The Paint differs from the so-called Mineral Paints of the day, which are principally Ochres and Clays colored, and are entirely worthless.

Silver's Plastic Paints are purely Metalic, containing no Alumin or Clay.

They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding.) and flow under the brush as freely as the best White Lead.

These Paints excel all others in body or covering properties, one pound of which will cover and the properties of the pound of which will cover and the properties of the pound of which will cover and the properties of th

Dear Sir: You ask me for my opinion of "Silver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it

as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roots had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovered was entitly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and but little blistered. I consider this as severe a test as your Paint can be put to. and under the circumstances I do not commend it as an invaluable preventive against Fire. Respectfully, &c.

ace the greatest confidence. Jos. S. Longshore, M. D. From A. Woodward, M. D., of Penn. Univers , Philadelphi .—It gives me pleasure to add m the "Medical Manual." Numerous cases of dis asse of the Gental Organs, some of them of long tanding, have came under my notice, in which a skill has been manifest in restoring to perfec ealth, in cases where the patient has been consid red beyond medical aid. In the treatment of Sem inal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession. I bave een acquainted with the Author some thirty year been acquainted with the Authorsome intry years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves. ALFRED WOODWARD, M. D. L. This is without exception, the most compressive the same and the compressive that the same and t ring is without exception, the most comple-bensive and intelligent work published on the class of diseases of which it treats. Avoiding all tech-nical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however flastidious, can object to placing it into the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff, and too little presumption to imose, he has offered to the world, at the merely nal price of 25 cents, the fruit of some twenty years' most successful practice.''—Herald.

Dr. Merse's Invigorating Cordial.—A Phenomenon in Medicine: Health restored and Life lengthened, by Dr. Morse's Invigorating Eliser or Cordial. For centuries Medical science has been ransacking the vegetable and mineral kingdoms, in search for something that should restore the lost or decaying energies of the nervous and muscular systems, without the draw-back of subsequent prostration, which sall stimu-lants, tonics, and narcotics had heretofore entitled. That something has been found. It is a vegetable production, brought from the sterile deserts of Arabia the stony, by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished as a physician, a chem, ist, and a traveller. The juices of this herb, con-centrated and combined with other vegetable me-dicinal extracts, are now producing results hereto; fore unheard of, in this, or any other country. At first the properties attributed to Prof. Norse's In-vigorating Elixer or Cordial were deemed fabu-lous. The public often deceived could not believe the simple and sub-lime truths announced by the discoverer. But facts, undeniable facts attested nervous and muscular systems, withou discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown, by a mass of testimony which is per-

evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of leeble prodaction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of the natural appetites as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, chervated youth, the overworn man of business; the victim of nervous debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable rennent relief from the use of this incomparable ren-ovator. To those who have a predisposition to paralysis it will prove a complete and untailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their con-stitutions, that they think themselves beyond the reach of medicine. Let not even these despair The Elizer deals with disease as it exists, without reference to cases, and will not only remove the disorder itself, but rebuild the broken constitution The derangements of the system, leading to nei-vous diseases, and the forms of nervous diseases itself are so numerous that it would require a col-umn to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic dolercaux, needache, incepient paralysis, hystoria; palpitation of the heart, spinal affections, muscular debility, tremors flatulence, a pricking sensation is the flesh numbness, torpidity of the liver, mental, depression, weakness of the will, indisposition to nove, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking of the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out indulgence of the pasiions and all bagrenness that does not proceed from organic causes beyond the each of medicine. Whenever the organs to be acted upon are free rom malformation or strictural diseases, it is aver-

red that Morse's invigorating Elixir will replace weakness with strength, ideapacity with efficiency, irregularity with uniform and natural activity, and his not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physical death. Bear in mind also, that for every kind o nervous disease the Elixer Cordial is the only reliable preparation known. CURE OF NERVOUS DISEASES.—No lan guage convey an adequate idea of the immediate and almost miraculous charge which it occasions in the diseased, debilitated and shattered nervous stem, whether broken down by excess, weak by nature, or impaired by sickness, the instrung and relaxed organization is at once braced, re-vivified and built up. The mental and physical symptoms of nervous disease vanish altogether under its in-fluence. Nor is the effect temporary; on the contray, the relief is permanent, for the cordial proper-ies of the medicine reach the constitution itself, and restore to its nominal condition! Well may he preparation be called the medicibal wonder of he nineteenth century. It is, as the first scientific man in the world would have admitted, that mira-

le of medicine heretofore supposed fo have no ex A STIMULANT THAT ENTAILS NO RE-ACTION .- Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them, "that the last state of that man is worse than the first. But the Elixer is an exhilerant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depression, excitement, a tendency to blush, sleeplessness dislike of society, incapacity for study or business LOSS OF MEMORY, confusion, ciddiness, rust of blood to the head, m. lancholy, mental debility, hysteria, wretchedness, thoughts of selfdestruction fear of insanity, hypochondrissis, dyspepsia, general prostration, irritability, nervousness, inability o sleep, diseases incident to females, decay of the propogating functions, hysteria, monomania, vague cerrors, palpitation of the heart, impotency, con-stipation, otc., etc., from whatever feause arising tis, if there is any reliance to be placed on hu-

man testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.—The unparallelled effects of this grent restorative, in all complaints incident to Remajes, mark a new era in the annals of medicine. Thousednes of stimu lants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her liable.—
The result has heretofore been uniform. These nostrums have indeed imparted a momentary vinogrums have indeed imparted a momentary vivacity to the hervous system, a transient and delusive vigor to the muscles; but this fish of relief has been succeeded by a depression and prostration greater than helpre, and the end has too often been utterly to paraly a the recuperative power of the nerves, and the vital organization, and finally to destroy the unhappy patient. Every woman of sense, who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex, or common in both sexes—to give the Invigorating common in both sexes-to give the Invigorating

Cordial a trial.

MARRIED PERSONS, or others, will find this MARRIED PERSONS, or others, will find this Cordial after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so, but for this textraordinary preparation. And it is equally poent for the many disease for whigh it is recommended. Thousands of young men have been restored by using it, and mot in a single instance has it failed to benefit them. t failed to benefit them.

PERSONS OF PALE COMPLEXION, or consumptive habits are restored by the use of a bottle or two bloom and vigor, changing the skin from a pale, yellow sickly color, to a beautiful fiorid com-

dexion low.
TO THE MISGUIDED.-These are some of the sad and melancholy effects produced by early hab-its of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscu-lar power, palpitation of the heart, dyspepsia, ner-vous irritability, derangement of the digestive funcions, general debility, symptoms of consumption,

Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil tyrebodings, aversion to society, self-distrust, love of solitude, timidity, &c. are some of the evils produced.
