All these farms are abundantly supplied with good timber, the growth being oak, hickory, pine, acr. The best of white oak and large pines, suitable for lumber and shingles.

Limestone is found on all the farms, though on the Fowler and Wilderness tracts are the best countries. Iron ore is also found.

the Fowler and Wilderness tracts are the best quarries. Iron ore is also found.

These lands lie on the turnpike road leading from Harrisonburg, and from Staunton, 15 cast of Bath Alum Springs, 20 cast of Warm Springs, and within 7 miles of the line of the Virgiaia Central Railroad, now graded, and on which the rails will probably be laid this summer. Nothing but spareness of population and remoteness from market has hitherto kept down their price. These causes are disappearing. Great leading lines of of improveho disappearing. Great leading lines of of improvements now begin to penetrate this section—population is rapidly on the advance throughout Western Virginia—and the advance in the value of real estate in this region within the next five brief years, promises to be very considerable. Heretofore these lands have been chiefly valuable as grazing farms. That value will remain to them, and doubt advance with the general growth of the coutry; but the approach of the rail road must greatly augment their importance to the agriculturist, as well as the grazer.
