Dear Sir: You ask me for my opinion of "Sil-ver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with Machine Shop and Planing Mill. I give you will pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chim-neys, or from adjoining buildings. The Paint which you put on my rook, has now become as hard as slate, and I feel as secure from Fire, in this direc-

tion, as is possible. A few weeks after the roots had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovared was entirly consumed, while the painted par

was apparently sound, though upon examination the wood was found to be charred; the Paint how-ever was firm and but little blistered. I consider this as severe a test as your Paint can be put t and under the circumstances I do not hesitate to commend it as an invaluable preventive against Respectfully, &c. Fire.
