2St. Louis Correspondence. ion—Impa Election—Health of the City—Storr 170—Local Mail Agent—The Rivers—Cor on the Plains—\$1,000 Reward, dc. Sr. Louis, August 21, 1854.

Now that the "noise and confusion" of the late election has somewhat subsided, I am better prepared to write of its results. The election in this city and county was very warmly contested—everything was brought to bear again Col. Benton's re-election that could be made available. The Whigs, the Know-Nothings, the Anti-Bentonites, the National Democrats, the Irish, the German Catholics, and in a word, all classes, except the out-and-out Benton men, vo desired that Old Bullion should no longer represent this State in the halls of our national Congress—that his two and thirty years' services were quite sufficient to satisfy them that a change would result for the better. But wheth er the selection of Mr. Kennett will serve their purposes or not, time must determine. But let it suffice, Col. Benton has been beaten by 950 votes in the St. Louis district. The Benton party elected ten of their candidates—two mem bers to the State Senate, seven to the House of Represen tatives, and their Coroner, the balance of the Whig ticke succeeded with the aid of the Know-Nothing and foreign ote combined. In the State at large, nearly every county and district had three tickets before the people. The Ber dued, whilst the Whigs have stolen a march upon the De mocracy, when in a divided and distracted condition. The official returns are not all in as yet, but enough is known to indicate the complexion of the next Missouri Legislature It stands; Benton 40; Antis 60; Whigs 62. Thus it will be seen that parties are pretty evually divided, neither one of which will be able to elect a U. S. Senator without the aid of the other, Who our next Senator will be, cannot a this time be accurately stated. But one thing is certain Col. Benton will not be the man, and from what I under stand he intends to withdraw his name from the canvass It has been stated that Col. Benton will shortly visit Mis souri for the purpose of stumping the State for his re-elec-tion to the U.S. Senate. This is an absurdity, and would be the foolishness of folly in him undertaking such a ri-diculous task. The legislators are already chosen, and al that he may say to them cannot change their predetern nation. He is politically dead in this State—he has sung his song of political hosannas, and run his last race on Missouri still, he fought the battle bravely and fearlessly— he contested every inch of his disputed rights, and fell nobly in the defence of his cause before the fire of public opinion. What the nation may do for him in '56 can nev er wash out the lasting stain of his late defeat at his own

Phelps, the anti-Benton candidate for Congress in the oth District, is elected over Johnson (Benton) by a major ity of 1000 votes. The next Congressional delegation will stand six Whigs to one Administration Democrat. Mr. Atchison (Dem.) and Mr. Geyer (Whig) are the Senators-Beven Whigs to two Democrats. Think of that delegation from the old Democratic State of Missouri. The Senator to take Mr. Atchison's place will either be a Whig or a

to take Mr. Atchison's place will either be a Whig or an anti-Renton Democrat.

This is the result which I predicted two years ago, and which you will find correct by turning over your files.—Koming is now wanting to compite that prediction, but a Wing Governord! However, the Whigs have the reins of our state government, and it is prouded that bemocratic party will now us the great bone of contention has been laid aside unite upon new and good men, and in a short time we will again predominate and be "monarch of all we survey will again predominate. short time we will again predominate and be "monarch or all we survey.

Jowa, ains, has turned her back upon the Democracy—that Democracy which made her what she is—which took her by the hand in her intancy and united her in the holy tonds of American Freedom, and piaced her on the borners of our National confederacy as another bright and brimant constetution in the annals of American iberty. Yes, ans, for lows, her hard-based yeomany have been decayed, and their political foes have trumphed. Questions of a local character were made the weapons in the contest. Our party had to contend against the greatest odds. We had the Whigs to night, the Abolitionists, the Free Soilers, the anti-Acoraskanes, the anti-Administration Democrats, and the Free Soilers and Abolitionists odds. We had the Whigs to fight, the Abolitionists, the Free Soliers, the anti-Administration Deancerats, and the Free Soliers and Abolitionists of the Eastern and Northern States, who gave their aid and money to deseat the Democratic party. They have succeeded for the fine being. Grimes, the Abolition and Wing candidate for Governor, is elected by upwards on 2500 majority, as are also the reat of the State tacket and two Congressmen. Nothing but the official returns can determine the complexion of the Legislature, but it is that that the Democrats will have a majority on point ballot. There has seen no apparent attempt to renew the recent secures of the late riot. Our city is perfectly quiet, and everything appears to work in the usual way. There has seen nothing of a local character transpiring wormy or note. The neadth of our city is comparatively good—outer, perhaps, than any other city in the Union, considering our population. The mortality for the week ending August 1-th, is but 183; of this number 25 were-from chosen, and 111 of the whole number were children under new years. The City Hospital has 100 patients, but not a case of Cholera.

