OLD GUARD.

Late from Europe. The arrival of the steamships Union and America, at New York, on Wednesday last, bring late intelligence from the East. Flour and other breadstuffs had advanced somewhat in price at Liverpool.

The news from the Danube continues rather favorable to the allies. Nothing decisive, however, had yet taken place at the latest dates. The Russian's were defeated at Giurgevo; by the French and Turks, and were retreating by forced marches. Wallachia has been at length evacuated by the Russians, and their forces are being concentrated on the Sereth. The cholera has broken out among the British troops.

The new ministry, under the direction of Gen. Espartero, has been accepted by the Queen of Spain, and peace has been to a great extent restored in that ill-fated country.

The following important intelligence from Asia, giving the details of a great battle between the Russians and Turks, in which the latter were defeated with tremendous loss, was brought by the America: DEFEAT OF THE TURKISH FORCES-LOSS OF 8 000 MEX

KARS, July 6 .- By this time you must have received all the details of the battle fought at Ozurghetti on the 4th (16th) of last month, ending with the defeat of Selim Pasha and his subsequent retreat to Churuksu. The follow ing is the Russian version of the affair as it appeared in the Georgian Gazette on the 9th (21st) ult. The newspapers in Persia have copied it, and the Russian partizans in that country had made the best of it, and are looking up once more :-[From the Gazette du Caucase, July (9) 21.1

"God has again crowned our arms with sucenemies always fly before Him

as chaff before the wind! "Without loss of time we publish the news of another victory which our brave troops have gained over the Mussulmans, whom the Almighty has visited once more with His wrath. While Lieut. Colonel Prince Eristoff was defeating on the 27th of May (8th of June) a Turkish corps at Nigoitki and entirely annihi-lating it, General Prince Andronikoff was making his dispositions to advance on Ozurghetti with a large force. On the 29th of May (10th June) he concentrated at Tcheketaous pattalions of infantry with 10 pieces of artillery, and advanced by the main road leading to Ozurghetti, while Colonel Korganoff, with six battalions of infantry and eight marched in the direction of Akty. eight guns, days a bridge was thrown across the river soupsa, and on the 2d (14th) of June the several detachments were concentrated in good order at a village eight miles distant from Ozurghetti, where they passed the night. Our forces were as follows: Fourteen battalions of infantry, eighteen pieces of cannon, four hundred Cossacks, 500 mounted Georgians, 600 Imeritian militiamen, and 4 companies of Sap-pers. The Mushir Selim Pasha, the Commander-in-Chief of the Turkish forces, having heard that we were throwing a bridge across the Soupsa, issued orders to the generals uncommand to concentrate their men at Ozurghetti, and he himself hastily abandoned Next day he abandoned Ozurghetti also, and with so much precipitation that sev eral hundred sick were left in the hospitals.— He then took up an excellent position on the other side of the Tcholok, between Kahouthi and Dijihandjour; his forces consisted of 12 battalions of regular infantry, eight battalions of redifs, 14,000 militiamen, and 13 pieces of "On the morning of the 4th (16th) of June,

General Prince Andronikoff stormed the enemy's position. Eight battalions of infantry, nieces tacked their left wing; two battalions, with two pieces of cannon attacked the centre, while 600 militiamen and some Georgian cavalry were ordered to turn their right wing. All the rest of our troops, commanded by Colonel Korganoff, formed the reserve. The movements were all executed with the greatest coolness J and precision. Our movements were effectually concealed from the Turkish troops by the nature of the ground, and it seems that they were persuaded that our principal attack would be directed against their right wing and centre.
"Our valiant troops, full of confidence in the justice of their cause, and sure that the Almighty was with them, rushed on with fearful vehemence against the enemy's left wing, headed by Generals Maydel and Brunner Confusion spread immediately in the Turkish ranks, and all was for a moment in the greatest disorder. They rallied, however; again, their reserve came up, and a fearful combat took place hand to hand. All their efforts were vain. Our battalions and our cavalry kept pouring on. The artillery advanced and poured in grape and shell. Gen. Andronikoff, him-

self, was everywhere to be seen-who could resist us? The enemy wavered, broke, and then it was a general saure oui peut. "Incredible was the slaughter. Those only of the Turks saved themselves who took refuge in a dense forest. Their loss was enormous nearly 8,000 men!

