Lancaster, October 24, 1854. The Democracy of Landaster County. The 4700 good and honest men of the Dem ocratic party in this County who were true to their time-honored principles' on 'Tuesday week, deserve all praise. While the Democracy of almost every other county in the State the party, notwithstanding the fearful odds against them, stood firm in the cause, and merit the praise of all their brethren throughof Democrats now form a nucleus around which will gather hundreds of good and pure men heretofore acting with the Whig party, who will. doubtless, hereafter be found acting with us, now that our ranks are purged of the traitors who have been fomenting strife and discord in the party for the last seven or eight vears.

In the recent contest in this county we had friends of Gen. Cass. These men, like true ticularly to Col. REAH FRAZER and JACOB and honest Democrats, would not sacrifice B. AMWAKE, Esq. As for those, heretofore *professing* the Dem-ocratic faith, who knowingly and deliberately deserted their time-honored flag and went over to the enemy, we say-"they are joined to their idols, let them alone." The party is well rid of such treacherous politicians-henceforth they will be found acting with Know-Nothing Woolly-Head Whiggery, and we give that faction of the opposition much joy of their new allies and friends.

At the Polls on Tuesday week, Col. FRAZER, it is said, boasted that he had given Governor BigLER a black eye. And that there might be no mistake in his position, he made a speech at the Whig and Know Nothing Head Quarters, (not the speech, however, which is published in his organ last week,) after the vote for Governor and Congressman had been ascertained, congratulating the Abolitionists and Know-Nothings who were present (for the Silver Grey Whigs, disgusted with the defeat of Mr. Hiester, had left.) on the result, and claimed it as a triumph of the people over all parties and isms, the Democratic party included. When we heard of this speech we con

trasted it mentally with the many he has made in by-gone years, and mourned over his shame less apostacy. If he must become a Whig, why did he not

join the Silver Grey portion of that party ?--Their principles are more congenial with those for which he had previously contended, and, if he is to be believed, voted nearly all his life. Why did he associate with THADDEUS STEVENS, an avowed Abolitionist? Had he any private reasons for securing for the Abolition candidate for the Presidency, the vote of the Lancaster County member, in the event of the election being thrown into the House of Representatives, which is highly probable ?--

Whether Mr. Stevens has convinced him that

And we desire here to direct the attention of the reader to the large proportion which that element has ontributed to his success, and also to the relative condition of the old Democratic and Whig parties proper. THE FAIR AT COLUMBIA. We paid a hasty visit to the Fair ground at Columbia yesterday, and were much gratified at the exhibition. There were several thousand persons on the ground, and the articles exhibited were highly creditable to old Lancaster county. The Cattle and Horses were very fine, although not very numerous. Those for draught, for the road, and for carriages, in our opinion far exceed those on exhibition at the State Fair at Philadelphin.

The wheat, corn and vegetables were finer; also the specimens of fancy needlowork, and embroidery. The mechanical tools, machinery and implements were equal to any that we have ever seen. And there were also specimens of a great variety of cereal crops, which we think are not surpassed by any part of the country. The whole was arranged in good tasto and order, and presented a flattering proof of what is done and can be done on the soil of the garden county of the Union. There were a number of kinds of corn, wheat, &c., which we had never seen before. The apples, pears, &c., were of great variety, and the finest, by far, that we have seen this sea-son. As this first exhibition, which has been attended with unpromising circumstances, has turned out so well, we think that hereafter they will prove the most useful and attractive of any in our State.—Inland Daily of Friday

At about 111 o'clock last evening, a large arty of musicians and citizens assembled in front of the Merchant's Hotel for the purpose of serenading Gov. BIGLER, and discoursed most excellent music. but the former took especial care to have a Woolly Head settled for the Amalgamation ticket, and the alacrity and fidelity with which Col. FRAZER and Mr. JACOB B. AMWAKE, with several of their devoted friends in the town and county, labored for Mr. ROBERTS' success, would naturally lead one to suspect that they look forward to some personal benefit for themselves. Men as prominent as they were, do not abandon their party and join the Abolitionists for nothing. No one would pre'end to say it was from principle, unless they have been fighting under a mask all their lives .-What, then, was it for? Will their organ be kind enough to inform the public. More than three years ago these same gentlemen were mainly instrumental in the defeat of the regularly settled candidate for Mayor, Major FREDERICK HAMBRIGHT. The exact share they had in that transaction, they never boasted of, as prudence seemed to require concealment on their part. But custom has at last made them bold, and having several times opposed the Democracy in secret, they have now summoned up their courage to the stick. ing point, and openly glory in their own apos tacy from the Democratic party.

On the night of the election the Demo cratic Head Quarters were at SHOBER'S Hotel. in North Queen Street, of which public notice was, given a week before-hand. The Whig papers announced their Head Quarters at URBAN & KREIDER'S Høtel, in West King street. No Democryt, certainly, would have selected the latter place to make a speech upon such an occasion-nor no Whig the former place. We leave our readers to judge of such conduct.

