A Fine Improvement on Chesnut Street.

REMOVAL OF AN OLD ESTABLISHMENT—Meallister & Brother, the well known Optidans, have recently removed from their fold quarters, No. 48 Chesnut street, above Second, to their new and spacious building, 194 Chesnut street, nearly opposite the Masonic Hall. Their new structure is quite an ornament to the section of the city in which it is incated, and highly creditable to the enterprising frum who have reared it. The building, which has been constructed throughout in the most substantial manner by slark Baiderston, builder, is of fine pressed brick, four stories in height, with windows elliptically arched. Aboveall is a tasty brick cornice, instead of the miserable wooden affairs which have recently proved such efficient fire-traps. The store is as feet in depth, with lofty ceilings and large skylights, which furnish the clear and steady light required in the Optical and Philosophical departments of the business of the house. The entire arrangement furnish unmistakeable evidence that the business will be conducted with that strict regard to system which has always characterised this establishment. As an instance of their systematic mode of doing business, we may mention that every pair of Gold Spectacles sold by the horm is privately marked and registered in a book prepared for that purpose; the number, the name, and residence of the purchaser, as also the Karat. Focus, Pattern, Price, &c. &c., are all carefully recorded. We are informed that this mode of registering, which was adopted in 1816, has proved invaluable, particularly as a means of restoring lost property to its rightful owners. The same large thermometer from which a Register of the Weather has been made for thirty years, and which is so often referred to as "McAllister's Thermometer," will be removed to their new location on the first of January. The record so generally consulted will continue to be piaced convenient to public inspection. We observe that the old gilded but of Frank-lin, (carved upwards of fifty y A Fine Improvement on Chesnut Street

Report of the Directors of the "Farmers"

of Lancaster, on Saturday the 30th day of December, A. D. 1854.

It affords the Directors great satisfaction in submitting to the members of the "Farmers' Mutual Insurance Company," a report of their proceedingsduring the past year, to be able to state, that during that period, the company been favored, that but one fire, causing any considerable amount of damage, has occurred amongst those who constitute this company. Several small fires have taken place, but the damage done was too inconsiderable to mort any notice in this report, except that the names of the sufferors, and the amount paid, will be stated in the Treasurer's account. The Larn of Daniel Lefevre, of Upper Locacek two mship, was destroyed by fire on the 29th day of June last, consuming at the same time his whole crop of hay. How the fire originated, has not been satisfactorily ascertained, but as it occurred in the day time, when no fire was known to

e work of an incendiary. The barn and contents were entered for insurance at th aluation of \$1800; and the appraisers having reported the ctual damage sustained by Mr. Lefevre, to be equal to the mount insured three-fourths of that sum, being \$1350,

To enable the Treasurer to meet this demand, a tax of the cents on the hundred dollars valuation was levied, and has been partially collected. The Treasurer's statement will show a balance of \$102, os in his favor, but the outstanding taxes will be nearly sufficient to pay all just clashus against the company at this time.

The estimation in which the Farmers' Mutual Insurance Company is held by the public, is demonstrated by the bart that, during the year just brought to a close, a great humber of new policies, have been issued, and a larger amount of property has been insured, than in any one year since, its first organization; whilst the amount withdrawn-during the same-period has been near \$50,000 less than during the proceeding year. The policies returned to be cancelled are chiefly where the owners are deceased, and the property

action, whilst the amount withdrawn—during the same period his been near \$50,000 less than during the preceding year. The policies returned to be cancelled are chelly where the owners are deceased, and the property sold. Very few rountary withdrawals having been made during the past year.

Since the lat of January last, two hundred and fifty-eight new policies have been issued, covering property to the amount of \$500,955 to which must be added, for alterations and additions, in which the amount insured has been increased \$52,670,making a total increase of \$593,955. The number of policies cancelled during the same period, is 33, containing property to the amount of \$20,000. The hunts be added, for alterations and changes, in which the amount insured was diminished, the sum of \$2,000. making the whole amount withdrawn \$55,287; thus leaving an actual gain or increase to the capital of the company of \$508,330. The whole amount of property now standing on the books of the company, is Two millions eight hundred and eighty-eight thousand, nine hundred and eighty-eight thousand, nine hundred and twenty-eight dollars, (\$2,888,298).

But as hual returns from several sections have not yet reached the *secretary, it is probable that considerable reduction may be found necessary, in consequence of deaths, sales, &c., during the last two years. The Directors entortain the opinion, that after all necessary deductions have been made, the amount insured will still exceed the sum of \$2,800,000. And, though it is not expected that the increase during the ensuing year will equal that fust closing there is good reason to anticipate a steady and gradual augmentation of the amount of property entered for insurance in this company.

The following statement of the Treasurer's accounts, exhibits the financial condition of the Company at this time:

STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influ-ence guident to the enjoyment of health. THE BLOOMING BRIDE.

THE BLOUMING BRIDE,
and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debile
tated wife, with frame emaciated, nerves unstrung,
spirits depressed, countenance bearing the impress
of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and
plainest rules of health as connected with the maringe state, the violation of which entails disease,
suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND FOURTH GENERATION,"

It was first published 1847, since which time

FIVE HUNDRED THOUSAND COPIES have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a re-BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thou-ands both in person and by letter.

Hero every woman can discover, by comparing her ow:

symptoms with those described, the nature, character, auses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of nstruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for bids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or nlarm as al the neculiarities incident to her situation are described. How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb) or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the variou subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage Reader, are you a husband or a father? a wife or nother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and han piness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the intimuities of age and the proper education of

Gentlemen: It affords me infinite pleasure to bear testimony to the great value of your Metallic Burial Cases.—For durability, I think they cannot be surpassed, and their great beauty is so far superior to the ordinary coffin, that it seems to rob death of much of its gloom and terror. I had the honor to accompany the remains of Henry Clay from this city to his home in Kentucky, and the beautiful case you had the kindness to present to the committee, whilst it withstood the severest test of transportation, was the object of admiration of all who saw it.