'Three fortified camps, all their ammunition and baggage, 15 pieces of cannon, 35 flags, an immense quantity of arms, are our glori ous trophies. "God be praised! Glory to the Czar! May

his enemies be confounded!"

Important Announcement. Invasion of the Crimea by the Anglo-French and Turkish Army, of between 80,000 and

The London Times says :- We are at length in a condition to present to the public some thing more than speculations and surmises on the movements of the allied armies in the East. About the time we write, if not on this very day, a force made up of English, French

and Turks, and amounting to between 80,000 and 100,000 men, will invade the Crimea, and attempt to effect a lodgement on the heights commanding the harbor of Sebastopol. The preparations have been some time in progress, and the rumored visit of Generals Brown and Caurobert to the Circassian coast,

with 5000 men, was really to secure a landing on the Crimea. It is then with the greatest satisfaction that we now announce an enterprise corresponding to the dignity and resources of the two great western powers, England and France, and so far justifying the confi-dence of Turkey. A fortnight will probably clapse before any tidings of the result can arrive, but at an earlier date we shall learn from the East that all the disposable forces have embarked for the neighborhood of Sebastopol.— It is possible that the attack may degenerate into a blockade; and, if we only persevere, we must ultimately starve out the garrison of this proud fortress; but we hope to report an end of the affair long before it comes to that pass; and, with the forces at our disposal, there is no reason why every stone and every plank in ne fort should not be at the mercy of the al lied armies in a very few weeks or even days. We may then, if we please, hold the Crimea against the Russians as long as it may answer our purpose to retain a material guarantee.

CINCINNATI, August 14. DREADFUL EXPLOSION OF A POWDER MILL. The powder magazine at Marysville, Ky., was fired yesterday morning, when eight hundred kegs of powder exploded, and burned thirteen houses. The explosion took place at tw o'clock on Sunday morning, carrying destruction. The light produced was most brilliant, and, singular to say, not a life was lost, and but few persons injured. The citizens were so much alarmed that some minutes elapsed before any one would go into the streets. The general impression was that the day of judgment had come. When the citizens sallied ou they found the sidewalks covered with fragments of demolished houses. The property damaged is estimated at one hundred thousand dollars. Only two persons were seriously injured. One lady died from the effects of fright. The Mayor offered one thousand dollars for information that would lead to the conviction

of the rascal that set fire to the magazine. SHEEP RAISING IN ILLINOIS.—A single family in Sangamon county, Illi, have 17,000 sheep all of good blood. Sheep raising is a fine bus-iness in Illinois. It is said that every farmer who has tried the business has amassed a for-

Baltic has arrived, bringing Liverpool advices to the 9th. A Russian steam frigate from Sebastopol has burned three Turkish merchant ships lying at anchor in the harbor of Heraclea, laden with valuable merchandise. The captains were taken to Sebastopol, and the crews turned adrift in an open boat. Preparations are being made upon a great scale for a combined attack by land and sea upon Sebastopol. The Turkish army is advancing with extreme caution in three columns upon Bucharest. A late report says that the Russians have left it and the Turks enteeed.

In Spain the Espartero ministry has become firmly established, and appears to possess public confidence. The barricades have entirely disappeared from Madrid. General Jose de la Concha is again to be appointed Captain General of Cuba.

Valuable List of Text Books for General
Instruction in the United States, and especially adapt
to the schools of Lancaster county. Published by A. S.
Barnes & Co. 51 John street. New York, and sold by MtiRay & Store, Lancaster. The attention of teachers and the
friends of Education generally, is invited to the following
educational works.

New and improved editions of several of these works
have recently been published, and the publishers will conthe to the most approved edition of their several TextBooks, and thus provide a series of Standared Books for
our Union School Districts and townships, that can be ire
garded as smodern, uniform and permanent series, and
render entirely unnecessary these frequent changes; in
school books that have heretofore been so perplexing, expensive and annoying to both teacher and parent,
The list embraces some of the most approved Text-Books,
in the various depaatments of study, viz:

For Reading Books.—Parker's series are regarded the
most thorough by a multitude of the best teachers. They
are adopted by the schools of Lancaster city.
For English Gramman.—S. W. Clark's System is superse
ing the old Grammans heretofore published. His system
of diagrams is the nephus ultry for oral teaching.

