(Signed,) JOHN TUCKER, President. Augusta, Ga., September 29, 1852. Steam Planing Mills. Dear Sir: You ask me for my opinion of "Sil-ver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it s a preventive of Fire communicating from Chim as a preventive of Fire communicating from Chim-neys, or from adjoining buildings. The Paint which you put on my roots, has now become as hard as slate, and I feel as secure from Fire, in this direc-tion, as is possible. A few weeks after the roots had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncov-ered was entirly consumed, while the painted part was apoarently sonud, though upon examination was apparently sound, though upon examinatio the wood was found to be charred; the Paint how ever was firm and but little blistered. I conside ever was firm and but little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire. Respectfully, &c.
