cal science has been ransacking the vegetative and cal science has been ransacking the vegetable and mineral kingdoms, in search for something that should restore the lost or decaying energied of the nervous and muscular systems, without the drawback of subsequent prostration, which at is namulated to the something has been found. It is a vegetable production, brought from the sterile determs of Arabia the stony, by the celebrated Processor M. Morse, well known as a distinguished member of the leading scientific societies of the Old would, and equally distinguished as a physician, a chemist, and a traveller. The juices of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results heretodicinal extracts, are now producing results hereto-tore unheard of, in this, or any other country. At first the properties attributed to Prqf. Autyle's In-vigorating Elixer or Cordial were deemed labuvigorating Elixer or Cordial were deemed labutous. The public often deceived could not believe
the simple and sub-lime truths announced by the
discoverer. But facts, undensable facts streated
by witnesses of the highest class and character, are
now triumphing over all doubls. Incredainty is
overthrown, by a mass of testimony which is pertectly irreastable.

The Elixer remedies, in all cases, the deplorable
evils arising from a misuse or abuse of the various
organs which make up the wonderful machine called man. It restores to full vigor every delicate
function connected with that mysterious dompound

ture, and without pain or inconvonience to the patient. Irritation of the uretha, or prostrate glands, 450, is sometimes mistaken for stricture by general practitioners or charlatans.

Young Men and others afflicted with Debility whether originating from a certain destructive habit, or from any other cause with the train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering as well as expense. By his improved mentad of treatment, Dr. S. can safely guarantee a speedy and perfect cure in all cases of this complaint.

To Females—all diseases peculiar to females, speedily and effectually removed. The efficacy of his remedies, for the cure of the above affections, function connected with that mysterious of neut relief from the use of this incompatible renovator. To those who have a precise outlon to
paralysis it will prove a complete and
safeguard against that terrible malady.
There are
many, perhaps, who have so brifled with
their constitutions, that they think themselves beyond the
reach of medicine. Let not even these despair. The Elixer deals with disease as it exists, without reference to cases, and will not only remove the disorder itself, but rebuild the broken constitution. The derangements of the system, leading to ner yous diseases, and the forms of nervous itself are so numerous that it would require a col-umn to enumerate the mandles for which this preparation is a specific. A few, however, may one enumerated, viz: nenralgia, tic dutereaux

Whenever the organs to be acted upon are free

from malformation or strictural diseases, it is aver-red that Morse's invigorating Ediair will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a nappy effect on the general organization. Beer in mind that all maladies, wherever they begin, fluish with the nervous system, and that the paralization of the nerves of motion and sensation is physical death. Bear in mind also, that for every kind of nervous disease the Elixer Cordial is the only reliable preparation known

A GREAT MEDICINE FOR FEMALES.—The unparalieled effects of this great restorative, in all comptaints incident to Females, mark a new era in the annuls of medicine.
