Durable and Protective Weather and Fire Proof. This Paint will stand any climate, without crack or blister hardens by exposure, thus risking in time an enamel of stone, protecting wood from decay, and Iron and other metals from rust and cor The Paint differs from the so-called Minera

Paints of the day, which are principally Ochres and Clays colored, and are entirely worthless.

Silver's Plastic Paints are purely Metalic, containing no Alumin or Clay.

They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding.) and flow under the brush as ireely as the nest White Lead.

These Paints excel all others in body or covering properties, one pound of which will cover as much surface, as two pounds of White Lead.

I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs tion, as is possible. A few weeks after the rools had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and but little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hes commend it as an invaluable preventive against Respectfully, &c.
