Are You Assessed ! In order to vote it is necessary that strangers and new-comers should be assessed in the district in which they have taken up their resiand ready without let or hindrance to deposite your ballot on the second Tuesday of October.

The speech of Governor Bigler, at ciety. Montrose, Susquehanna county, will be found on our first page. We ask for it an attentive perusal. The Governor has planted himself firmly on the Democratic platform, and all will be abundantly sustained by the people.-What a different position does his Know-Nothing Whig competitor occupy, and how little does the course of the latter merit the favor of the honest portion of his own party.

THE MARKETS.—The late foreign news has had a tendency to depress somewhat the flour and grain markets in Philadelphia and New York, although holders have, as yet, been enabled to keep up prices nearly at the figure y were last week. The crops in Europe mise to be very abundant. If this should, promise to be very abundant. It this should be so, prices must come down in this country.

The Know-Nothing Conspirators in Fa-vor of Placing the Foreigner upon the Social and Political Level of the Negro.

The creed of the Know-Nothing conspira tors, 'says the Cincinnati Enquirer, may be summed up briefly, as follows: An entire and utter exclusion of foreigners, who are already in this country and naturalized, from holding any position of honor, emolument or influence, thus depriving them of one of their constitutional rights as citizens; and a repeal of the naturulization laws, so that no foreigner who may come to this country in future will be allowed to vote. Carry out these principles; engraft them upon our politicalsystem, for such the Know-Nothing conspirators are endeavoring to do-and all foreigners, Cafor, in many of the free States negroes owning a certain amount of real estate are allow-Nothing principles, would not be permitted to do.

Many of them, while they would elevate the negro Eby, Esq., Manheim. politically and socially with one hand, use the other to strike down the white victim of oppression from the Old World, who has come to this land under the impression that it was the asylum of the oppressed of all nations. In the Know-Nothing Whig organs (for there is hardly a Democratic paper in the United States that is not opposed to the conspirators) no term is too infamous and vile to be applied to those of our citizens who are of foreign birth. They are told that they are a curse to the country-that they are plotters against our republican institutions-that nobody would have cause to complain if they were sent back in the ships that brought themthat they are the dregs and offscourings of Europe—unfit to live in a land of republican freedom. We do not hesitate to say that there is not an atom of American sentiment about that man who will proscribe his neighbor, as the Know-Nothings do, on account of the place of his birth or religious belief. Any pretensions he may make to it is the most tranparent hypocrisy. We have heard, during the last two months, a vast deal of City cliques, and the corruption in both the old parties of of a Judge. He is quite deaf—so much so as the county; and it was reasonable to expect to render it difficult for his friends, in daily that the would-be Reformers would do something and act out their professions in such a way, as to preserve some appearance at least of consistency. But what do we see? Of twenty-one nominees on the ticket-no less than TEN are from the City, and the best offices, viz: 1 Senator, 1 Assemblyman, Sheriff. Prothonotary, Register, Recorder, Clerk of Quarter Sessions, 1 Director of the Poor, Coroner and Judge! whilst the county gets the balance. In other words, the Know-Nothing leaders, in town, have taken the cream, and left nothing but the thinnest and bluest skimmilk for their dupes in the country. How do the latter like it? We shall see by and by. In contrast with the above, it will be seen that on each of the regular Democratic and Whig tickets, the City has but five candidates, whilst the county has sixteen! Which, then, of the three parties is most deserving the charge of corrupt management and city dictation? Facts speak louder than words, and are -"stubborn things."

Inconsistency of Know-Nothing ism. Strange as it may appear, it is neverthe less a fact, that the Know-Nothings, alias Buntline conspirators of this City, whose creed consists in a total proscription and exclusion of all foreigners from every public trust-whwould put the badge of odium upon them, and entirely repeal the naturalization laws-have the unblushing effrontery to ask a portion of them to assist in their own degradation by voting the ticket that has been agreed upon for the office of Assemblyman. WHY ASHAMED OF IT?-If Know Nothingism has sprung into existence from pure motives and instifiable ends, why do men who belong to the order shirk all questions, and deny their connection with it? If it is an order established for high and holy motives, why do those who belong to it deny the fact? If it is not a political and religious crusade against one denomination alone, why make it secret midnight conclave?

