St. Louis, August 28, 1854.

Since the election and the excitement thereof, our city
has been remarkably quiet. All seem to be content with
those whom the majority have selected for the various positions. The official returns are very slow in coming in,
but I think they will not vary much from what I have already stated, excepting that Phelps, (Anti) is elected to
Congress, instead of Johnston, (Benton) as previously noted
but the delegation stands the same. Col. Benton has been
expected here for the past week but has not yetmade hisappearance. He must feel very sore about his defeat—and
greater must be his grievance when he contemplates upon
the causes and the individual—which have contributed, in
a great measure, in so completely driving him tino the
shades of private life. Mr. Kennett, whose fame and name
are scarcely known outside the limits of the city—whose
talents are but of a mediocral degree, and whose popularity is based altogether upon personal acqualutance, has
certainly achieved a great victory, when we consider his
ability, and that of Col. Benton. There is a great deal-expected of Mr. Kennett, and I fear much more than he will
be able to perform. The Know Nothings claim him as one
of their body; the Whigs say he will not desert his former
pledges to their party and its principles, whilst the Irish
and German Catholics insist that they elected him to Congress, and expect him to stand by the constitution and the
laws of his country. This he cannot do and serve all their
interests and desires. He is placed in an awkward position
and none but Lutter M. Kennett can of would pledge himself to a half dezen different factions, with as many conflicting interests and without the slightest hope of proving
true to all. But it is to be seen how he will manage the
game, and if he can go through without the slightest hope of proving
true to all. But it is to be seen how he will manage the it is a triumph of whiggery, or that it has been achieved upon a single principle advocated by the old whig party—They are now quarrelling among themselves upon this point, and the next thing we may expect to hear will be that it is a Know Nothing victory. It appears that the Nobraska question was not made the test as a general thing but in the districts and counties where it was unade the test, the Democrate carried the day by large majorities.—The St. Louis Republican, the leading Whig paper of the west, says, "It was a sort of smatch game (Abolitionism) played upon the Whigs of lowa before they were aware of it, and of which they will have ample cause for repentance hereafter. Their fate, we are inclined to believe from the signs in Now York and elsewhere, will mot be lost upon those who have to participate in elections in other States." The Republican should be the last japer to speak of the combination of Whigs, Abolitionists, e.c. The Republican should be the last japer to speak of the combination of Whigs, Abolitionists, e.c. The political fever is now beginning to break out in Illinois. County conventions are being hoisted up—as a target for editors to fire at, and an opportunity is now effected to blacken or white-wash their characters, according to agestize and appearance. Maj. There has been no local intelligence worth communicating, if I except the almost daily occurrence of murder or assessination, which have become so common of late with us, that they are varied with no greater importance than a common ordaboose arrest. Our Methesday afternoon last William Broply was struck on the head with a rock, and instantly killed. The man who committed the deed is unknown. On the same day, a man by the name of Samuel Finicey, shot his wife with a double barrelled pistol. The woman is badry wounded, but there are some hopes of her recovery. The man was committed to jail.

A steambatman was way laid a few nights since, and stabled in the back. A man by the name of Joseph Elveiras was arrested, examined and committed as the piezon who did the cowardly act. The wounded man is at the Hospital, and considered in a very dangerous situation.

On Monday last Capt. R. M. Strother, a gentleman well known to our citizens, was most thetaily murdered on the lilinois river, near Lassile, by a person named Harris. The weapon used was a double barried shot gun loaded with buck shot. Both barrels were fired. Strother was killed mistantly. Harris has escaped. There is \$250 reward offered for him dead or alive. I might go on and enumerate a dozen other cases of assault, but as the persons concerned are unknown to your readers, I shall pass them by. Some time since I spoke of an appalling scene in one house, near dalena, which was nothing compared to the one I am about to relate. Some time since I spoke of an appalling scene in one house, near dalena, which was notthing compared to the one I am about to relate. In the family of Mr. Aaron Daulels, a respectable farmer, residing about three miles north of Ottawa, III., the cholera has ligen doing terrible work.— The horst victim was Miss Minerva Daniels, aged 17, who died on Saturday evening; on Monday night, Jonathan Daniels, son, aged 20 years; Ruth Ann Daniels, aged 1 years, and on Thursday morning morning. Mrs. Aaron Daniels, aged about 30 years. The family was widely connected, and among the visitors the following fell victims: On Monday evening, teorge Head, son of Thomas Head, aged 18 years, Louisa Parker, child of Mrs. Parker, daughter of Aaron Daniels, affects, the following fell victims: On Monday evening, theory of Hrs. On Saturday evening the Varieties' Theatre commenced its fall season, with Mrs. Farren as the bright particular star. Mrs. F. has long been a favorite with the play-going public of st. Louis, and can always command the attention

with Shakesperian readings.

