KOSSUTH, according to reports, is prepa ring for a revolutionary attempt in Europe as soon as the proper time may arrive. We may then look for a revival of the Kossuth hats and other revolutionary fashions. Extensive Sale of Lands in Bath county, Virginia. The undersigned, adminstrators of John W. Frazier, deceased, and guarlians of his infant son and heir at law, acting a dissioners under a decree of the Circuit Cou of Bath county, will sell at public lauction, on the premises, on THURSDAY, June 15th, all that large and valuable body of lands known as the Clover

tale and Wilderness Farms, formerly owned by Gen. ilackburn, with all the additions thereto made by the deceased.

1. CLOVERDALE.—This tract, contains by recent survey, 2917 acres, which includes also th Dove Spring Tract, recently acquired by purchase. Cloverdale contains the well known Beaver Dam Cloverdale contains the well known Beaver Dam Meadows, has been long known as an important tavern stand, and is largel, and well improved, having under cultivation about 700 acres, of which about 230 are meadows. Besides the Dove Spring, there are two bold fountains quite near the tavern improvements. There is also an overseer's house on the meadows. Altogether this is a splendid

estate.
2. The MATTHEWS FARM.—Entire contents 1364 acres, under cultivation about 300 acres meadows, 50 acres; to which could easily be added fifty acres of superior meadow. This tract, though without any building, yet contains some of the fi nest arable and meadow in the whole body of lands now offered, and is excellently timbered.

3. The WILDERNESS, or Home Place —This was the residence, in his life-time, of the Genamuel Blackburn. The buildings are satiensive and complete, mostly of brick. Area, 1985 acres; under cultivation, about 500 acres; meadows 65 acres. This farm contains the Grist Mill on Sturear. A noble spring near the mansion; good o hard, &c., &c. art's Creek, thoroughly renovated within the pas thard, &c., &c.
4. The FOWLER TRACT.—This is a large and

excellent body of land, though less improved than any of the others. It contains 2206 acres; in cutivation, about 150 acres; in meadow 25 acres, to thich more could be added.

All these farms are abundantly supplied with good timber, the growth being oak, hickory, pine xc. The best of white oak and large pines, suit-

able for lumber and shingles. Limestone is found on all the farms, though o the Fowler and Wilderness tracts are the best quarries. Iron ore is also found.

These lands lie on the turnpike road leading from Harrisonburg, and from Staunton to Warm Springs, 30 miles west of Staunton, 15 east of Bath Alum Springs, 20 east of Warm Springs, and within 7 miles of the line of the Virginia Central Railroad, now graded, and on which the rails will probably be laid this summer. Nothing but spareess of population and remoteness from market has htherto kept down their price. These causes are disappearing. Great leading lines of of improve-ments now begin to penetrate this section—popu-lation is rapidly on the advance throughout Western Virginia-and the advance in the value of rea estate in this region within the next five or ten years, promises to be very considerable. Hereto-lore these lands have been chiefly valuable as grazing farms. That value will remain to them, and

no doubt advance with the general growth of the coutry; but the approach of the rail road must greatly augment their importance to the agriculturist, as well as the grazer.

It rarely happens that such a cluster of farms is brought into market, or such a chance offered for both safe and profitable investment. With such careful farming at the Pennsylvanians practice, those lands would in a few years make an admira-TERMS :- One fourth of the purchase money
