The Perfect Grain Drill and most Valuable Agricultural Implement.—A great improvement in Grain Drills, making this excellent Agricultural Implement a pefect Macroscopic and the perfect Macroscopic a A great improvement in Grain Drills, making this excellent Agricultural Implement a pefect Machine, for which letters patent were issued September 20th, to Mr. Samuel Jenkins, of York co. The improvement consists in attaching an adjustable curved cutter of steel, to and through the drag bar and through the point of the tooth or drill, in front of the tooth, forming a triple edge at the point, and enabling the tooth to raise up and glide over any obstructions, and completely regulating the depth of furrow required, and depositing the grain to the depth, according to the character of the soil. The Cutter likewise prevents weeds or stubble from clogging or choking up the mouth of the Drill. Heretolore iusuperable disadvantages have attended the use of the Grain Drill, on any other than a level and even soil; but by this simple invention the operation of the Machine is made complete and perfect, and this valuable Agricultural Implement can now be used on uneven, stony or rocky ground, or on new clearing, where the or rocky ground, or on new clearing, where the stumps have not yet been removed, with the same easy draught and perfect operation, in Seeding and Drilling, as on even and clear soil, without jarrind the Machine in the least, or putting the seeding devices out of cear.

I will have a corps of sixteen Reporters in Congress; each in succession will take notes during five minutes, and then retire, prepare them for the Press, put them slip by slip in the hands of com-positors, and thus while a debate is going on in Congress, it will be put in type, and in a few minutes after it is ended it will be in print. I shall by this means be enabled to send by the Express mail of 5 o'clock p. m. for the East, West and North and by that of 9 o'clock p. m. for the South, all the proceedings of Congress up to the ordinary hour of adjournment. It is part of my plan to reduce the price of the

The Daily Globe will be printed on fine paper, double royal size, with small type, (brevier and nonpareil,) at five dollars a year.

The Congressional Globe will also be printed on a double sheet, in book form, royal quarto size, each number containing sixteen pages. The Congressional Globe paper will be made up of the proceedings of Congress and the running debates as given by the reporters. The speeches which members may choose to write out themselves will, together with the message of the President of the United States, the reports of the Exenuive Departments, and the laws passed by Congress, be added in an appendix. Formerly I received subscriptions for the Congressional Globe and Appendix separately. But this has not been found satisfactory, inasmuch as it gave an incomplete view of the transactions in Congress; and therefore I have concluded not to sell them apart, considering that neighbors can have the advantage of both by clubbing in case individuals shall find it too onerous to be at the charge of both.

To facilitate the circulation of the Congressional Globe, and cheapen it to subscribers, Congress passed last year a joint resolution making it free of postage. I annex it, as the law may not be accessible to nontmasters generally a

Joint resolution providing for the distribution of the

Laws of Congress and the debates thereon.

With a view to the cheap circulation of the laws
of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and the constituent bodies:

"Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the

in Congress assembled, That from and after the present session of Congress, the Congressional Globe and Appendix, which contains the laws and the debates thereon, shall pass free through the mails so long as the same shall be published by order of Congress: Provided, that nothing herein shall be construed to authorize the circulation of the Daily Globe free of postage.

Approved, August 6, 1862.

As I sell the Daily Globe at half the price of similar publications, so the Congressional Globe and Appendix is sold for half the cost of so much composition, press-work and paper. This I can

composition, press-work and paper. This I c afford to do, inasmuch as the subscription of Cc glecting or omitting to pay their assessments, within thirty days after the publication of the notice of
the same, will incur the expense of not exceeding
ten cents per mile circular from the office of the
company, payable to a collector, duly authorized
to collect the same. Passed March 14th, 1848.
