Dear Sir: You ask me for my opinion of "Sile ver's Mineral Paints," which you have put on my function and Planing Mills.
Dear Sir: You ask me for my opinion of "Sile ver's Mineral Paints," which you have put on my full and hearty recommendation of it as a preventive of Fire communicating from Chimer neys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the rools had been painted, I made an experiment on two or three shingles by placing them in the firmace under the boilers; the result was, that the portion uncover ared was entirly consumed, while the Paint however was firm and but little bistered. I consider the paint of the paint of the paint of the paint of the server was firm and but little bistered.

the wood was found to be charred; the Paint how-ever was firm and but little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire. Respectfully, &c.
