Unh-St. Lours, Oct. 16, 1854.
Our local news of the past week is more than uninteresting. The Local Reporters of the different dailies are complaining of duil times in their line of business, and as a necessary consequence are obliged to manufacture items for the diffection of their readers. Elopements, suicides, fare-ups and other startling occurrences are 'manufactured to order," merely for the purpose of 'filling up,' and to order, "merely for the purpose of 'filling up,' and to make a respectable appearance, which you know is the fashion of the age in which we live!
We have soveral arrivals from New Mexico. Col. Philip-St. George Cook, of the U. S. A. arrived a title about the middle of September. The officers attached to four compapanies, recouly ordered to the States, arrived at the same time and are more that I deep regret that I announce the suddan death of Wm. S. Mr. C. and another gentleman were on a hunting excur-sion, and were both seated in a buggy with their guns loaded—the horse took fright and rau off. In his course, he came in-contact with a wagon, and in the general crash one of the guns were discharged, the contents enter-toring the side of Mr. Chouteau. He lingered for several days in the most excruciating pain, and died on the day above stated.

Mr. W. was well and favorably Known throughout the west, and his unitinely death has shocked the community. The steemen rashel, a St. Louis and New Orleans is at, whilst on her way from the latter city, and within sight of St. Louis, struck the remains of an old wreck, and sunk below her cabin floor. She had on board 300 tons of as-sorted merchandiza and 1,600 sacks of Salt. She was in-sured for \$16,000 in the Globe and Lumhermen's insurance offices. On board the boat were two decad bodies, which were being brough here for burial. One was that of Mrs. Joshua J. Childs, who also died of yellow fever, the latter was taken on shore and burded, but Mrs. Childs was in the hold of the boat a dis still there. There were about 30 passon-gers on the boat at the time of her sinking, all of whom were sent on shore in safety. As far as ascertained no lives have been lost.

have been lost. The yellow feyr in New Orleans is on the decrease. The mortuary returns of that city for the week ending the 1st inst, shows that there were 423 deaths during the week of which number 269 were from yellow feyer. The Latest Foreign News. Later from Europe—Sebastopol not Taken! The steamship Africa has arrived at New York, from Liverpool, with later European news. Sebastopol has not been taken, and the announcement, with all its details, turns

out to be a hoax, which has deceived not mere ly the public, but the governments of France and England. The battle of Alma and the oct 24 1t.40 route of the Russians there is true, but all lse is false, including the destruction of the Russian fleet, the blowing up of Fort Con-Pacha's alleged despatch. The forged news was so ingeniously made up as to have deceived everybody Fighting continued uninterrup-ted, and Sebastopol was, at the last dates, formally invested. On the 27th the allied forces were on the river Baalbee, ten miles from Sebastopol. On the 28th they established

their basis of operations at Balaklava, and prepared to march upon thecity. The allied fleet vere in port at Balaklava, and were in communication with the land forces. The latest despatch says that the allies command the approaches to Sebastopol, which may be considered as invested, and that a doubtful rumor prevailed that the second line of defence had been carried. The fortifications of Anapa have been burned by the Russians, and the garrison was marching to the scene of action. Austria intimates that she will consider the Czar's prolonged refusal of the four conditions as a casus belli.

From Mexico we have some odd news

ball having been gotten up at the Capital to celebrate one of the national fete days, the government officers and diplomatic officers were expected to attend. The latter, hawever refused to wear their diplomatic dress, as it was a private ball, whereupon Santa Anna and his officers refused to attend, and the ball was postponed just before it w as to com-mence. Santa Anna having ordered ar illumination of all the houses in the eity, under severe penaltics, the U.S. Ambassador refused to illuminate his house or hoist his flag, and sent a circular to all the American residents, notifying them that the decree had no authority over them. Next day he sent a letto authority over them. Next day he sent a let-ter to the government on the subject, and there was much ill feeling. At the ball above men-tioned it was supposed that Santa Anna was to be proclaimed Emperor, and one regiment

CROPS IN THE WEST .- We learn from an elaborate article in the Cincinnatti Gazette, that the principal products in the Middle and

Western States are, corn, wheat, oats, tobacco, hogs, cattle, sheep and wool. Of these, there is an increase in oats, hogs, sheep and wool; wheat is an average crop, and cattle fully as numerous as last year. Tobac-

co is probably short and corn is certain-· ly deficient from one half to one-fourth. Now of all the staple products named, corn and tobacco are the only ones short. Rotatoes are

also short, but on the other side there is an un usually abundant crop of hay. Taking Missouri, Illinois, Indiana, Ohio Michigan, Wisconsin, Iowa, Kentucky, and nding

Corn, it is seen, is the largest crop, and therefore it is the most important, so far as regards domestic consumption: but for foreign export, wheat is the most valuable. Since the census of 1850, from which the above figures were taken, was compiled, there have been our crops of corn including that now standing, and each of these, with the exception of the latter, increased over that which preceded, and it is well known that the crop of 1853 was in the aggregate the largest gathered. Of large surplus still on hand-say this there is ten per cent of the whole. Add to this the product of the increased breadth of the land planted, say ten per cent, and we have twenty offset an estimated deficiency per cent to say thirty-three per cent, leaving an actual deficiency of only about thirteen per cent in

supplies for the ensuing year.
