Silver's Plastic Paints are purely Metalic, containing no Alumin or Clay.

They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding.) and flow under the brush as freely as the best White Lead. These Paints excel all others in body or covering properties, one pound of which will cover as much surface, as two pounds of White Lead nuch surface, as two pounds of White Lead.

There are four natural colors, viz: Black o

The juices of this herb, confective that the second combined with other vegetable net dicinal extracts, are now producing results hereto for unheard of, in this, or any other country. At first the properties attributed to Prof. Morse's Invigorating Elizer of Cordial were desemed fabulous. The public often deceived could not believe the simple and sublime trulys appropries the the the simple and subline traths announced by the discoverer. The Elixer remedies, in all cases, the deplorable evils arising from a misuse or abluse of the variou organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that onergy which is necessary to the proper enjoyment of the natural appetites as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The fee-ble girl, the ailing wife, the listless, enervated youth, the overworm man of business, the victim of nervous debilty, or from the weakness of a single organ, will all find immediate and perma angle organ, with all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unsailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions. stitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elizer deals with disease as it exists, without reference to cases, and will not only remove the disorder itself, but rebuild the broken constitution.

Bear in mind that all myladius wherever these hards. nd that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physical death. Bear in mind also, that for every kind on nervous disease the Elixer Cordial is the only relible preparation known.

The effect of these is brief, and it may well be said of him who takes them, 'e that the last state of that man is worse than the lirst.' But the Elixer is an exhiberant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the tire organization; it will also temove deni excitement, a tendency to blush, sleeplessness, dislike of society, incapacity for study or business, LOSS OF MEMORY, contustin, giddiness, rush hysteria, wretchedness, thoughts of self destruction fear of insanity, hypochondriasis, dyspepsia, gen-eral prostration, irritability, nervousness, inability o sleep, diseases incident to females, decay of the propogating functions, hysteria, imonomania, vague errors, palpitation of the heart, impotency, con-tipation, etc., etc., from whatever cause arising
