St. Louis Correspondence. The Election To-Morrow-The Know-Nothing vote—Oregon Election—City Mortality— Cholera—Jail Statistics—Railroads—Mur der-Increase of Salaries-Sub-Treasury, Arrival of B. F. Weidler, &c., &c. ST. LOUIS, August 6, 1854.

Last night our city was the scene of great ex-citement and commotion. The three parties held mass meetings—the Whig and Anti-Benton parties convened at the West and North fronts of the Court House, and the Benton party tormed in procourt runse, and the benton party formed in pro-cession and marched in a body to Washington Square with bands of music, torch lights and tran-parencies, amid shouts and burrahs for 'Old' Bulfarencies, amin should and buildus for orthornalis lion.' The meeting of the Bentonites outnumber-ed both the other parties combined. Indeed it is said to have been the largest gathering ever as-sembled upon any political occasion in St. Louis: The time for action is now at hand and it become the duty of every good citizen to discharge the sa cred privilege endowed to him by the Constitu ol a free and happy people-that privilege is the free exercise of the elective franchise. Before tocarrying on a guilty correspondence with the enemy. ow's sun shall have set in the west, a great political battle will bestonght and won-the desti-nies of the different candidates will have reached their zenith of glory—some to fill responsible and important positions, whilst others will be left to work the harder at their respective occupations to make amends for the loss of time and the expense

accruing during the election canvass. The Know Nothings have selected their ticket, The know rotatings have selected their international and Modena have been suppressed. In Spain and mot surprise or astonish anybody. I have re-the insurgents have possession of Madrid, having proclaimed a provisional government. The diplomatic corps had been called together at the Palace. The Queen mother in attemptprevious predictions. They will cast their votes for M_1 . Kennett, the Whig candidate for Congress, the Whig Sheriff and Marshall, the Whig jailor, and two thirds of the Whig State Senate and Gen eral Assembly ticket-the balance will be Demo or is simply to satisfy those whom they have en rapped to ploce those Whigs in office and power I enquired of a supposed 'Know-Nothing' why they did not make an equal division of the candidates to which he replied-You see the greater portion

of the organization are Whigs, and it would n fair to overlook that fact in making up a tick-But when I informed him of the simple lact. hat those democrats whom they have ensnared, give them the power of placing those Whig in office he went on to reason in this way, that he Democrats have beretolore held all the offices. and it was high time that a change should take place '&c. Thus, you see the object of this new rganization, and is it not strange as well as aston hishing, that members of the Democratic party can be induced to join an association so determi et in its objects and designs, to rend asunder the party for which they have so often and so zealous tought And for what? Not for the sake of ly tought. And for what is Not for the sake of placing themselves in important positions, but to place the Whig party—their old rivals and politi-cal toes—in responsible positions. I hope, for the the sake of Democratic principles, that men of our own party will open their eyes and look ahead before they leap. To day, whilst writing, the street corners are

filled with men, discussing politics, and much ex-citement prevails throughout the city. There is more money staked upon the result of this election than has ever been at any previous one, and probably ever will be again. Since it has been ascerably ever will be again. Since it has been ascer-tained that Kennett will receive the support of the Know Nothing, thousands of dollars have been bet upon his success, but I still have a presentimen hat Col. Benton cannot be deleated. Gen. Bullard, of New York, paid our city a visit

and addressed the Benton Democracy and then proceeded to Iowa to engage in the contest there. The Oregon elections have been held and

UNLOOKED FOR RICHES-Singular Occur rence—Dr. P. Bommo, a physician of this ci-ty, died last week at the hotel where he board-ed. He was a very old man, of parsimonious disposition, and few acquaintances, and we believe not a single intimate. For many years he had an office in Market street, between Thirteenth and Fourteenth streets, where he spent his whole time when not at meals, doing apparently little business, and was a sort o mystery to his neighbors. He dressed ordin-arily well, but in all other respects was seemingly in indigent circumstances. After his leceose however, a person in overlooking his baggage, examined a small carpet bag lying in his chamber, and to his surprise found over \$4000 in money, all in small bills. The deceased, during his sickness, was in

constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable a possession, and the cause of his ex-treme solicitude was not explained until the finding of the money. Dying intestate and having no relatives in St. Louis or elsewhere, the public Administrator took charge of his effects, and ordered sale of the furn ire and personal property in his office on Market street Yesterday Mr. Riggin, the auctioneer, in con-formity to the order, held a sale on the pre-While it was progressing and during nises. the moving of the furniture some one examin

The discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of near \$4,500 in Missouri Bank bills, hidden away in the chimney. Diligent search was again made but as no more money was forthcoming, it is probable that the entire wealth of the old man as been regained. A rumor prevailed, however, from the statements of two small boys ir the neighborhood, that about the commence mant of the sale a man was seen leaving the office with two small bags of money.