In another column will be found, em braced in a communication, the real sentiments expressed by Col. FRAZER at the Whig Head Quarters, on the night of the election taken down at the time by an eye and ear witness, and which can be vouched for, as correct, by dozens then and there present. It will be seen that it differs very materially from the one since prepared and published in a City paper, to get the speaker out of the dilemma in which he has voluntarily placed himself. We give the Col. joy of his new political associations.

Amidst the treachery by which we were surrounded, there were, nevertheless, several green spots in the County where our Democratic friends covered themselves all over with glory-such as Cærnarion, Salisbury, Manheim Borough and Townshiy, Warwick, Earl, East Earl, West Cocalico, Manor, Conestoga, Fulton, Elizabethtown, Mount Joy Borough and Township, East Hempfield, West Lampeter, Conoy, East and West Donegal, Penn, &c., &c. By their conduct, in running against and helping to defeat the Democratic ticket, (which no one doubts would have been elected by a handsome majority if every professed Democrat in the county had voted for it,) they have com pletely severed their connexion with the Democracy; and, inasmuch as they were deepated themselves, it is not to be presumed that in the future movements of their Woolly Head and Know-Nothing coadjutors, they will be again thought of for a nomination of any kind. Their inglorious defeat effectually shelves them and they must stand back for new and untried

men. This is rather poor consolation for their treachery to the Democratic party.

The course pursued by the leaders o the Temperance party, in Philadelphia and elsewhere nearer home, did more to defeat Prohibition at the polls than all other causes combined. Their open hostility to Governor BIGLER and the Democratic candidates generlly, drove hundreds, aye thousands of voters into the ranks of the opposition, who othervise would have been for a Prohibitory Law.

The elections in Ohio and Indiana nave resulted yet more disastrously to the Democratic party than here in Pennsylvania. Nearly the entire delegation to the next Congress, from both of those States, will be opposed to the National Administration.

So far as regards our own party, its course s a plain one. It has always been in this country the guardian spirit of civil and religious liberty, and of the Constitution and the Union, and it will not prove recreant to its duty now. We never felt more proud of our organization, more thoroughly convinced of the justice of our cause and the greatness of its mission than we do now, and there is in the American heart too much true patriotism and too much good sense to fail to recognize, as soon as the "sober second thought" comes fairly into action, the justice of Democratic principles, and how vastly preferable Demo cratic ascendancy is to that of the tyrannica rule of mongrel isms .-- Pennsylvanian

**Prohibition** 

The result of the vote on prohibition shows says the Pittsburgh Union, that the people have decided against a prohibitory liquor law This is doubtless contrary to the expectations of many persons; and as the Know-Nothings claim the credit of every victory, we presume they will attribute the defeat of the Maine Law to their private exertions. With Lan caster and Berks both arrayed against the measure, it will hardly do to say, that either DARSIE and Judge SWYSER, either of whom of the parties in the field espoused the cause same time, the indications are, that the Dem ocratic districts have not generally been so favorable as Whig districts to the proposed HIESTER, Mr. BROOMHALL, prominent Whig change in legislation. One reason of this may be, that the moment the Maine Law was first spoken of, the Whig party took it under its peculiar protection, and endeavored to make as much capital as possible out of fits agitation In the County Conventions in this region, at tachment to the provisions of that law was re-quired as a test of faith; and all old soakers While I shall carefully study who obtained Whig nominations, were sup losed to be sent to Harrisburg with a double ourpose of illustrating practically the evils of ntemperance, and enforcing in theory the claims of a legislative remedy.

To such an extent was this question sought to effect the result of the State elections, that Gov. Bigler's letter was pronounced unsatisfactory by temperance men, because he would not promise to sanction any kind of a law that the House and Senate might see fit to pass. The men who decided this were, we believe, mostly Whigs, who had decided between the candidates for Governor before they wrote heir letters. But the attempt to make capit al against the Democratic candidate by mean f an appeal to temperance men as such, was felt by the Democratic party to be an act of political trickery, which aimed to sacrifice hese candidates without any just cause. We think that the temperance men have themselve blame for the defeat of theirfavorite measure There was nooccasion for their unceasing efforts o form aseparate political organization. There was no necessity for them to accept the kind overtures of the Whigs to take them under their

protection. They did not need to make way n the Democratic party under the influend of Whig dictation. They should have remen bered that a measure such as they propose to carry, was only to succeed by the united support of men of all parties' and that the sements of Whigs, who had been trop bled with mania potu, as sound temperance men, to the exclusion of Democrats who had been known as temperate men all their lives. was not the policy to convince the latter the sincerity of the temperance leaders. They ave chosen their own course, however, and ve see the result.