An Answer. The following letters from Gen. Gross and Cant. LEONARD. (two of the Democratic nominees for Assembly,) will be a sufficient reply to the charge of Know-Nothingism preferred aginst them in the last Examiner. The letters from the balance of the candidates on the ticket, all of which are satisfactory, will be published next week. The Democratic candidates to a man have nobly and fearlessly promulged their sentiments; and now we should like to see answers from the candidates on the Whig ticket to similar queries. Come, gentlemen, toe the mark, without any quibbling, evasion or dodging.

Ернката, Ѕерт. 11, 1854. H. B. Swarr, Esq.:-In reply to your circular of the 7th inst., requiring of me a writ-ten pledge, as a candidate for the Legislature, nominated by the late Democratic Convention of this county, that I am not directly or indirectly connected with "Know Nothingism." and that I will support the entire "Democratic State Ticket." I would say that I was present in the Convention as a d rata township, at the time the Resolution under authority of which the circular is issued, was adopted. I not only agree with the propriety of it, but as a nominee of the Convention would announce, that I have myself no nnection either directly or indirectly with the secret association termed "Know Nothings:" on the contrary, I have always been a firm and unwavering Democrat.

In reference to the "Democratic State Ticket," I would say that it shall meet with my most cordial support, and, as in former time I shall spare neither time nor labor in endeaoring to secure the election of the candidates chosen by the representatives of the people. Yours truly and respectfully, JACOB L. GROSS.

LANCASTER, Sept. 14, 1854. H. B. Swaar, Esq., Chairman Dem. Co. Committee—Dear Sir:—I received your letter of the 7th inst., in reference to my acceptance of the nomination of the County ution passed by the Convention, requiring every nominee of said Convention to say that is not "directly or indirectly connected with Know Nothingism," and that he will support the State Ticket adopted by the Democratic Convention. I can say to you, my dear sir, that I have no connection either directly or indirectly with the society termed Nothings, and that I will support the Democratic State Ticket. With these opinions, and always cherishing principles such as these, I subscribe myself, yours &c. WILLIAM K. LEONARD.

The State Debt Reduced.

Our readers will no doubt be pleased to near that under the administration of our present able Executive, the State debt has been largely reduced during his present term of office. The Commissioners of the Sinking Fund have made a report of their operations during the last three years, from which we learn that there has been paid and extinguished of the public debt of the Commonwealth, five hunlred and eleven thousand, one hundred and fifty-nine dollars and thirty-one cents, and the certificates of stock representing that sum have been cancelled. In addition to this the sum of two hundred and sixty-four thousand, one hundred and forty-two dollars of relief notes have also been cancelled and destroyed leaving a balance in the hands of the State Treasurer, applicable to the same purpose, of one hundred and twenty-eight thousand, six hundred and forty-eight dollars and eightyfour cents, making in all a reduction of NINE HUNDRED AND THREE THOUSAND, AND FIFTEEN CTS. of public debt, Think duced? By an economical administration of the government, Governor Bigler has been enabled to wipe out of existence this large amount of indebtedness, and does he not deserve the plaudit of 'well done thou good and faithful servant."

Things to be Remembered. During Gen. Washington's administration a law was enacted by Congress, with his approbation, granting the rights of naturalization and citizenship to Foreigners after a residence of two years in the country. This was altered by the Federal administration of the elder Adams, who succeeded Washington, to fourteen years! But when Mr. Jefferson, the great Apostle of Democracy, came into power in 1801, the time of probation was reduced to FIVE YEARS, where it has ever since remained. In his first Message to Congress, Mr