The Messrs, Cony and J. A. Webb are still performing at the People s.

The weather continues warm and dry. Yesterday afternoon we were blessed with a glorious shower, but it suddenly passed away. The farmers throughout the west are complaining of the drought, and those in the neighborhood of St. Louis, wear uncommon long faces.

nati paper says:-We received yesterday evening, by a gentleman from Xenia, the particulars of a bloody transaction, which, it is said, has thrown the neighborhood in which it took place into an unprecedented state of excitement. The following are the facts as they were given us:—A young man named Joseph Baird, son of a farmer who resides near Jamestown, and about 12 miles from Xenia, was married last Sunday to a young lady to whom arman named Frederick Robinson had for some time previously paid his addresses, and who also lived in the neighborhood. happy pair passed their bridal day and the following at Xenia, and on Tuesday afternoon started back in a one horse buggy for home. When within a mile of his father's farm Baird was startled by the appearance of his rival, who suddenly emerged from a clump of trees a little distance ahead of him. He whipped his horse, but Robinson with an oath exclaimed, "You dont get away from me so easily!" and fired. The shot missed him, and Baird, springing from the buggy, advanced toward him, when Robinson fired again, this time the ball passing through his brain, and stretching him a lifeless corpse upon the groud. The unhappy bride, in the meantime, rushed on the assassin, who partially paralysed at the deed he had perpetrated, allowed the pistol to be taken from him. Mrs. B. thinks that she fired at him twice, and missed him, when jumping into the buggy, he lashed the horse, and putting him to his topmost speed was soon out of sight. The corps o the murdered man was conveyed to his father's residence, who shortly after passed that way with his wagon. Our informant adds: Much excitement prevails in the neighborhood, and

VALUE OF AMERICAN PRODUCE, CATTLE, &c. -The Louisville Journal says it was stated by Professor Mapes, at a recent meeting of the Farmer's Club at Louisville, that "the value of live stock of the United States at this time is not less than \$600,000,000, and this will be increased by any increase of the grass and grain crops. More than 120,000,000 bushels of wheat are annually grown, 14,000,000 bushels of rye, 150,000,000 bushels of oats, 5,000,000 bushels of barley, 9,000,000 bushels of buckwheat, 320,000,000 pounds of butter are made, 105,000,000 pounds of cheese, and 14,000,000 tons of hay." These estimates do not include Indian corn, potatoes, beans, fruits, tobacco and various other products, equalling in value we have named.

but little doubt is entertained of the apprehen-

sion of the assassin.

The Roman Catholic Church at Raritan, Somerset county, N. J., was set on fire and consumed on Wednesday of last week. The citizens of the place have raised a liberal subscription, to be offered as a reward for the discovery of the incendary.

MURDER WILL OUT .- A colored man named Peter Crawford, was taken before the Mayor of Philadelphia on Monday last, and confesed to having murdered rFancis Tumbleson another colored man, some seventeen years ayo, in an eating celler, at the corner of Tenth and South streets, in consequence of a quarrel at a game of cards. Witnesses were called to coroborate his own testimony, and the self-accused was sent to prison to await his trial.

THE GREAT STATE FAIR.—The preparations for the State Agricultural Fair and Industrial Exhibition, to be held on the Powelton Estate, 24th Ward, Philadelphia, are progressing rapidly. About two hundred sheds for horses, cattle, &c., have been erected. Also a Floral Hall, 200 by 60 feet; a Mechanic's Hall, 400 by 96 feet, and one for Farming and Garden Implements, 200-by 48 feet. Every prepara-tion is being made to make this the greatest exhibition ever got up in the country.

E3. Dr. Cheeseman's Pills for Females.—The combinations of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every-instance have the Pills proved successful. The Pills invariably open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and desthip countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold or any other cause, the general health begins immediately to decline, and the want of spuch a remedy has been the cause of so many consumptions among young females. Headache, pains in the side, palpitations of the heart, loathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the pills will invariably remedy all those evils.

N. B.—These Pills should never be taken during pregnancy, as they would be sure to cause a miscurriage.

They are put up in square flat boxes, and will be sent by mail to any address by remitting to Br. C. L. Cheeseman, No. 271 Blocker street. New York. Price One Bollar per box. 'Sept. 5 1y-33
