THE ERIS DIFFICULTIES—Harrisburg, Jan. 20. It is stated in dispatches received here from Erie, that no further opposition will be offered to the carrying out of the decisions of the courts. Indeed derstood that the New York Companies, in view of the passage of the bill annulling the charter of the Franklin Canal Company, (in which the House will probably concur on Monday next,) have offered terms of compromise likely to lead

AWFUL TORNADO IN OHIO—Yesterday afternoun this section of the country was visited by the Heaviest storm of wind, rain, thunder and lighting, that we have experienced since 1828. A perfect tornado was experienced some six miles south of this. The town of Brandon was almost entirely destroyed, scarcely a house being left to mark the site of the place. Dr. Wheaton was seriously if not fatally injured, and Mrs. Smith was also badly hurt. The tornado was about half a mile wide, tearing up everything in its track; but the full extent of the damage we have not yet been. the full extent of the damage we have not yet been

able to learn. Our streams have overflowed their banks, and Ward, will be a candidate for MAYOR of the city, Ebenezer Jenkins, while attempting to cross Arm- subject to the decision of the Democratic nominastrong river last evening, was thrown from his bug-gy and drowned. Buckingham & Co.'s stable was struck by lightning and destroyed. The lower part of our town was almost inundated by the tre-mendous quantity of rain that fell, and our streets look more like rivers than thoroughlares. The damage must be very heavy, as the section through which the storm passed was thickly seitled:

The LOSSES TO THE COMPANY DURING THE YEAR ARE AS FOLLOWS, VIZ:

To the estate of David Saucker, deceased, for barn, \$800; to the estate of William Noble, deceased, for his tenant house, \$200; to John Hassler, for his barn and contents, \$400; to James McCally, for his barn and contents, \$2100; to John Leach, for his barn and contents, \$580; making an aggregate sum of \$5,350,—for the payment of which an assessment of 3 per cent, was laid on the amount of premium notes in force at time of assessment. (November 22, 1853.) amounting to \$5,513; of which sum there has been received by the Treasurer, \$5,712 24, leaving a balance of assessment remaining to be paid of \$1800 76,—a considerable part of which has been paid to the Agents of the Company, and not yet returned to the Treasurer.

It will be gratifying to the members to know that the last assessment (No. 6.) has all been paid, but about \$5, and that of said assement there was but \$180 of delinquencies to be collected, which was in aimost oyery instance paid to the Collector without demurring.

It will be observed by the above report that the amount of insurance is over Four Millions of Dollars, the increase of insurance during the year, is over Half a Million of Dollars,—the amount of Fremium Notes during the year is over Twenty-three Thousand Dollars,—the increased amount of Fremium Notes during the year is over Twenty-three Thousand Dollars, which increase (in consideration that it has been entirely unsolicited by the Directors or Agents of the Company) ages to show, that the principles on which it is based, and the management of the affairs of said Company has, at least, met the approbation of a large portion of the property holders in this county,—there being but a few thousand dollars of property insured out of the county.

The whole number committed to the Prison during the year 1853, excepting the 47 sentenced, was 423—of which 180 were for Drunkenness, 33 Nagrancy, and 0 for drunken and disorderly conduct; as per table No. 1. In addition to which there were sentenced, during the same period, 47, and remaining in Prison on the 31st of Dec. 1852, 46—making the above total in Prison, in 1853, 516; as per table No. 2. About two-thirds of the whole number, viz: 31, were under the age of thirty years. Table No. 8 how often they have been convicted. Table No. 9, showing the occupations of the prisoners prior to their conviction—cribiting the large proportion of 30 in the 47 who were without trades. Table No. 11 shows how many were married—but 24 of the 47 had been married. Table No. 12 shows their occupation while in confinement. And Table No. 13 the number of medical cases treated. Compared with the previous year, there were 11 less received in 1853 than in 1852, and the more remissing in Prison at the close of the former than at the close of the latter

at the close of the former than at the close of the latter year.

There were besides the convictions for the usual crimes 3 convicted for horse stealing, 3 for kidnapping, 1 for perjury and 1 for rape.

