Dear Sir: You ask me for my opinion of Sil

pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my rools, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roots tion, as is possible. A rew weeks after the rooms had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint how ever was firm and but little blistered. I consider this as severe a test as your Paint can be put to and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire. Respectfully, &c. Respectfully, &c

Jos. S. Longshore, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia -- It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases standing, have came under my notice, in which his skill has been manifest in restoring to perfect health, in cases where the nationt has been consid ered beyond medical aid. In the treatment of Sem inal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years. and deem it no more than justice to him as well at kindness to the unfortunate victim of early indisthemselves. ALFRED WOODWARD, M. D.

6 This is without exception, the most compre hensive and intelligent work published on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter and no parent, however fastidious, can object t placing it into the hands of his sons. The author has devoted many years to the treatment of the various compliants treated of, and, with too little reath to puff, and too little presumption to im ose, he has offered to the world, at the merel mined price of 25 cents, the fruit of some twent kno ledge imparted in this invaluable work. It would save years of pain, mortification and sorrow

r. Morse's Invigorating Corpple at all times of the most restored and Life lengthened, by Dr. Motse's In I take it for granted that ev-brigoraling Elizer or Cordial. For centuries Madidin their now. lants, tonics, and parcotics had heretofore enteried.
That something has been found. It is a vegetable production, brought from the sterile deserts of Arabia the stony, by the celebrated Professor M. Morse, well known as a distinguished member of the leading acientific societies of the Old World, and equally distinguished as a physician; a chem, ist, and a traveller. The juices of this herb, conjust, and a traveller. The juices of this herb, conjust, and a traveller. The juices of this herb, conjust, and the properties attributed to Prof. Morse's Invigorating Edizer or Cordial were deemed fabulous. The public often deceived could not believe the sample and sublime truths announced by the discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are lants, tonics, and parcotics had heretofore entailed by witnesses of the highest class and character, are overthrowh, by a mass of testimony which is per-fectly irresistible.

ectly trresistible. The Elizer remedies, in all cases, the deplorable vils arising from a misuse or abuse of the variou organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble nuscular frame, or deficient in vital power, it i muscular trame, or deficient in vital power, it is recommended as the only means of confinuicating that energy which is necessary to the proper enjoyment of the natural appottes as well as the higher mental attributes. Its connectial effects are not confined to either sex or to siny age. The fee ble gril, the aiting wife, the listless, cnervated youth, the overworn man of business; the victum of nervous debitity, or from the weakness of a single organ, will all find immédiate and perma nent relief from the use of this incomparable rent ovator. To those who have a predisposition translation in the prove a complete and untailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach, of medicine. Let not even these despair The Ehrer deals with disease as it exists, withour referends to cases, and will not only remove the disorder itself, but rebuild the broken constitution. The derangements of the system, leading to nervous diseases, and the forms of nervous diseases; and the forms of nervous diseases itself are so numerous that it would require a column to enumerated, the maladles for which this preparation is a specific. A few, however, may be enumerated, with inspections of the deleases. e ommended as the only means of co preparation is a specific. A few, however, may be enumerated, viz: nearthyia, tic dolereaux, headache, incipient paralysis, flystoria, palpitation of the heart, spinal affections, muscular debility, tremors flatulence, a pricking sensation in the flesh numbness, torpidity of the liver, mental de pression, weakness of the will, indisposition move, faintness after exercises, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetedey, melancholy, monomania. exual incompetency, melancholy, monomania, luor albus, sinking of the stumach, female irreguarities, a chronic tendency to miscarriage, emaniation, and all complaints growing out of from ciation, and all complaints growing out of a free indulgence of the pasitions and all barrenness that does not proceed from organic causes beyond the

oes not proceed from organic causes beyond the each of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases, it is aver-red that Morse's invigorating Elixir will replace weakness with strength, incapacity with efficiency, rregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Best in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physica death. Bear in mind also, that for every kind o ervous disease the Elixer Cordial is the only reli able preparation known.

CURE OF NERVOUS DISEASES.— No lan-

guage convey an adequate idea of the immediate and almost miraculous change which it occasions the diseased, debilitated and shattered nervou ystem, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and elaxed organization is at once braced. re-vivified and built up. The mental and physical symptom of nervous disease wanish altogether under its inuence. Nor is the effect temporary; on the contra-y, the rollef is permanent, for the cordial properits of the medicine reach the constitution itself, and restore to its nominal condition. Well may the preparation be called the medicinal wonder of the nineteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine heretofore supposed to have no existence. A STIMULANT THAT ENTAILS NO RE-

ACTION.—Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them, "that the last state of that man is worse than the first.

But the Elizer is an exhiberant without a single
drawback—safe in its operation, perpetual in its
happy influence upon the nerves, the mind, and the ntire organization it will also remove depressio excitement, a tendency to blush, sleeplessness, dislike of society, incapacity for study or business. LOSS OF MEMORY, confusion, giddiness, rush of blood to the head, m.-lancholy, mental debility, sensations, and given up by their Physician, be anlysteria, wretchedness, thoughts of selfdestruction Have the married, or those about to be married any impediment, read this truly useful book, as n hysicita, wretenedness, thoughts of self destruction tear of insanity, hypochondriasis, dyspepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propogating functions, hysicing, monomania, vague terrors, palpitation of the heart, impotency, conhas been the means of saving thousands of unfor ipation, etc., etc., from whatever cause arising is, if there is any reliance to be placed on hi man testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.—The unparallelled effects of this great restorative, in all complaints incident to Females, mark a new era in the annals of medicine. Thousands of stimu lants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her liable.—The result has herotofore been uniform. These nostrums have indeed imparted a momentary vivority to be not the property of the contract of the c vacity to the nervous system, a transient and delu-sive vigor to the muscles; but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the rocuperative power of the nerves, and the vital organization, and finally to

destroy the unhappy patient. Every woman of sense, who suffers from weakness, derangement, nervousness, tremors, pains in the back, or an other disorder, whether peculiar to her sex, ocomino in both sexes—to give the Invigoratin ordial a trial.

MARRIED PERSONS, or others, will find this Cordial after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so, but for this textraordinary programmers. textraordinary preparation.