Mr. Martin Dubbs, an anti-Bentonite, has been appointed local anni Agent, in piace of adward Milligan, removed.
The western rivers are all very low, ann gradually receding. The mail boats between this city and Louisvine have have discontinued on account of low water. We have han no rain worth speaking of since my last, and everything in this beightorhood is completely parched and burnt up.—The cera crop is ruined, and the price is rapidly going up in this city—prime and choice white now sens at 500,00c, yeinow ougooc, and sound mixed from 51 to 500.

A bloody battle toos place on the 3d inst., on the plains above the keinow Medicine river, between the Sioux Indians and a war party of the Chippewas. It is reported that twenty-right of the latter have been kined. Twelve or fifteen Chippewas left at the urst fire, after which they took fitten. Compress tell at the urst fire, after which they took a stand, and lought to a great disadvantage, and were soon obliged to seek sately in algat. The Sioux did not lose a shinge man, inough several were wounded. A beautiful young squaw was taken captive by a young brave, who, it is said, has in turn, been captivated by her! The exectionent oter this victory is intense among the Sioux an along the Upper Minnesota.

The brother of air. In. It Violet, (who was killed in the late riot,) arrived in the city, and has oldered a reward of Stoop for the surrender into his hands of the murderer of his bother.

A SINGULAR ABDUCTION CASE.—The London papers are full of the details of a trial of Join Carden, of Barnane, Ireland, on a charge of attempting a violent abduction of Miss Arbuthnot, who is the sister of Mrs. Gough, whe of the Hon. Captain Gough, the son of Lord Gough, lately advanced to the peerage for his services in India. The lady had been to church with three other ladies, her sister, Miss Lyndon, and Mrs. Gough. On their way home, Mr. Carden, with two or three retainers, stopped the carriage. The three ladies were dragged from the carriage, but Miss Arbuthnot lought bravely and resisted every attempt to pull her out. Her sister and Miss Lyndon each gave the wild Irish lover a blow from their little fists which brought the blood from his nose. Cargen's intrusion into the car Miss Lyndon received him with her "closed hand" on hi face, which immediately showed signs of chastisement. The eldest Miss Arbuthnot, on being dragged out by main force, brought Mr. Caruen to the ground, and so impeded him in his attack on her sister that he was obliged to call in aid. Miss Eleanor L. Ar not, in a long and dreadful struggle, proved herself too much, not only for Mr. Caruen, but even for another big fellow, who nearly tore the clothes from her back. The man who went to the ladies' rescue, was threatened with a garden knite in his vitals. The noise of the struggle drew several persons to the scene, and their interference prevented Mr. Carden from carrying out his design, one of the persons giving him a flogging on the spot with a whip. It was shown on trial that he not only went with armed men to prosecute his suit in this ardent and violent manner, but that he had supplied himself with effectuar means for stopping any outcry, among which were two bottles of chloroform, to produce insensibility, in which condition it was presumed he meant to defile his victim. The detend ant discussed indignantly any such inten tion. The jury found the defendant guilty of an attempt to commit a felony, the punish ment for which is two years' imprisonment.

EXTENSION OF THE PROVISION OF THE BOUN at the last session, extends bounty lands to those who served in California under Col Fremont, during the Mexican war, who wer not embraced in the provisions of any previous bounty land law. The same act also grant bounty lands to all seamen, marines, and naval and marine officers, who served on the coast of California during the Mexican war. These facts are important to be known far and wide. Heretofore, only such of those last men tioned above, who served on shore, were entitled; now, all who served on the California coast in a military or naval capacity.-Wash.

DEMOCRATIC NOMINATIONS.—The Democratic primary elections in Philadelphia on Monday evening resulted in the following nominations: Congress-1st District, Thomas B. Florence; 2d, John Hamilton, Jr. ; 3d, James Landy; 4th, Henry M. Phillips. Senator in the county, N. B. Brown: Senator in the city, George Smith. Prothonotary of the District Court, James Fletcher; Coroner, Joseph Delavan; Recorder, R. D. Wilkenson; Clerk of Quarter Sessions, George Howell.

THOMAS CLAYTON, a distinguished citizen of the State of Delaware, and formerly member of Congress, first as a Representative, and next as a Senator, died at his residence in New Castle, on Tuesday evening. He twice held a seat in the Senate, and was also, at different periods a member of the Delaware Legislature, and Chief Justice of the Court of Common Pleas and Chief Justice of the Superior Court. Though plain and unpretending, he was a man of sterling good sense, and always commanded respect by the faithful performance of his public duties. At the period of his death he was in his 77th year.

