The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shipgles by placing them in the furnace under the builers; the result was, that the portion uncovered was entirly consumed, while the mainted part of the builers; the result was, that the portion uncovered was entirly consumed, while the mainted part of the builers; the result was, that the portion uncovered was entirly consumed, while the mainted part of the builers. ered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and but little blistered. It affords me pleasure to reof malpractice, as a successful and experienced practitioner, in whose honor and integrity they may lace the greatest confidence. Jos. S. Longshore, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add my estimony to the professional ability of the Author if the "Medical Manual." Numerous cases of disease of the Gental Organs, some of them of long standing, have came under my notice, in which his skill has been manifest in restoring to perfect health, in cases where the patient has been considred beyond medical aid. In the treatment of Semwal weakness, or disarrangement of the functions or duced by self-abuse, or excess of venery, I do not know his superior in the profession. I have seen acquainted with the Author some thirty years, d deem it no more than justice to him as well as cindness to the unfortunate victim of early indis-cretion, to recommend him as one in whose proessional skill and integrity they may safely confichemselves.

ALFRED WOODW BD, M. D. hemselves. Alfred Woodward, M. D.

This is without exception, the most comprehensive and intelligent work published on the class-of diseases of which it treats. Avoiding all tech-nical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to

habit of self-pollution, without realizing the sin and fearful consequences upon themselves and their posterity. The constitution of thousands who are raising families have been enfeebled, if not bro present and coming generations. Intemperance (or the use of intoxicating drinks) though it has slain thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, believe me, your co-worker in the good work you are so actively engaged in."

Dr. Morse's Invigorating Cordial.—A Phenomenon in Medicine. Health restored and Life lengthened, by Dr. Morae's In vigorating Elizer or Cordial. For centuries M vigorating Elixer or Cordial. For centuries Medical science has been tansacking the vegetable and mineral kingdoms, in search for something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all stimulants, tonics, and narcoducis had heretofore entailed. That something has been found. It is a vegetable production, brought from the sherile deserts of Arabia the stony, by the celebristed Proissor M. Norse, well known as a distinguished member of the leading scientific societies of the Old-World, and equally distinguished as a physician, a chem, ist, and a traveller. The juices of this herb, congentrated and combined with other vegetable nedicinal extracts, are now producing results hereto fore unheard of, in this, or any other country. At first the properties attributed to Prof. Worse's Invigorating Elixer or Cordial were deemed labulous. The public often deceived could not believe the simple and sub-lime truths announced by the discoverer. But facts, undeniable facts attested by wincesses of the highest class and character, are cal science has been tansacking the vegetable and by witnesses of the highest class and character, are now triumphing over all doubts, incredulity is overthrown, by a mass of testimony which is per-

ctly irresistible.

The Elizer remedies, in all cases, the deplorable evils arising from a misuse or abuse of the variou organs which make up the wonderful machine cat? led man. It restores to full vigor every delicate function connected with that mysferious compound function connected with that mysterious compound agency of matter and mind, necessary to the remuscular frame, or deficient in vital power, it is recommended as the buly means of communicating that nergy which is necessary id the proper enjoyment of the natural appetites as well as the higher mental attributes. Its bencherial effects are not confined to either sex or to day age. The fee ble girl, the ailing wife, the lightess, enervated youth, the overworn man of business, the victim of nervous debility, or from the weikness of a single organ, will all find immediate and permanent refrief from the discontinuities and permanent refrief from the discontinuities and refrigional towards it will prove a consolete and unfailing higher mental attributes. Its peneficial effeparalysis it will prove a complete and installing safeguard against that terrible midady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even the The Elizer deals with diseance assit exists, with or reference to cases, and will notionly remove the disorder itself, but rebuild the broken constitution. The derangements of the system, leading to neu-The derangements of the system, leading to nervous diseases, and the forms of increvous diseases used are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz nenralging the delereaux, headache, incipient paralysis, hystoria, pulpitation of the heart, spinal affections, inuscular debility, tremors flatulence, a pricking sensation in the flesh numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place move, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking of the stomadh, female irregularities, a chronic tendency to hiscarriage, emanding and all complaints growing out of a free ciation, and all complaints growing out, of a free indulgence of the pasiions and all barrenness that does not proceed from organic causes beyond the reach of medicine. Whenever the organs to be acted upon are free

from malformation or strictural diseases, it is aver red that Morse's invigorating Efficir will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Beer in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physical death. Bear in mind also, that for every kind of the nerves of motion and sensation is physical death. ervous disease the Elixer Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES.- No language convey an adequate idea of the immediate and almost miraculous charge which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak h system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once thraced, re-vivified and built up. The mental and physical symptom of nervous disease vanish altogether under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine teach the constitution itself, and restore to its nominal condition. Well may the preparation be called the medicinal wonder of the hineteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine herefolore supposed to have no existence.

A STIMULANT THAT ENTAILS NO RE-ACTION.—Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and Let no lather be ashamed