I cannot omit recommending a revisal of the laws on the subject of naturalization .--Considering the ordinary chances of human life, a denial of citizenship under a residence of fourteen years is a denial to a great portion ous liberty, unless those against whom the of those who ask it, and controls a policy purfires of persecution are threatened consent to sued from their first settlement by many of these States, and still believed of consequence to their posterity. some difficulty at Santa Fe, and the result was Aubrey was stabbed, and died immediately. Maj. Weightman was formerly a Delegate in Congress from New Mexico, and was an officer in the Army during the Mexican war. We have not yet received; the full particulars of this fatal-eucontre, and I give it to you as it has been related in this city. In 1818, Mr. Aubrey was known to us as a merchant of great enterprise, connected with the Santa Fe trade, going to and fro with great promptness and success, but it was not until 1818 that he performed the journey between Santa Fe and Independence, which gave to him his fame for perseverance and personal endurance. On the 12th of September of that year, he left Santa Fe with the intention of making a quick trip to the States, and he certainly accomplished it. He made the entire journey, of eight hundred miles, in fire days and fifteen hours! If the traveling time only be counted, the exact time was four days and a haf! During this time he slept two hours only, and ate six meals. He broke down six horses, walked twenty miles on foot, and he had to endure rain for twenty-four hours, and travel nearly six hundred miles of the distance in the mud. By the aid of a steamboat, which he found at Independence landing, he made the whole distance from Santa Fe to St. Louis in a little over ten days—1,200 miles. No one accompanied him over the prairies, and a portion of the land trip was at the rate of one hundred and ninety miles to the soubrequet of the "Skinmer of the Plains," and he has worn it ever since, and the passion seems to have been innate, for we find it announced by the telegraph, that he had undertaken, for a wager, to make the distance have some panied him over the prairies, and a portion of the land trip was at the rate of one hundred and ninety miles to the twenty-four hours. And the passion seems to have been innate, for we find it announced by the telegraph, that he had undertaken, for a wager, to make the distance have seem in him to have performed it, then, taking h

from Santa Fe, he may be said to have tweened from San Francisco to St. Louis in thirty-two days.

Mr. Aubrey was a Canadian by birth—not over, we should judge, forty years of age—and in person not weighing over 145 pounds. He was quick in all his motious—intelligent and sagacious—and his success in overcoming difficulties of every nature, proves how completely he had adapted himself to the life which he loved so well.

A telegraphic despatch was received in this city on yesterday, dated Independence, 9th inst., which says:

On the 18th ult., near Fort Laramie, a light occurred between Lieut. Grattan, in command oftwenty-three soldiers, and eight hundred Sioux Indians. All the soldiers were killed except one, and he was wounded.

After the battle, the Indians went to the American Fur Company's station, and destroyed all the goods which they could not carry off, amounting to ten or fifteen thousand dollars worth.

It is a mistaken idea that 10 or 20 soldiers canold in subjection a band of 800 or 1,000 swage Indians hold in subjection a band of 800 or 1,000 savage Indians.— These Indians are perfectly aware of the number stationed on the Piains, as well as they know their own strength, and they have within the last year or two taken advantage of the few government soldiers placed there to watch their movements. Government should at once send out a strong-er force, or all that are there now may be slaughtered by the ruthless Indians. It will take a strong army to subdue these Indians, if they are not shortly checked and made to suffer for the depredations they are continually committing upon persons and property. They have in their possession ritles and revolvers, and all other implements and weapons of war, and are ready at the "war whoop" for battle or plum-der. The U. Asia, is confirmed, but not the alleged victory of the Russians. It is described as a sanguinary but indecisive action, with a loss of five thousand men on both sides. The conflagra-tion at Varna was the work of Greek incendiaries, who were detected at once and instantiy slain by the British troops. The loss amount to ten millions of francs. The magazines and stores of the allies were saved with great difficulty. In the Dorbrudscha seven thousand French troops out of fourteen thousand there, have died from the cholera. There are also melancholy accounts of the ravages same disease among the allied fleets in the Baltic. The French troops have re-embarked from Bomarsund, and are expected to make a descent on Finland, west of Helsingfors. As regards the expedition to the Crimea there is nothing positive, but it would probably leave Varna on the 20th of August, consisting of seventy thousand men, in six hundred transports. Baraguay D'Hilliers, the French General, is said to have offered the King of Sweden, a subsidy of fourteen millions of francs for the first month, and half as much for the following months, to join the allies. In the Swedish Diet the lower house have proposed a petition to the King, asking that nleasures be adopted to prevent the Alaid Isles from turning to the dominion of Russia.
