St. Louis Correspondence. Our State Election Improved State of Health —Death of Capt. Sire —Destructive Fires— Riot—Accidents—Shooting in Jail—Fire at the Penitentiary—Sentence Commuted—Fail-ures—Drought—Col. Forney, &c., &c., &c. Sr. Louis, July 24, 1854.

Our State election takes place on Monday week. Much political excitement exists in the different parties, owing to the springing up in our midst of a secret organization; the effect that this order will a secret organization; the effect that this order will have on the election, cannot, at present, be stated. Congressmen, Legislators and county officers are to be chosen at the August election, and at the next session of our Legislature a U.S. Senator, in the place of Mr. Atchison, is to be chosen, but who he will be, is still a matter of conjecture. Col.Ben-ton will be the most formidable rival of Senator Atchison, and if a Democrat be elected, it will be by the scin of this teeth. hy the skin of his teeth.

The Democratic party is divided, and I see no probability of its being united at the approaching election. This division in our ranks will be the means of placing Missouri under the control and in the power of Whiggery. Whilst our party dissensions are daily increasing, the Whig party are firmly uniting in all parts of the State in anticipation of obtaining the reins of onr State governmen Therefore, do not be surprised if this staunch old ship, which has borne the Democratic flag in triumph through many a hard lought political con-test, should yield to the foe and trail her banner in the dust-and at a time, too, when fanatics and abolitionists are striving to sever the holy bonds of the North and South-when scheming politicians and reckless demagogues have their heart bent on dissolution of the Union. The time has come when the Democratic party-when the Democracy of the North and the South should be united as one map, and nip this poisonous weed in the bud. But, alas, for Missouri. her ranks are broken-her once strong and powerful arm is rendered weak by a diffèrence of political opinion between Col. Ben-tan and other prominent members of the Democratic party, and which I fear will never be reconciled until our old enemy; the Whig party, pre-dominates in this strong hold of the Democracythen and not until then, will a reorganization take place in Missouri. The Democrats have two tick-ets in this county, upon each are good and true men; among this number is a Lancaster County Democrat, who stands high in the estimation of all parties, and should there be any, upon the tick et on which his name appears, elected—John H. Lightner will be the man. But the Know Nothings, will, in all probability, have the balance of power, and it depends altogether upon whom they unite upon, from either of the three parties, who shall prove victorious. The Know Nothings can find no objection to Mr. Lightner, and there is

nothing in the signs of the times to indicate a possibility of his being deteated. I nm of opinion that men of all parties will be elected, but who they are, or how many of them, none can tell one thing is certain, and that is, no foreigner will triumph at this election,-notwithstanding several are on the different tickets.

I am happy to report a greatly improved state of health in our city. The burials for the last week sum up 282-a decrease of 223 on last report. Of this number 138 were deaths from cholera-de-crease of cholera 78 compared with the previous week. I think we have seen the worst, and we may now look for a more healthy state of affairs in our city.

An old and prominent citizen, Lapt, Joseph A. Sire, died a few days since. He was a partner i the American Fur Company of Pierre Chouteau, jr & Co. St. Louis has lost in the death of Capt Sire another of her enterprising and useful citizens Our city during the past week has been the scene of several very large and destructive fires -On Wednesday night a fire broke out in a building owned by Mr. Thos. Campbell, and the flames could not be subdued juntil they had complety de stroved seven or eight houses-a tobacco factory owned by Thos. Campbell; Bell & Garvin's tin-ware and stove store; Chas. Wetzler, upnolsterer, Keemle

