Augusta, Ga., September 29, 1852. Steam Planing Mills. Steam Planing Mills. \(\)
Dear Sir: You ask me for my opinion of "Silver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the goof had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncov-ered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and but little blistored. I consider this as severe a test as your Paint can be put to, and under the circumstances. I do not hesitate to mmond it as an invaluable preventive against re. Respectfully, &c. A Presbyterian clergyman in Ohio, writing of "!!unter's Medical Manual?" says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution, without realizing the sin and fearful consequences upon themselves and their posterity. The constitution of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighter and influence the public mind as to check, and ul and inductive the profile influe as to cheek, and di-timately to remove this wide-spread source of hu-man wretchedness, would confer the greatest blcs-sing next to the religion of Jesus Christ, on the present and coming generations.
