Dear Sir: We have used your "Plastic Paints '' or more than a year, and for Painting Bridges, Depots, &c., &c., we have found it quite equal to any paint we have used. In fact, we now

Steam Planing Mills. Dear Sir: You ask me for my opinion of ' ver's Mineral Paints," which you have put on m Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two o three shingles by placing them in the furnace under the boilers: the result was, that the portion uncovered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint how-over was firm and but little blistered. I consider this as severe a test as your Paint can be put to and under the circumstances I do not hesitate commend it as an invaluable preventive again Fire. Respectfully, &c. To which is added receipts for the cure of the above diseases, and a treatise on the cause, symp

Testimony of the Professor of Obstetrics in Penn College, Philadelphia.—Dr. Hunter's Medical Manual.—The author of this work, unlike the majority of those who advertise to cure the disease of which it treats is a graduate of one of the best ( olleges in the United Stetes. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence. Jos. S. Longshore, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of disease of t: e Gental Organs, some of them or long standing, have came under my notice, in which his skill has been manifest in restoring to perfect health, in cases where the patient has been considred beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, 1 do not know his superior in the profession. I have been acquainted with the Authorsome thirty years and deem it no more than justice to him as well a kindness to the unfortunate victim of early indicretion, to recommend him as one in wh themselves. A Presbyterian clergyman in Ohio, writing "unter's Medical Manual" says:—"Thousands pon thousands of our youth, by evil example and aftuence of the passions, have been led into the abit of self-pollution, without realizing the sin and fearful consequences upon themselves and their posterity. The constitution of thousands who are raising families have been enteebled, if not bro cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of hu-man wretchedness, would confer the greatest bles-sing next to the religion of Jesus Christ, on the esent and coming generations. Intemperance (or the use of intoxicating drinks) though it has slain thousands, is not a greater scourge to the human race.