& Hager, Job Printers, entirely consumed; Book ery of Mr. Hogan and the entire row owned by the minor heirs of Mr. Rogers, of Philadelphia The 'Democrat' office and Type Foundry opposite were in great danger, but lortunately escaped the jaws of the devouring element. The fire burnt uriously and was checked about day light, but a few hours after broke out again, and did its work complete in Rogers' Row. The firemen were on duty about 36 hours, but their efforts proved unavailing in checking the progress of the fire until it reached the corner of the alley. Several other fires, but less destructive, have occurred during the week; at one of them a difficulty arose between some Germans and the firemen. A German named Graet fired a revolver and and shot three men, one of whom is lying in a critical situation. Graet was, after several days search, arrested, and is now

conflued in our county jail. A man was accidently shot a day or two since, by another snapping a gun at him, not knowing it was loaded. Some say the act was done know-

cheaper, at Independence before starting. In a German settlement, called Hermann, on the Missouri river, there were 210 deaths from cholera New Orleans is very healthy at present, there being but 191 interments during the week' ending the 9th inst. In the week previous there wer 329 burials, 114 of which were from sun stroke-

last week but 14 from the same cause. Yours, OLD GUARD. Congressional.

WASHINGTON, July 27. SENATE.-Mr. Adams moved to take up the Batchelder Pension bill, but gave way to Mr. Hun ter, on whose motion the Civil and Diplomatic Anopriation bill was resumed. An amendment appropriating \$300,000 for the

rchase of the possessions and rights of Hudson's Bay Company in Washington Territory, was adopt

The vote, yesterday, rejecting the amendment increasing the salaries of Ministers at London and Paris to \$15,000, was reconsidered and adopted. A proposition to make an appropriation for a Post Office Department double the size of the present building was rejected The amendment in relation to the order of con

tracts for further Congressional engravings led to onsiderable debate.

Various other amendments were proposed and discused, when at half past seven o'clock the ques tion was taken and the bill passed. Adjourned hall of the Committee of Conference on disagree ing to the votes of the two Houses on the India Appropriation bill. The votes were concurred in. Mr. Barksdale asked leave to introduce a bill granting the President ten millions of dollars, t nuble him during the recess of Congress to protect he interests, tranquility and honor of the United States in the existing difficulties with Spain. Several sprung to their feet and raised objections-ine bill was therefore laid over.

Mr. Chandler asked the consent of the House offer a resolution calling for official information rel-ative to the destruction of Greytown by the U.S. stoop of war Cyane. Objections being made, i

SNOW ON THE WHITE MOUNTAINS .- Whilst we july 4 have been sweltering here beneath the burning rays of the sun, with the thermometer at nearly 100

degrees in the shade, it is retresting and cooling to read, even, of what is told in the following letter the Boston Transcript from the White Moun-

tains, in New Hampshire, under date of the 17th

"I commence penciling this communication standing upon a snow bank forty feet thick, at the head of Tuckerman's ravine, and at the base of an amphitheatre of nearly perpendicular rocks over eleven hundred teet high! This famous ravine is situated about 2.500 teet in a firect line S. E. from the top of Mount Washington. It receives the snow blown from the top of Mount Washing-ton by the Northerly winds in the winter, and the accumulation during such a winter, as the last, must be several hundred feet in depth. The brook

in the ravine wears its way under the snow, and as the warm weather comes the arch is gradually enlarged, so that by the middle of July it become a great curiosity. "Our party took their dinner under the snow arch

and then proceeded to take an accurate measure ment of the depth of the snow, the width of the arch, and its height from the stream. The meas ures were taken by Mr. Cavis, who is the engineer of the White Mountain Carriage Road, and relied upon for their accuracy. The snow arch, through which a large stream of water is pouring over the rocks, is 130 feet in length, 84 feet in width; and varies from 6 to 40 feet in height. Outside, we find the whole body of snow to extend a distance of 266 feet, with an average width of eet, and varying from 3 to 40 leet thick. Our The two last leaps of the cascade before the stream enters the arch, are over 100 leet in height, "It is a little singular that this body of snow lies

exposed to the direct rays of the sun on the south side of the mountain, and is only in the shadow of the same after 3 o'clock, P. M. I' would not seem nossible that all the snow in the ravine would It during the next six weeks

The Missouri Democrat came out a day or two since in an enlarged form and new dress; it is one of the neatest papers published in the west. The *Democrat* is a staunch Benton sheet, but is most too rabid in its endeavors to harmonize the two wings of the party-there is too much of one thing in its columns to satisfy the masses. and its editors would be greatly benefited by tacking little more towards Nebraska !

