caster, on Saturday the 31st day of December, A.
D. 1853, in pursuance of public notice given, the lollowing report was submitted by the Directors, exhibiting the transactions of the Board of Directors during the past year, and showing the strength and condition of the Company at the present time.

The Directors in making this report, take pleasure in announcing the fact that during the year that is now brought to a close, the losses sustained by the Farmer's Mutual Insurance Company have been very small. The only are that occurred upring that very small. The only are that occurred during that period, affecting the interests of the Company, was in a dwelling house owned by Michael Mohr, of West Hempfield twp., on the night of the 23d of April last. The Appraisers estimated the damage at \$1,000, and in accordance with the By-Laws of the Company the Directors paid to Mr. Mohr, the sum of \$750, being \$ths of the ascertained amount of damages. The time at which that fire occurred, being the commencement of the summer season, when fires by lightning are not unfrequent, the Directors apprehend that in case they should levy a least the summer season, when he were the summer season and the summer season are the summer season, when the summer season are the summer season and the summer season are season.

rectors apprenent that in case they should revy a tax to pay Mr. Mohr, they might be under the necessity of laying another tax in the course of a few months, whereas, by delaying the levying of the tax for a ilimated period, would enable them (should it become necessary) to collect at once what might be requisite for their purpose, and thus save time, trouble and expense. In conformity with these views the Treasure

In conformity with these views the Treasurer was authorized to borrow the sum of \$750, at such rate of interest as the same could be obtained, until such time as a tax might be levied and collected to reimburse the said loan, and pay Mr. Mohr at the expiration of the time prescribed in the By-Laws. The Treasurer found no difficulty in obtaining the requisite amount of money at the rate of five per cent per annum interest, and Mr. Mohr has been punctually paid. -The attention of the Board was called to another

account may require some explanation here.

It appears that a fire occurred in the dwelling and somewhat injuring the partition of the apart-ment. Of this no notice was given to the Board of Directors, no application made to have the damages appraised, nor any remuneration demanded for the loss sustained. But when a tax was levied to raise money to pay other losses, Mr. Fisher de-murred and refused to pay in his quota, alleging that he had sustained loss by fire for which he had that he had sustained loss by fire for which he had received no compensation, and finally made application to the Board of Directors for redress. The Board ascertaining that the damage was so small, as scarcely to justify the expense of sending the Appraisers to the premises, yet unwilling to do any injustice to Mr. Fisher, upon receiving affidavits from disinterested individuals, in regard to the character and extent of damage directed the Treasurer to pay Mr. Fisher the sum of \$20,00, which was accepted by him and the matter thus settled. In connection with this subject, however, the Board would recommend to the Members of the Company that when any property may be destroyed by fire.

would recommend to the memoers of the Company that when any property may be destroyed by fire, for which the Company is held liable to pay, and the damage so small as not to justify the trouble and expense of the regular course of proceeding, according to the By-Laws of the Company, that notice thereof be given to the Directors by letter stating the nature and probable extent of the loss, and desiring them to take such action in the premiers as they may deem expedient, or on failing to do so the suffer will submit to the loss, without capecting any remuneration from the Company.

The carnest appeal made by the Board of Directors in their last report, to delinquent tax payers, had the desired effect, and the fack standing taxes paid by all who were considered liable except about half dozen individuals, against whom legal process was instituted, and the money thus record process was instituted, and the money thus recov ered. Most of those against whom compulsory process was instituted have withdrawn from the process was instituted have withdrawn from the Company, without any regret on the pair of the Di-rectors, their places have been filled by other and better men, the Company wants paying members, not drones, who desire to have their property in-sured at the expense of others without contributing anything. themselves.

The appended statement of the Treasurer's account exhibits the financial condition of the com-

pany at this time concrite 5 of or excess a One item in that account would seem to requir some explanation. On the settlement of the Treasurer's account for the year 1851, it appeared that considerable amount of tax had been paid to Juo Strohm, the Secretary of the Company, and by him paid over to the Treasurer at different times, with he whole amount of which the Treasurer was charged at the time of settlement, and the Treasurer having charged himself with partof those mon eya at the time of requiving them, they were thus cluded in up his annual statement. One umof \$130 which was stated on the Treasurer's Books, to have een received from John Stronm, was soon after noticed as being an overcharge, and was corrected in the settlement of last year. Another sum, hew ver, of \$106,69, was not so distinctly stated, bu was included with other moneys collected by the Treasurer from individual members, and consequently, escaped the notice of the Directors, at the me of settlement. Since then, the Treasurer has roduced a memorandum of the moneys composing the item reterred to, which plainly shows, that the moneys stated to have been collected by him and as the Directors supposed, from individua members, as their respective quotas of tax,) the aforesaid sum having been also included in a charge gainst him in another place, thus charging him

vice with the same money, to the manifest injus ice of the accountant.
The Directors having fully investigated this subct, and being clearly convinced that the sum mei oned was twice included in the charges against the Treasurer at the former settlements, have with out any hesitation, allowed him credit for that amount in the settlement of his account for the

present year.

When this company was first organized, the principles on which it was founded were imperfecunderstood, and the advantages which it was calculated to confer, were not tully appreciated; it was to some extent an experiment, and time alone f the country would sustain an Association of this The Series of Jarge Maps, for the Monthly Concerts, Bible Class, Sabbath Schools, Academies 118 Schools, Colleges and Common Schools, has been favorably received by the Christian Public, and met with an extensive sale.

From A. Woodward, M. D., of Penn. University y, Philadelphia.—It gives me pleasure to add my eatimony to the professional abitry of the Author of the "Medical Manual." Numerous cases of disase of the Gental Organs, some of them of long standing, have came under my notice, in which his skill has been manifest in restoring to perfect health, in cases where the patient has been considhealth, in cases where the patient has been considered beyond medical aid. In the treatment of Seninal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession. I have been accumented with the Authorsome thirty wears. been acquainted with the Author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

Alfred Woodward, M. D. readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it into the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to putly and too little presumption to im-
