Chicago Grain Market. Great Depression in Prices-Few or no Buy-

ers, and Little or no Storage Room. Chicago is greatly overburthened just now with wheat and corn. Read the following from the Democratic Press of the 15th inst.: In the Grain Market we have experienced a week of steady decline. Receipts by the

a week of steady decline. Receipts by the canal have increased owing to the arrival of of Dr. John M. and Matilda Dunlap, aged 7 years, 6 months and 25 days. heretofore detained by low water. On the other hand, receipts by railroad have largely diminished, so that the aggregate is much less than that of last week; and yet, owing to the stagnation in business and falling off in shipments, the week closes with a large amount of grain on the market, coupled with a very ungrain on the market, coupled with a very un-usual and unfortunate scarcety of buyers. The warehouses are full, and numbers of boats are unable to discharge their cargoes for want of storage. This latter in a condition which may look for relief, to a great extent, from transfer to Lake vessels as fast as their up may look for relief, to a great extent, from transfer to Lake vessels as fast as their up cargoes are discharged. It is much to be regretted that the grain now coming forward so freely, from the Illinois river, could not have reached market earlier in the season. In this case, the fault is probably more with the transporters, or the physical inabilities with the transporters, or the physical inabilities with the transporters and the past transporters are the properties. The probably more with the transporters are the physical inabilities with the transporters and the past transporters are the physical inabilities with the transporters. which they have had to contend, than with the producers, though the latter are, as a class, not altogether free from the imputation of contributing to their own loss, by an unwise detention of their own property through a favorable season, to rush it at last upon a falling market. Although it may be nevertheless true, that our railroad and other facilities havefailed to be equal to the task required of them, it is by no means yet certain that, with the rapid development of the country, the production of another season may not be equally in advance of their available capacity.

In the Wheat markat the week closes extremely dull, with a scarcity of buyers and downward look in prices. Winter is in comparatively light supply, and the market is sustained by demand for city and Michigan milling. Spring is decidedly lower, and upon completion of the final cargoes soon to go on board, a further depression is anticipated. The decline for the week in Winter and Spring may be stated at from ten to fifteen cents per bushel. Receipts of Wheat for the week are by Canal, 27,842 bushels, and by Galena of the state of the contents of the accountry of the accountry of the property and the lykens vally canal and it is well would be contented to the contents of which they have had to contend, than with the producers, though the latter are, as a class. bushel. Receipts of Wheat for the week are by Canal, 27,842 bushels, and by Galena Railroad 93,058 bushels, a considerable increase by the former route, a more than corresponding decrease by the latter, and a total falling off of 16,000 bushels. Shipments

Lake are 50,425 bushels, against 72,953 for the week before.

Corn, as we last week anticipated, has further yielded to the pressure, and the 'decline for the week is even greater than for the last. The market closes almost stagnant, the highest offers at which buyers can be found failing to command any movement. In the absence of sufficient sales to establish rates we can only quote at a nominnal decline of five to seven cents per bushel for the week. Receipts ther yielded to the pressure, and the decline seven cents per bushel for the week. Receipts are 169,382 bushels by Canal, against 86,636 last week, and by Galena Railroad 32,865 bushels, against 49,888, showing in all a total gain of nearly 66,000 bushels. Shipments by gain of nearly 66,000 bushels. Shipments by Lake reach only 112,000 bushels, againsts

152,642 for last week.

Receipts of Oats have increased by nearly 70,000 bushels, while the price has fallen off fully five cents. The market closes dull with more sellers than buyers, and no storageroom at that. The footings for the week, given by Canal 105,942, and by Galena R. R., 42,275 bushels, compared with 53,000 and 25,346 bushels, for the last. Shipments by Lake, 22,260 against 75,236 for lust week. In Rye and Barley we have also to note : large decline, the former closing quite unsettled and nominal. Receipts are light and not far from those of the week previous, and for

**3. Dr. Cheeseman's Pills for Females.—The combinations of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and extensive practice; they are mild in their operation, and extensive practice; they are mild in their operation, and extensive proper channel. In every instance have the Pills proved successful. The Pills invariably open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pains in the side, palpitations of the heart, loathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the pills will invariably remedy all those evils.

N. B.—These Pills should nover be taken during pregnancy, as they would be sure to cause a miscarriage.

They are put up in square flat boxes, and will be sent by mail to any address by remitting to Dr. C. L. Cheesenman, No. 21 Blocker street, New York. Price One Dollar per box.

Thy lovely boy to realms on high,

To dwell in an eternal day.

Oh! would ye wish him back on earth, To linger on this dreary shore? No, no! he's gained a heavenly birth— He lives! he lives! to die no more!

Hark, hark! methinks I hear him cry,
"Father and mother, weep no more,
I am safely moored beyond the sky,
Where dangers can disturb no more."

At nati-past 3 o'clock, accompanied with Mr. Aritta, of Havana, Mons. Decan, Issae H. Benedict and one of the animals belonging to the Hippodrome, fastened in the car of a parachute, he cut the cords as under which bound him to earth, and taking his seat on a tarpezium—a wooden pole suspended at each end from the car with ropes, twenty feet long-bounded up at a rapid vate, amid the huzzas of the multitude. When about an eighth of a mile up he cut the parachute loose from the balloon, and it descended safely to the earth, with its freight unhunt.

Mr. Godard then commenced the peformance of his gymnastic feats in the air. At one time he whirled over and over the pole of the trapezium; at another time grasping it with single hand he swung his body to and fro as school boy would on a swing. Then again, he appeared to it with his chin only; then standing upon it—both hands hold of the ropes—then on one leg, then without any grasp of the lines, and finally, as the balloon ascended nearly out of sight, the daring voyage stooped, rolled over upon the trapezium, and in mid-beavens hungs suspended from it, head downwards, with a single foot locked over the pole?

There perhaps could not be a greater exhibition of daring than this. Many persons who watched the feats trembled in their shoes as they saw him pass through his serial evolutions. He, however, restored them to their natural equilibrium of composure on ascending by he ropes of the trapezium, add and the feats trembled in their shoes as they saw him pass through his serial evolutions. WILBOR'S COMPOUND OF PURE COD LIVER

A cure for Consumption, Coughs, Colds, Asthma, Bronchitts, General Bebility, and all Scrofulous Humors. This compound has been used with the most complete success by our most celebrated physicians, for the removal and permanent curo of the above disease. Hundreds for whom there was no hope before the diseosery of this simple, yet effectual remedy, have been raised to health and happiness by its timely use. The following case of J. Williams is sufficient to convince all of its wonderful effects. He says: I had been sick with confirmed consumption for several mouths. I had used the clear Cod Liver Oil most of the time, but had derived but little benefit from it. I had an attack of bleeding at the lungs, which alarmed my friends very much, as they now supposed there was no hope for me. About this time I heard of your Compound of Cod Liver Oil and Line. I immediately commenced using it, and soon began to percive its beneficial effects. In two months my cough had entirely left me, and I am now enjoying perfect health.

Truly yours.
