Late from California.

The steamer Star of the West, from San Juan, arrived at New York on Thursday, with 400 passengers and $750,000 in gold. She brings intelligence from California to the the 16th ultimo.—

The latest advices from Lower California state that when Col. Watkins arrived with reinforcements for the Filibusters under Col. Walker, he found the latter closely besieged at Ensenada. The besiegers were afterwards repulsed, but in the conflict Lieut. McKibben, and a private named McCormack, were killed. Five others were wounded.

Col. Watkins had been made Vice President of the New Republic. Col. Walker was encamped at Engnade, and was in peaceful possession of the country. All the Mexican neighborhood had submitted and asked Walker's protection, promising neutrality.

Col. Fremont's claim for Tamaulipas, involving millions of dollars, has been rejected by the District Court.

Mining business has been depressed by the dry weather, but heavy rains were beginning to fall.

The San Francisco markets were completely stagnant. The depression indeed being unexampled. Clear Pork was selling at $20; Mess $15½; Choice Butter 23 cents. Coal had advanced—Lackawanna selling at $39. Rio Coffee at 11 a 12 cents.

The State Legislature met on the 2d of January, when the annual message of Governor Bigler was read. The Governor states the State debt amounts to upwards of $3,000,000. The amount of gold dust shipped during 1853 from California, was in all $82,300,000.

The U. S. sloop-of-war Portsmouth had arrived at San Francisco, in 12 days from Honolulu. The dates brought by her are up to the 29th December.

The steamship George Law sailed from Aspinwall on the 1st inst., for New York, with the mails 600 passengers, and nearly one million in dust.

The Legislature of California met on the 3d. Gov. Bigler was inaugurated with the usual ceremonies. Several important bills were introduced. The Governor, in his message, states that the total debt of California is $3,464,815 70.

There was a heavy shock of an earthquake at Mariposa, on the 3d ult.

The steamer Ranger had exploded her boilers, near Alameda, killing three persons.

Promising silver mines have been opened in Montery county.

The U. S. sloop-of-war Portsmouth arrived at San Francisco from the Sandwich Islands, the 12th

A heavy norther prevailed on the 5th, doing considerable damage to the shipping in San Francisco harbor.

Walker has issued a flaming proclamation.

A Mexican expedition against Walker left Mazatlan on the 28th of November.

The weather has been unusually cold.

One hundred and fifty Chinese have been arrested in San Francisco, charged with a conspiracy to extort money.

FROM OREGON.—Dates from Oregon to the 11th ult., have been received. The Legislature had resumed its sessions. The weather had been unusually cold.

FROM THE SANDWICH ISLANDS.—Intelligence from the Sandwich Islands to Dec. 29th, has been received. Trade was brisk. The American whaling fleet has been very successful.

NEW YORK, Feb. 9. P. M.—The steamship John L. Stephens, with dates from California to the 16th 300 passengers and over one milion dollars in gold, arrived here this afternoon.

The Stephens does not bring any additional news of interest.

Eastern Affairs.

Despatches received from Bucharest state that on the 12th ult., the Russians were repulsed after a short engagement.

An attempt was made by the Turks to cross the left bank of the Danube near the Kalarash, with two thousand men. On the same day, 1200 Russian infantry, 200 Cossacks, and 700 Moldavian workmen, passed over in boats from Galatz to the Turkish side, and began to clear the Island before Galatz of the trees and bushes.

A despatch states that it will be useless for the Porte if he is inclined to negotiate, to act under the erroneous impression that the Czar will depart from any conditions laid down by Prince Menschikoff. Any plenipotentiary sent by the Forte must be provided with a firman, in which it is specified that the Porte considers the present difference to be exclusively between Russia and Turkey, and acknowledges that it must be settled between those two powers alone.

No official reply has been received from the Czar. The final propositions call for peace or war.

All sorts of rumors are afloat, several emanating apparently from responsible sources.

It is stated that the Austrian Cabinet have already possession of the index to the Czar's reply.

It is said that the reply will be transmitted in very decided terms through the Russian Ministers at Paris and London.

The London Times, in an editorial, says:—we have strong reasons for believing that the declaration of the Russian Government will be transmitted to us by our Vienna correspondent authentic and that the language, which seems to exclude the last hope of beace has been addressed by the Cabinet of St. Petersburg to the Austrian Government.

It is we suppose, to this friendly communication made by Austria, as the power to which the Emperor Nicholas had originally referred as his nearest ally, that this imperious answer has been addressed.

From the circumstances above mentioned it can not be considered as the formal answer of Russia to the protocol of the Four Powers, dated Jan. 13th; but if this document be genuine, it is impossible to express in stronger language the insolent disdain of the Emperor for everything which the united diplomacy of Europe has been laboring to effect.

LATEST FROM ST. PETERSBURG.

PARIS, Thursday morning.—The Russian courier who was to leave St. Petersburg shortly after the 15th, has arrived here to-day, bearing most important despatches to M. Kisseleff, the Russian Minister.

Their contents have not transpired, but it is known that they will lead directly to important events.

SENSIBLE REMARKS.—A correspondent of the Delaware County Republican communicates to that paper the following good and timely advice. Every word is true to the letter:

SUBSCRIBE FOR A PAPER.—The present is a favorable period for those who wish to take a paper, to subscribe for one. The long evenings which accompany the present season give all classes an abundance of time for reading especially those in the country. It is to the interest of all persons, if they properly understand it, to subscribe for the paper published in their vicinity or county, because it contains the local news of the county or district—the marriages and deaths of their relatives, friends and acquaintances—notices of the settlements of estates—notices religious, political and other meetings—proceedings of their courts of justice—nominations and elections of township, county and state officers—public and private sales of real estate, and personal property by themselves and their neighbors, by executors, administrators, trustees or assignees—besides the general news of the day, extracted from other journals. It is a great satisfaction to read and ponder over the latest intelligence from every quarter of the globe, upon, all subjects of general interest. I doubt whether two dollars per year, when applied in any other manner, can yield a rational being more satisfaction, or a greater equivalent for his money. Then I would say, send on your names.

