ly cheered, while Prince Albert was occasionally The House of Commons was unusually full, but

the American Minister was not present. The Queen delivered her speech in person. It was moderate in tone. She alludes to the Eastern difficulties in terms of regret, but says that her ex ertions, in conjunction with her allies, in favor of an amicable settlement would still be persevered in. She congratulates Parliament upon the alliance with France in furtherance of these efforts, but the opinion is expressed that the danger of war is mos hour to hour, and she thinks it requisite to make a further augmentation of the naval and military forces, with the view of more ef-fectually contributing to the restoration of peace.

The speech states that the revenues of the past year have been more than the expenses of the gov-ernment. She refers to the bill ordered to be framed for opening the coasting trade of the king-dom to all friendly nations, and looks forward with satisfaction to the removal of this last legislative

restriction upon foreign shipping. After the delivery of the address, a debate ensued upon the Eastern question, but nothing was elicited from Ministers excepting a statement that all parties were now awaiting the Czar's reply. For centuries Medi ineral kingdoms, in search for something that hould restore the lost or decaying energies of the nervous and muscular systems, with out the drawback of subsequent prostration, which all stimu-lants, tonics, and narcotics had heretofore entailed. That something has been found. It is a vegetable

In a solucting has been found. It is a vegetable production, brought from the sterile deserts of Arabia the stony, by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old world, and equally distinguished as a physician, a chem-ist, and a traveller. The juices of this herb, con-centrated and combined with other merities and centrated and combined with other vegetable me ity of color. dicinal extracts, are now producing results hereto-lore unheard oi, in this, or any other county. At first the properties attributed to Prof. Morse's in-vigorating Elizer or cordial were deemed labu-

us. The public often deceived could not believe the simple and sublime truths announced by the liscoverer. But facts, undeniable facts at tested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown, by a mass of testimony which is per-beth incredulity. ctly irresistible. The Elizer remedies, in all cases, the deplorable

vils arising from a misuse or abuse of the various rgans which make up the wonderful machine cal-id man. It restores to full vigor every delicate Ied man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the re-prodaction of human lite. To persons of techle muscular frame, or deficient in vital power, it is recommended as the only means of commutcating that energy which is necessary to the proper en-joyment of the natural appetites as well as the higher mental attributes. Its beneficial effects are not confined to either set or to any age. The fee-

The fee-ble girl, the aling wife, the listless, enervated youth, the overworn man of business, the victim of nervous debility, or from the weakness of a single organ, will all find immediate and perma; nent relief from the use of this incomparable rea-ovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so triffed with their con-stitutions, that they think themselves beyond the stitutions, that they think themselves beyond the stitutions, that they think themselves beyond the reach of medicine. SLAVERY IN NEBRASKA .- Mr. Douglas, in hi speech in the Senate on Mondayweek, expressed the pinion that slavery could not exist in the climate Nebraska-though he said there were one or two negroes there at present, because no other la-bor could be obtained in that region, by reason of its sparse settlment. In what manuer these slaves were taken there, he describes thus:----There was a prescher in this site form Nel⁹-sut a preacher in this city from Nebraska, who a few days since was before the committee on territories. A member of the Committee asked if there were any negroes there? He answered that there were a few held by the Indians. He was then asked if there were none held by the white people. His reply was that there were some held by ple, but under very peculiar circumstances. He aid that some years ago, an abolition missionary from Boston came into that country with his wife to reside, that the country being new, help was very scarce and could not be procured, and nuder thes circumstances the missionary went down to Texas, paid a thousand dollars for a negro and bought him for his own use. By this it would appear that under peculiar circumstances, such is the difficulty of obtaining help, these abolition gentry and missionaries will buy and hold slaves, taking particular care that no one else shall use them. The preacher himself, it also turned out, owned slaves there too; but while this was the

case, he did not believe that when the country was settled more closely, when labor could be pr cured, slavery would exist in that climate a day. The people of New York have decided by a

large majority, in lavor of appropriating \$10,500,-000 for the enlargement of the State canals.
