Philadelphia, May 3, 1852.

J. S. Silver, Esq.
Dear Sir: We have used your "Plastic Paints" or more than a year, and for Painting Bridges, Depots, &c., &c., we have found it quite equal to any paint we have used. In lact, we now give it a preference over all others we have tried for such purposes.

Augusta, Ga., September 29, 1852. Steam Planing Mills. Dear Sir: You ask me for my opinion of "Silver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which
you put on my roofs, has now become as hard as
slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs
had been painted, I made an experiment on two or
three shingles by placing them in the furnace under
the boilers; the result was, that the portion uncovered was entirly consumed, while the painted part
was apparently sound, though upon examination
the wood was found to be charred; the Paint however was firm and but little blistered. I consider as a preventive of Fire communicating from Chim ever was firm and but little blistered. I conside this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire.

Respectfully, &c.

Testimony of the Professor of Obstetrics in Penn College, Philadelphia.—Dr. Hunter's Medical Manual.—The author of this work, unlike the majority of those who advertise to cure the disease of which it tests in a graduate of one of the best College. treats is a graduate of one of the best Colleges the United Stetes. It affords me pleasure to remmend him to the unfortunate, or to the victin commend nim to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

Jos. S. Longshore, M. D. From A. Woodward, M. D., of Penn. Universi-

y, Philadelphia.—It gives me pleasure to add my estimony to the professional ability of the Author of the "Medical Manual." Numerous cases of disease of the Gental Organs, some of them of long standing, have came under my notice, in which his skill has been manifest in restoring to perfect health, in cases where the patient has been consid-ered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the function produced by self-abuse, or excess or venery, 1 d not know his superior in the profession. I have been acquainted with the Authorsome thirty years and deem it no more than justice to him as well a kindness to the unfortunate victim of early indisrction, to recommend him as one in whose pro ressional skill and integrity they may safely confide themselves.

"This is without exception, the most comprehensive and intelligent work published on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all object:onable matter, and no parent, however fistingues, can object to placing it into the hands of his sons: The author has devoted many years to the treatment of the

various complaints treated of, and, with too little breath to puff, and too little presumption to im-pose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years? most successful practice."—Herald. "No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."——People's Advo-A Presbyterian clergyman in Ohio, writing of 'Hunter's Medical Manual'' says:—''Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution, without realizing the sin

and fearful consequences upon themselves and their posterity. The constitution of thousands who are raising families have been enfeebled, if not bro ken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ulmately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxicating drinks) though it has slain thousands, is not a greater scourge to the human race. Dr. Morse's Invigorating Cordial.—A Phenomenon in Medicine. Health restored and Life lengthened, by Dr. Morse's Introducing Elizer of Cordial. For centuries Medical science has been ransacking the vegetable and mineral kingdoms, in search lok something that should restore the lost-or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration which all simple or the property propert back of subsequent prostration, which all stimulants, tonics; and narcotics had heretofore entailed. That something has been found. It is a vegetable production, brought from the sterile deserts of Arabia the stony, by the celebrated Professor M. orse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished as a physician, a chem, ist, and a traveller. The juices of this herb, con-centrated and combined with other vegetable me centrated and combined with other vegetable medicinal extracts, are now producing results hereto fore unheard of, in this, or any other country. At first the properties attributed to Prof. Morse's Invigorating Elizer or Cordial were deemee fabulous. The public often deceived could not believe the simple and sublime truths denounced by the discoverer. But facis, undeniable facts attested by with feets of the highest class and characters. by witnesses of the highest class and character, are now friumphing over all doubts. Incredulity is overthrown, by a mass of testimeny which is perctly irresistible.

The Elixer remedies, in all cases, the deplorable

evils arising from a misuse or abuse of the variou organs which make up the wonderful machine cal led man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of looble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that mergy which is necessary to the proper enjoyment of the natural appetities as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the siling wife, the listless, enervated youth; the overworn man of business, the victim of nervous debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renmuscular frame, or deficient in vital power, it is nent relief from the use of this incomparable renparalysis it will prove a complete and untailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair The Elixer deals with disease as it exists. The derangements of the system, leading to neryous diseases, and the forms of nervous disease rous diseases, and the forms of nervous disease itself are so numerous that it would require a column to enumerate the maladies for which this nm to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: nenralgia, tic dolereaux, neadache, incipient paralysis, hystoria, palpitatio neadacne, incipient paralysis, hystoria, palpitation of the heart, spinal; affections, inuscular debility, tremors flatulence, a pricking sensation in the flesh numbness, torpidity of the liver, mental depression, weakness; of the will, indisposition to move, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking of the stomach, female irregu larities, a chronic tendency to miscarriage, ema-ciation, and all complaints growing out of a free indulgence of the pasiions and all barreiness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free

from malformation or strictural diseases, it is averred that Morse's invigorating Elixir will replace weakness with strength, incapacity with efficiency, irregulally with uniform and natural nativity, and this now only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nervous of motion and sensation is physic death. Bear in mind also, that for every kind pervous disease the Elizer Cordial is the only relide reparation known.

A GREAT MEDICINE FOR FEMALES.—The unparallelled effects of this great restorative, in all complaints incident to Females, mark a new era in the annals of medicine. Thousands of stimu lants have been tivented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her liable -The result has heretofore been uniform. These nostrums have indeed imparted a momentary vi-vacity to the nervous system a transient and delu-sive vigor to the muscles; but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the recuperative power of the nerves, and the vital organization, and finally to destroy the unhappy patient. Every woman of sense, who suffers from weakness; derangement,

nervouseess, tremores, pains in the back, or any other disorder, whether peculiar to her sex, or common in both sexes—to give the Invigorating ordial a trial.

MARRIED PERSONS, or others, will find this Cordial after they have used a bottle or two, a thorough regenerator of the system. In all direc-tions are to be found the happy parents of healthy offspring, who would not have been so, but for this nextraordinary preparation. And it is equally po-eat for the many disease for which it is recomeat for the many disease for which it is equally po-eat for the many disease for which it is recom-mended. Thousands of young men have been re-stored by using it, and not in a single instance has railed to benefit them.

PERSONS OF PALE COMPLEXION, or con-
