IN THE MATTER of the intended application of John Hamilton, to the Court of Quarter Sestions, April term, 1864, for a license to continsions, April term, 1864, for a license to continsions, at April term, 1854, for a license to restored and Life lengthened by Dr. Moree's Inutat.—A Phenomenon in Medicinel Health reatored and Life lengthened, by Dr. Morse's In-vigorating Elizer or Cordial. For centuries Medi-cal science has been representations. cal science has been ransacking the vegetable and mineral kingdoms, in scarch for something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all-stimulants, tonics, and narcotics had heretofore entailed. That something has been found. It is a vegetable production, brought from the sterile deserts of production, brought from the sterile deserts of Arabia the stony, by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old World. Morse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished as a physician, a chem-ist, and a traveller. The juices of this herb, con-centrated and combined with other vegetable mecentrated and combined with other vegetable medicinal extracts, are now producing results heretofore unhearded, in this, or any other country. At first the properties attributed to Prof. Alprac's Invigorating Elizer of Cordial were deemed tabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown, by a mass of testimony which is per-fectly irrecisible. ctly irresistible. The Elixer remedies, in all cases, the deplorable

> reference to cases, and will not only remove the disorder itself, but rebuild the broken constitution. The derangements of the system, leading to ner-yous diseases, and the torms of nervous diseases itself are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neardigia, tic dolereaux, headache, incipient paralysis, hystoria, jaipitation of the heart, spinal affections, muscular debility, tremors flatulence, a pricking sensation in the flesh remore naturence, a pricking sense on in the lean numbness, torpidity of the liver, mental de-pression, weakness of the will, indisposition to move, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking of the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions and all barrenness that does not proceed from organic causes beyond the

Whenever the organs to be acted upon are free rom malformation or strictural diseases, it is averred that Morse's invigorating Elixir will replace weakness with strength, incapacity with el irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Beer in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion, and sensation is physica death. Bear in mind also, that for every kind o ervous disease the Elixer Cordial is the ble preparation known.

CURE OF NERVOUS DISEASES.—No lan guage convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debiiitated and shattered nervous

in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once praced, re-viviled and built up. The mental and physical symptoms of nervous disease vanish altogether under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and restore to its nominal condition. Well may and restore to its nominal condition. Well may the preparation be called the medicinal wonder of the nineteenth century. It is, as the first scientific man in the world would have admitted, that mira-cle of medicine heretofore supposed to have no ex-A STIMULANT THAT ENTAILS NO RE-ACTION.—Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them, "that the last state of that man is worse than the first.' But the Elixer is an exhilerant without a single drawback-safe in its operation, perpetual in

happy influence upon the nerves, the mind, a entire organization; it will also remove deprescitement, a tendency to blush, sleeples capacity for study or business Clashice of society, incapacity for study or business.

LOSS OF MEMORY, confusion, giddiness, rush of blood to the head, melancholy, mental debility, hysteria, wretchedness, thoughts of selfdestruction fear of insanity, hypochondrinasis, dyspepsia, genal prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propogating innctions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, con-stipation, etc., etc., from whatever cames arising it is, if there is any reliance to be placed on hu-

nan testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.—The unparallelled effects of this great restorative, in all complaints incident to Females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her liable.—The result has heretofore been uniforn. These nostrums have indeed impacted a momentary vivolities to be construmed to the contract of the contr acity to the nervous system, a transient and delusive vigor to the muscles; but this flash of relief had been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the recuperative power of the nerves, and the vital organization, and finally to destroy the upbers. destroy the unhappy patient. Every woman of sense, who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex, or common in both sexes—to give the Invigorating Cordial strict ordial a trial.

MARRIED PERSONS, or others, will find this MARKED PERSONS, or others, will find this Cordial after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so, but for this extraordinary preparation. And it is equally potent for the many disease for which it is recommended. Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION, OF CONmptive habits are restored by the use of a bottle or two bloom and vigor, changing the skin from a pale, yellow sickly color, to a beautiful florid com-

ness: indeed, without these the journey through life becomes a weary pilgrimage the prospect hour-ly darkens the view; the mind becomes shadowed with despair, and filled with the melancholy reflec-tion that the happiness of another is blighted with your own.

PARENTS AND GUARDIANS, are offer misled with respect to the causes and sources of diseases in their sons and wards. How often do hey ascribe to other causes of wastings of the frame, idiocy, madness, palphation of the heart, indigestion, derangement of the pervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a permicious though alluring practice, destructive both to mind and body.
