brooks, were passed last week at the County Conventions of Adams, Dauphin, Bradford, Schuylkill and Clearfield.

VERMONT.—The returns from Vermont are still incomplete. There is no election of State officers by the people. The Whigs have a plurality in popular vote, and a majority in the Senate. In the House the majority will be against them if the Democrats and Free-soilers should unite. At present speculation points to such a union. It is supposed that the majority will be opposed to the Maine Law.

Foxcroft News.—The steamer Arctic arrived at New York, on Sunday, bringing Liverpool dates to the 7th inst. Breadstuffs are declining in price, both in the English and French markets. The Turkish question is still unsettled; and it is reported that the French Emperor, indignant at the Sultan for demanding alterations in the basis of compromise prepared by the mediating Powers, has thrown up the business in disgust, and notified the Sultan, that hereafter, he must act on his own responsibility.

A large and enthusiastic meeting of the friends of Mr. BOVINGTON, the independent candidate for County Treasurer, was held at the public house of John Davis, in Rohrerstown, on Saturday evening last.

Gen. McKAY, of North Carolina, a prominent member of Congress for the last fifteen years, died suddenly on Wednesday last.

The Cholera has again made its appearance at Cumberland, Md. Twenty-two deaths had occurred during the last week.

Gen. SHERIDAN is said to be lying dangerously ill, at Sparta, Illinois.

John Schaeffer has been appointed Postmaster at Rohrerstown.—(Hempfield P. O.)

The Sale of the Public Works.

One of the most reckless and unfeeling articles that has been issued from the press, on this subject, appeared in the Ledger of this city, some time since and we regret to perceive that its false statements have found their way into some of the country papers. In statements have been taken for truth and candor, when in fact they are a series of most reckless misrepresentations—a most violent falsification of the records on this subject, calculated to prejudice the public mind against our State improvements and to make the people believe a lie. After a brief perusal, the Ledger sums up the account with the works for the year 1852, as follows: "To omit the expenditures of previous years, (which, perhaps, would sum up more heavily than it is necessary to establish some proposition,) let us consider those of the year 1852. The Appropriation Bill of that year amounted in round numbers, to \$5,000,000. The expenses of the government, \$258,591. Interest of public debt, \$3,000,000. Common schools, charitable institutions, and incidental expenses, \$50,000—\$2,608,591. Showing the balance of expenditures to be \$2,919,409. Or in round numbers, about three millions of dollars. These figures, it appears to us, speak sufficiently for themselves, and require no further comment for the government of the State were about \$600,000; the interest on the public debt, from the construction and ownership by the State of the public works, was about \$3,000,000, and the cost of keeping the Public Works in repair, &c., to three millions more. Of the whole appropriation of five and a half million dollars, little more than one-third was expended for the general objects of the State government. "The gross income from the Public Works but \$1,838,714, or about one million dollars, after all the experience we have had on the subject, all the improvements introduced, and notwithstanding the increase of trade, to the expense to the State of about a million of dollars, or nearly seven per cent. of the real and personal taxes levied upon the State. If the State could get rid of the Public Works, it would save \$3,000,000, or thereabouts, or thereabouts, would be saved a million of money, which would be extinguished by the sale of the works." "Now, if these statements be correct, it is an end to the whole question. The Public Works cannot be given away, or sold for less than their cost. No set of same men will pay their money merely to enjoy such a brilliant opportunity of becoming bankrupt. "In a subsequent paragraph, this same writer says: "The interest on the public debt, from the construction of the State Debt—the diminution of taxes!! Now where is BARKER? This is more humbuggery than we can stand at this time. The man who proposes to sell a property that is sinking in the water, and to give the purchaser a bill for the debt, should have a straight jacket. If these statements of the Ledger contain the truth—if they exhibited the Public Works in their true light, they should utterly despair of finding any relief for the State. The Public Works are a dead weight, and a burden of fiction resting on a false foundation. "The truth is, the gross receipts from the Public Works, for the year 1852, amounted to the sum of \$1,838,714, and the expenditures to \$1,029,000, leaving a net revenue to the State of \$809,714, instead of a million of clear loss, as stated by the Ledger. They deduct from the whole appropriation the ordinary expenses of the Government, \$258,591; for the interest, \$3,000,000; and then charge the entire balance to the Public Works. Will the author tell us where we are to find the \$5,000,000 that was applied toward the completion of the North Branch Canal; the \$250,000 used in the completion of the State Canal; the \$377,000 that went into the Sinking Fund; the large sum paid on old claims, &c., if the whole appropriation was used to pay the current expenses of the Public Works. But it is useless to labor this point. It is a matter of fact, and it is a matter of fact, that the net revenue to the State is \$809,714, and not \$809,714, as stated by the Ledger. The truth is, however, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition. If the Public Works were sold for their cost, the State would receive \$3,000,000, and the net balance would be \$3,800,000, instead of \$800,000. It is a matter of fact, that the net balance was only \$800,000. This is a very important item in our present financial condition.