THE ICE CROP.—The several ice companies are employing a large force, for the purpose of securing a full crop of ice, and the weather has been so far propitious for the last week or so, that the houses are now about half full and it is pretty certain that they will be entirely filled before the spring opens. The Knickerbocker Ice Co. which does the largest business, has now employed about 1000 men at Rockland Lake and about 50,000 tons of excellent quality have been harvested. The houses when full contain about 120,000 tons. Before the last week very little had been secured. At Highland Lake, the company have two large houses capable of holding 20,000 tons; another, to hold 12,000 tons has just been finished at Rhinebeck. The ice at the latter point is taken from the Hudson river. Barmore & Co. are also employing a large force at Rockland Lake, and will probably lay in at least 70,000 tons. Compton & Wortendyke, at Kingston and Rondout, will secure nearly as much more. The Catskill Co. and Brown & Stone will lay in a large quantity. Altogether, there is promise that about 250,000 tons of ice will be secured, in connection with this market. Ice-cutting operations will be concluded, should the weather prove favorable, in a week or ten days.

The scarcity of ice last summer and autumn would have been a serious inconvenience, had the warm season continued longer. As it was, the Knickerbocker Company bought 10,000 tons at Catskill, Troy, &c, and several cargoes were brought to the city from Maine. At Boston, the ice harvest for this season has already been secured. The *Traveler* says: 'All fears of a short supply of ice the next season can now be dismissed. The past week has been one of unusual activity on all the ice ponds in this vicinity, and from one to four thousand tons of ice has been daily housed from each of the ponds.'—*N. Y. Journal of Commerce*, 1st *instant.*

DEATH OF OVID F. JOHNSON.—Washington, Feb. 11.—Ovid F. Johnson, well known in your city as a Democratic politician, died here last evening. He had of late been rather dissipated, and was arrested and committed to prison as a vagrant, where he died. He was formerly Attorney-General of Penhsylvania.

HARRISBURG, Feb. 11.—The Governor sent in a long special message to the Legislature this morning, in relation to the Commonwealth's taking possession of the railroad of the Franklin Canal Company. He states that the Company protested against his act, and averred their intention of contesting the law repealing their charter before the Supreme Court. The message is strongly in favor of the break of guage in the railroads at Erie.

In the Senate, to-day, the Prohibitory Liquor Law was up. The first section, prohibiting the manufadture or sale of liquors, was adopted by a vote of 16 to 14. The next six sections passed also. On the eighth section, authorizing a search of premises for liquors, Messrs. Price and Heister opposed and Mr. Kunkel supported it. The further consideration of the bill was then postponed.

As to the District to which he belongs. 2nd. As to the relatives of the applicant, who may be willing, or bound by law to releive him. 3rd. As to his real inability to support himself from physical infirmaty or other causes, which entitle him to the charities of the Institution. The Board being bound to obey legal orders, a little attention to these requisites, would often save much trouble and expense to the county.

Valentines! Valentines!—Now on exhibition, and for sale at the "City Book Emporium" the most magnificent and extensive assortment of VALENTINES, ENVELOPES, Valentine Writers, Motto Cards, and Motto Wafers ever offered to the worshippers of St. Valentine.

I would have country merchants and others know that I do not sell the "high tariffed" commission goods from New York and Philadelphia manufacturers, but having at great expense, had special plates made for my Envelopes and Valentines and having paid the cash for both, am prepared to supply orders in every department, with not only a much better article, but at very reduced rates: therefore St. Valentine's Headquarters for this year is emphatically at the "People's Book Store."

Taylor's International Hotel Broadway, Corner of Franklin Street.—Taylor's International Hotel, corner of Broadway and Franklin street, having been completed, will be opened for the transaction of business on *Tuesday, January* 3, 1854.

In the erection and fitting up of this house, every effort has been directed to securing the comfort and convenience of guests; and no pains will be spared to render the Hotel an attractive and agreeable resort for travellers. In plan it will be conducted upon the principle of the first European Hotels. Guests will be served with meals in their own apartments, or at the tables of the saloon, below, according to their own option.

The appointments of the house are of the most approved modern style. The first two floors are arranged in suites of rooms, with parlors and bedrooms. On the third, fourth and fifth stories, the rooms—each fourteen feet square, with fifteen feet ceilings—are so arranged as to communicate, affording ample accommodations for families, and extending from the Broadway front (fifty feet) along the Franklin street side of the building, a distance of one hundred and fifty feet—the apartments on each of these floors being all connected together in suites of rooms to suit the requirements of guests. The fitting up of these apartments is in the best style of modern art. On the first and second floors, the ceilings and walls are richly frescoed; and on the three upper stories they are handsomely finished in fine oil painting.

The furniture of the house has been selected with a view to the combination of elegance and comfort, and it is hoped that nothing is left to be desired in this respect.

The Proprietor desires especially to call the attention of the public to the fact, that passengers arriving in the city by the Boston or late night trains, will be furnished with suitable accommodation at all hours of the night.

The International Hotel will be under the direct superintendence of Mr. William Hemingway.

The Proprietor, grateful for the patronage hitherto bestowed so liberally upon him, respectfully requests a continuance of public favor.

JOHN TAYLOR, Proprietor.

WM. HEMINGWAY, Superintendent.
