- Late from Europe.

BOSTON, March 1 The Cunard steam, propeller Andes arrived this port this morning from Liverpool, whence she sailed on the 14th ult, bringing news three days later than were received by the Europa. The news very interesting. The Liverpool Cotton market was firm at forme.

The Liverpool Cotton market was non at former quotations. The sales of Monday, the 13th of Feb-ruary, were eight thousand bales. Breadstuffs were unchanged. Consols were quoted at 913a92. The London Money market closed on the 13th with an easy feeling. There was every indication that the Bank of England would soon reduce the prote of interest.

The Government is undecided whether to send the troops to Malta from Liverpool direct, or from Cork. The Agents, however, prefer to send them from Liverpool, which will probably be done. England and France continued to make extra. England and France continued to ordinary preparations for war. A SHOCKING OCCURRENCE.-Late foreign papers give the details of one of the most shocking occur-rences we ever remember to have met with. It . seems that some of the poorer class of houses in the town of Dowlais, Glamorganshire, Wales, are intested to a considerable degree by rats, but no one seemed to imagine that the presence of those intruders, although dangerous to property, would be at-tended with much peril to personal life. A poor working woman having occasion to go from home, put her young child to bed until her return. Upon opening the door of her anartment in which the child lay, she saw three large rats jump from the bed, and on looking in that direction was terrrific at perceiving that the bed clothes were stained with od to a considerable extent. Upon her moving the coverlet a shocking spectacle presented itself. The rate had mutilated the poor infant, and destroyed its life, having eaten away the wall of the belly, and actually destroyed portions of the intestines. The agony of the unhappy mother upon discovering her loss may be better conceived than des cribed; her cries brought her neigbors to her assistance, and the occurrence has produced a painful sensation throughout the neighborhood.

SNOW STORM IN THE OLDEN TIMES .- The year 1717 is memorable in history of New Fngland account of the unusual quantity of snow which fell February 20th and 24th of that year. In those two storms the earth was covered with snow from ten to fitteen feet, and in some places twenty teet deep.