Valuable List of Text Books for General New and, improved editions of several of these works have recently been published, and the publishers will conue to the most approved edition of their several Text-Books, and thus provide a series of Standared Books for our Union School Districts and townships, that can be regarded as a modern, uniform and permanent series, and reader entirely unnecessary these frequent changes in school books that have heretofore been so perplexing, expensive and annoying to both isacher and parent,. The list embraces some of the most approved Text-Books, in the various departments of study, viz:

For Resding Books.—Parker's series are regarded the most thorough by a multitude of the best teachers. They are adopted by the schools of Lancaster city.

For English Grammar.—S. W. Clark's System is superseding the old Grammars heretofore published. His system of diagrams is the ne plus ultry for oral teaching.

For Spelling and Good Pronunciation.—No teacher will fall to appreciate Price's Spelling Book, Wright's Orthography, Martin's Orthogist, and Northend's Dictation Exercises.

For Rhetoric, Orstery and Choles Reading.—Professor

For Rhetoric, Oratory and Choice Reading.-Profess Day's Art of Rhetoric is pronounced, to the best judges, as being greatly in advance of every other work on this subject.

Northend's Little Speaker, American Speaker and School Dialogues, and Zachos' New American Speaker, contain the choicest selection of pieces (oratorical, poetical and declaratory) ever embraced in four volumes.

Parker and Zachos' Introductory Lessons in Reading and Elecution, will be found.

the choicest selection of pieces (oratorical, poetical and declamatory) ever embraced in four volumes.

Parker and Zachos' Introductory Lessons in Reading and Elocution, will be found a valuable hand-book for every teacher and normal school student.

Professor Boyd, of Geneva, has laid our Seminaries and Academies under lasting obligations of the English Poets, viz: Miltoris Paradise Lost, Cowper's Task, Table Talk, &c., Thomson's Seasons, Young's Night Thoughts. These works need only to be known to be appreciated. Pollock's Course of Times is in press.

For History and Geography—Mrs. Willard's History of the United States and Universal History, with her incomparable Charts, are not equalled in excellence by any other author.

Monteith's Youth's Manual of Geography, just published, has already been adopted in the ward and public schools of the city of New York (to take the place of Smith and Mittehl's Primary Geography.) A more advanced work on Geography, for higher classes, to follow Monteith's Manual, prepared by Francis M'Nally, will be published in January, 1855.

For Arithmetic and Mathematics—Professor Davice! January, 1855. For Arithmetic and Mathematics.—Professor Davies System is now regarded the National System, being th standard Text-Books of the military accademies of the United States, and most of the colleges throughout th country. The Arithmetics of Davies are the foundation of the whole country.

United States, and most of the colleges throughout the country. The Arithmetics of Davies are the foundation of his whole series.

For Teaching Natural Philosophy.—R. G. Parkar, an old and experienced teacher of Boston, has prepared a work entitled a 'Compendium of School Philosophy,' which is a favorite book with all teachers who have used it. The old books on Natural Philosophy, that have so long had a sway in our schools, give way to Mr. Parker. Teachers need only examine, to be convinced of its great excellence. The Study of Book-Keeping.—is becoming a very general study in all our schools, and Fulton and Eastman's, with their system of writing and chirographic Charts, are decidedly the most approved.

The School Teacher's Library.—The following works are dedicated to the Teachers of the United States.

I. Page's Theory and Practice of Teaching, \$1, 25.

III. Mansfield on American Education, \$1, 25.

IV. De Tocqueville's American Institutions, \$1, 25.

physical pill, but not easy to make the best of all pills on any to make the best of all pills on which should have noise of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the period of the public decision. It has been unfortunate for the period in the source of the produce so much griping pain and rorulation in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a proviously existing obstruction or derangement in the lowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any modeline should be taken judiciously. Minute directions for their use in the several dously. Minute directions for their use in the several tion or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable aragiven on the box. Among the complaints which have been igneedly cured by them, we may mention laver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Billious Headache, Billious fever, Fever and Ague Pain in the Side land Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperiant; they safford prompt and sure relief in Costivenses, Piles, Colic, Dysentery, Humors, Scrofula and Scurry, Coldswith soreness of the body, Ui; cers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Kheumatnam, toth, Dropay, travel, Erysipelas, Falpitation of the Heart, Fains in the isack, stommen and Side. They should be breily taken in the spring of the year, to purify the blood and propar it is system for the change of seasons, stomach and bowels into histiny action; and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circuisory system, renovata the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence sin occasional dose is advantageous, even though no serious derangement exist; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to access. The thousand chase in which a physic is required cannot be enumerated nery, but they suggest themselves to the reason or every body; and it is coundeantly believed this pill will answer; better purpose than any thing which has hitherto been swalated to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