I am pleased to see the Intelligencer over which you preside, boldly and ably defending that distin-guished Democrat, Col. John W. Forney, from the attacks of the Democratic Union, and other calumniators of so true and firm a supporter of Demo-cratic principles and men, and of Democratic policy. Should the editor of the Dem. Union surviv enough he will witness Col. Forney in the U.S. Senate, with his masterly mind and admitted ability detending his country and the constitution -That day is not far distant. He, like our own Bu chanan, has ever and anon stood up in bold defence for the honor our cause in that housed by Whig gery-surrounded on all sides by the enemies of Democracy, without the slightest shadow of con quering and subduing the overwhelming forces of our political loes. Such men as Janies Buchanan and Col. Forney are rather large gains for this renegade editor to waste his ammunition upon. Let him pursue the course he has laid out, and the good people of the Old Keystone will give him a just and merited rebuke.

The list embraces some of the most approved Text-Books, in the various depaatments of study, viz: For Reading Books.—Parker's series are regarded the most thorough by a multitude of the best teachers. They are adopted by the schools of Lancaster city. For English Grammar.—S. W. Clark's System is superse-ding the old Grammars.—W. Clark's System is superse-ding the old Grammars. Heretofore published. Ills system of diagrams is the ne plus ultry for oral teaching. For Spelling and Good Pronunciation.—No teacher will fail to appreciate Price's Spelling Book, Wright's Orthog-raphy, Martin's Orthoepist, and Northend's Dictation Ex-ercises.

ercises. For Rhetoric, Oratory and Choice Reading.—Protessor Day's Art of Rhetoric is pronounced, by the best judges, as being greatly in advance of every other work on this sub-

ject. Northend's Little Speaker, American Speaker and School Dialogues, and Zachos' New American Speaker, contain the choicest selection of pieces (oratorical, poetical and dec-lamatory) ever embraced in four volumes. Parker and Zachos' Introductory Lessons in Reading and Elocution, will be found a valuable hand-book for every inclusion approximation of the selection of the se

For History and Geography.—Mrs. Willard's History of the United States and Universal History, with her in com-parable Charts, are not equalled in excellence by any other author.] Monteith's Youth's Manual of Geography, just publish-ed, has already been adopted in the ward and public schools of the city of New York (to take the place of Smith and Mitchell's Friumry Geography.) A more advanced work on Geography, for higher classes, to follow Montoith's Manual, prepared by Francis M'Nally, will be published in January, 1856. For Arithmetic and Mathematics.—Professor. Davies' System is now regarded the National System, being the standard Text-Books of the military accademies of the United States, and most of the colleges throughout the country. The Arithmetics of Davies are the foundation of his whole series.

Standard 124X-1300Ks of the military accademies of the country. The Arithmetics of Davies are the foundation of his whole series. For Teaching Natural Philosophy.—R. G. Parker, at old and experienced teacher of Boston, has prepared a vork entitled a 'Compendium of School Philosophy,' which is a favorite book with all teachers who have used it. The old books on Natural Philosophy, that have so long hud a sway in our schools, grive way to Mr. Parker. Teachers need only examine, to be convinced of its great oxcellence. The Study of Book-Keeping.—is becoming a very gene-ral study in all our schools, and Fulton and Eastman's, with their system of writing and chirographic Charts, are decidedly the most approved. The School Teacher's Library.—The following work; a re-dedicated to the Teachers of the United States. I. Page's Theory and Practice of Teaching, \$1, 25. III. Mansfield on American Education, \$1, 25. V. Davies' Logic and Utility of Mathematics, \$1, 50.