The goneral health of the prisoners during the past year has been good. The number of cases treated was but 04—that of the previous year 102. The mass of these 94 cases came into the Prison in a disordered and diseased condition, resulting from the dissipation and irregularity of their lives. One prisoner died of Mania a Potu. For details on this subject see Table No. 13, containing Physician's Report. Thore were no cases of insanity developed in the Prison during the past year.

The Inspectors in their last Annual Report, had occasion to deplore the unusually large number of Vagrants, "housed, warmed and fed at the public expense," during the previous year, as peculiarly burdensome and expensive. This cause of complaint, although not entirely removed, has greatly abated during the past year, as will be seen by reference to table No. 1—by which it appears there were confined in that period but 33 Vagrants and 9 drunken and disorderly mersons; which contract with the result was the contract with the price of the state of the priced was the contract with the price of the priced was the contract with the price of the priced was the contract with the price of the priced was the price here were confined in that period but 33 Vagrants: drunken and disorderly persons; which contrasted the 87 of the previous year, shows a reduction in the ear of more than one half of that of the former y 9 drunken and disorderly persons; which contrasted with the 87 of the previous year, shows a reduction in the past year of more than one half of that of the former year. This decrease in Vegrancy, the Inspectors believe, is attributable to the beneficial operation of the 5th section of the Act of Assembly of March 31, 1853, by which it is provided, "That any person or persons who may be convicted under existing laws, before the Mayor or any Alderman of the City of Lancaster, or any Justice of the Peace of Lancaster County, 'as a Vagrant, drunken or disorderly person, shall, for the first offence, be sentenced to confinement at hard labor in the Lancaster Co. Prison, for any term not exceeding one month; and for the second offence, for any term not exceeding 2 months; and for every subsequent offence, for any term not less than 1 nor more than 3 months," &c. As under this law Vagrants, and drunkon and disorderly persons are committed for the second and subsequent offences to and 90 days, the County is relieved of this onorous charge—in this length of confinement at hard labor, affording a sufficient length of time to enable them to acquire such skill in the simpler occupations of the Prison, as to be able to earl as much as to pay for their maintenance. The like gratifying decrease in drunkenness does not appear to have taken place, as those committed for that offence in the year just closed were 1804-being 15 more than the previous year.

In the beneficial workings of the separate confinement system during the past year, and its wholesome effects upon those prisoners who have, for any length of time, been subjected to its discipline, the Inspectors have had further evidence of its adaptation to the reformation of criminals and the prevention of crime, and manufacturing operations of the Prison during the past year, and contain much interesting information touching the subjects. Statement A. shows that the cash paid out on Orders issued by the Inspectors on the County Treasurer, during the year was.

Actual cost of Prison for the year

This is \$431 02 less than the average of the previous year. This sum, the Inspectors have every reason to believe, will hereafter be annually further diminished. Statement P shows the amount paid to convicts and prisoners for over work, to wit: \$170 07.

Statements S, T, U, V and W, show the progress made in manufacturing in the Prison during the year. It appears by these statements, that there were made 7.767 yds of Carpet for customers; 10,384 yds of for ade; 9120 yds Lancaster County Stripe; 200 yds Lancaster County Check; 530 pairs of Boots and Shoes; 40 Fishing Nots; 3,054½ yds of Bagging; 27 doz Bags; 40,550 Segars; 42,600 Skivers, and sundry other articles.

These statements compare favorably with the corresponding statements of our last Annual Report, and show a large increase, during the year, in all the branches of manufacturing, which, they doubt not, will continue increasing annually, until, as they predicted in their last Annual Report, "the predoucts of the manufacturing industry-off the prisoners will yield revenue proximately sufficient to defray the expenses." While there has been such a large increase in the quantity manufactured, there is a no less marked improvement in quality and style. The fabrics of the Lancaster County Prison, especially in the articles of Carpets and Stripes, will not suffer in comparison with the similar fabrics of regular manufactories. Much of the credit of the management of the Prison, during the period embraced in this Report, is due to the care and attention exercised by the Keeper and his assistants in the performance of their duties.

All of which is respectfully submitted.
