Its beneficial effects are not confined to either sex or to any agh. The feeble girl, the ailing wife, the listless, enervated youth, the overworn man of business, the victim of nervous debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a precisoosition to ovator. To those who have a precisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair The Elizer deals with disease as it exists, without reference to cases, and will not only remove the disorder itself, but rebuild the broken constitution. The derangements of the system, leading to neryous diseases, and the forms of nervous disease itself are so numerous that it would require a col umn to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: nehralgia, tic dolereaux, headache, incipient paralysis, hystorial palpitation of the heart, spinal affections, muscular debility, tremors flatulence, a pricking sensation in the flesh numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking of the stomach, lemale irregularities, a chronic tendency to miscatriage, emaciation, and all complaints growing out of a free indulgence of the passions and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Bear in mind that all maladies, wherever they begin, finish with the natural energy and the they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physical death. A GREAT MEDICINE FOR FEMALES.—The a GREAT MEDICINE FOR FEMALIES.—The unparallelled effects of this great restorative, in all complaints incident to Females, mark a new era in the annals of medicine. Thousands of stimu lants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her liable.—The result has been convenient of the control of t delicate formation of woman render he liable.—
The result has heretofore been uniform. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles; but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the recuperative power of the nerves, und the vital organization, and finally to destroy the unhappy patient. In all directions are to be found the happy parents of healthy offspring, who would not have been so, but tor this extraordinary preparation. And it is equally potent for the many disease for which it is recommended. Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them.

TO THE MISGUIDED.—These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrist, love of solitude, timidity, &c. are some of the evils produced. All thas afflicted before contemplating marriage should reflect that a sound mind and body are the most necessary requisites to promite consults bears. necessary requisites to promote connubial happiness: indeed, without these the journey through life becomes a weary pilgrimage the prospect hour-ly darkens the view; the mind becomes shadowed with despair, and filled with the melanchely reflecion that the happiness of another is blighted with PARENTS AND GUARDIANS, are often PARENTS AND GUARDIANS, are often misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes of wastings of the frame, idiocy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious though alluring practice, destructive both to mind and body.