For spelling and Good Pronunciation.—No teacher will
fail to appreciate Price's Spelling Book, Wright's Orthography, Martin's Orthoepist, and Northend's Dictation Exercises.

For Rectoric, Oratory and Choice Reading.—Professor

Day's Art of Rhetoric is pronounced, by the best judges, as being greatly in advance of every other work on this subject.

Northend's Little Speaker, Atherican Speaker and Schied Dialogues, and Zachos' New American Speaker, contain the choicest selection of pieces (oratorical, poetical and deshamatory) ever embraced in four volumes.

Parker and Zachos Introductory Lessons in Reading and Elocution, will be found a valuable hand-book for every teacher and normal school student.

Professor Boyd, of Geneva, has laid our Sominaries and Academies under lasting obligations of the English Poots, viz. Milton's Paradise Lost, Cowper's Task, Table Talk, &c., Thomson's Seasons, Young's Night Thoughts. These works need only to be known to be appreciated. Pollock's Course of Times is in press.

For History and Geography.—Mrs. Willard's History, of the United States and Universal History, with her incomparable Charts, are not equalled in excellence by any other author.

Monteith's Youth's Manual of Geography, just published, has already been adopted in the ward and publis schools of the city of New York (to take the place of Smith and Mitchell's Frimary Geography, A more advanced work on Geography, for higher classes, to follow Monteith's Manual, prepared by Francis M'Nally, will be published; in January, 1855.

For Teaching Natural Philosophy.—R. G. Parker, an old and experienced teacher of Boston, has prepared a worst entitled a Compendium of School Philosophy, which is a favorite book with all teachers who have used it. The old books on Natural Philosophy, that have so long had, a sway in our schools, give way to Mr. Parker. Teachers need only examine, to be continced of its great excellence. The Study of Blook-Keeping.—is becoming a very goneral study in all our schools, and Fulton and Esstman's with their system of writing and chirographic Charts, and decidedly the most approved.

The School Teacher's Library.—The, following works are decideded to the Teachers of the United States.

I. Page's Theory and Practice of Teaching, \$1, 25.

III. Mansfield on American Education, \$1, 25.

IV. De Tocqueville's American Institutions, \$1, 25.

V. Davies' Logic and Utility of Mathematics, \$1, 50.

A yers' PHILS. For all ATHE PURPUSES OF A FAMILY PHYSIC. There had long existed a public damand for an effective purgative pill which could be relied on as sure and perfectly safe in the operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed.

are trial of its virtues in as concinarely shown with what success it
accomplishes the purpose designed.

it is cas, to make a
physical pill, but not a saft to make the best of all pills—
one which should have none of the objections, but all the
advantages, of every other. This has been attempted here,
and, with what success we would respectfully submit to
the public decision. It has been unfortunate for the patient hitherto that simest every purgative medicine is
acrimonious and irritating to the bowels. This is not—
Many of them produce so much griping pain and revuision
in the system as to more than counterbalance the good to
be derived from them. These pills produce no irritation
or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity;
but it is better that any medicine should be taken judiciously. Minute directions for their use in the several
diseases to which they are applicable are given on the box.

Among the complaints which have been speedily curse by
them, we may mention little Complaint, in its various
forms of Jaundies, indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Billous Headache, Billous
fever, Fever and Ague, Pain in the Side and Loins; for, in
truth, all these are but the consequence of diseased action
in the liver. As an aperient, they afford prompt and sure
relief in Cositiveness, Piles, Colic, Dysentery, Humora,
Scrotlia and Surry, Colis with soreness of the body, Uj-

in the liver. As an aperient, they afford prompt and surrecibied in Costiveness, Piles, Colic, Dysentery, Humors, scrofula and Scurvy, Colis with soreness of the body, Ujcers and impurity of the blood; in shirt, any and overy case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Eryslpain Talpitation of the Heart Pains in the Back, Stomach and olde. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dise stimulates the stomach and bowels into healthy actings and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence are occasional does advantageous, even though no serions derangement exist; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be summersted here, but they suggest themselves to the reason of every body; and it is connidently believed this pill will answer a better purpose than any thing which has hitherto been available to manisind. When their virtues are once known, the public will on longer doubt what remedy to employ when in nood of a cathartic medicine.
