Dear Sir: You ask me for my opnion of "Silver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with

pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chi neys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovred was entirly consumed, while the painted par was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and but, little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire. Respectfully, &c. Youth, Age, Style, Taste, Beauty and Fashion.—The seasons of life should be arranged like those of the year. In the spring of youth, when all is lovely and gay, then as the green cover is spread on all the face of smilling nature in high trees. green cover is spread on all the face of smiling nature, in brightness and beauty, so let the dress partake of the season. Fine taste, as well as fashion, decrees the necessity of nicely adapted garments to age, circumstances and seasons. The man whose head is silvered with age, who feels not the blood of youth dancing warmly in his veins, should not run into extremes of dress, nor yet should he permit his clothing to be so far behind the times as to render him ridiculous. There is a becoming fashionable dress, suitable for the age and seasons of life as well as the seasons of the year.
